Public Hearing: YES ☒ NO ☐

Department: Planning and Sustainability

SUBJECT:

COMMISSION DISTRICT(S): Commission District 03 Super District 06

Application of East Lake Holdings, Inc. to rezone property from C-1 (Local Commercial) and M (Light Industrial) to MR-2 (Medium Density Residential-2) for development of a multifamily and townhome development, at 1847 2nd Avenue.

PETITION NO.: Z-22-1245577 (2022-1475)

PROPOSED USE: multi-family, retail, and townhome

LOCATION: 1845 and 1851 2nd Avenue and 1939 Alexander Avenue, Decatur, Georgia

PARCEL NO.: 15-173-07-002, -018, & -048

Information Contact: Melora Furman, Sr. Planner

Phone Number: 404-371-2155

PURPOSE:

Application of East Lake Holdings, Inc. to rezone property from C-1 (Local Commercial) and M (Light Industrial) to MR-2 (Medium Density Residential-2) for development of a retail, multifamily, and townhome development, at 1847 2nd Avenue.

RECOMMENDATION:

COMMUNITY COUNCIL: Deferral.

PLANNING COMMISSION: Full Cycle Deferral.

STAFF RECOMMENDATION: Approval with Conditions.

PLANNING STAFF ANALYSIS: As a redevelopment project at an unused site in a Neighborhood Center character area, the proposal is consistent with the following policy of the 2021 Comprehensive Plan Update: “Promote new and redevelopment at or near activity centers as a means of reducing vehicle miles traveled (VMT). (p. 99) The proposed streetscaping along 2nd Avenue and within the development is consistent with the Plan Update for “Improved street character with consistent signage, lighting, landscaping, and other design features.” (p. 99) The publicly-accessible Village Green is consistent with the following policy: “Encourage [all] development and redevelopment in activity centers [to] provide open space and/or contribute to the public realm with wider public sidewalks, pedestrian linkages, and other design features.” (p. 99) Neighbors have commented that 2nd Avenue carries high levels of traffic during peak commuting hours and have requested a second point of vehicular ingress and egress, for the purpose of distributing traffic off of 2nd Avenue. Staff considers a suggestion to connect the subject property with Fayetteville Road through one of the residential properties along Fayetteville to be impractical and detrimental to the preservation of a wooded area at the west side of the site. It should be noted that long-term solutions to traffic issues involve public transit and strategies such as teleworking and shift scheduling. Notwithstanding the traffic issue, the zoning proposal is suitable in view of the use and development of adjacent and nearby properties. It is consistent with the character of the multifamily residential land use on the

adjoining property to the south, and compatible with the commercial land uses to the north. Therefore, the Department of Planning and Sustainability recommends, “Approval with Conditions”.

PLANNING COMMISSION VOTE: Full Cycle Deferral 7-0-0. Vivian Moore moved, LaSonya Osler seconded for Full Cycle Deferral to the July 2022 zoning agenda to allow the applicant time to address traffic impacts and pedestrian access.

COMMUNITY COUNCIL VOTE/RECOMMENDATION: Deferral 8-1-0. Deferral to allow time to resolve neighbors’ concerns about traffic and the feasibility of a secondary access point.

Board of Commissioners Hearing Date: May 26, 2022, 5:30 P.M.

STAFF ANALYSIS

Case No.: Z-22-1245577 **Agenda #:** N7

Location/Address: 1845 and 1851 2nd Avenue, and 1939 Alexander Avenue, Decatur, Georgia **Commission District:** 3 **Super District:** 6

Parcel ID(s): 15-173-07-002, -018, & -048

Request: To rezone property from C-1 (Local Commercial) and M (Light Industrial) to MR-2 (Medium Density Residential-2) for development of a multifamily and townhome development.

Property Owner(s): Perennial Properties

Applicant/Agent: East Lake Holdings, Inc.

Acreage: 11.62 acres

Existing Land Use: Undeveloped, partly wooded

Surrounding Properties: To the northwest: single-family residential (zoned R-75); to the north: a vacated auto repair shop and The Atlanta Masjid Al Islam. To the southeast, southwest, west, and northwest: single-family residential (zoned R-75). To the south: multifamily residential (zoned RSM).

Comprehensive Plan: NC (Neighborhood Commercial) ☒ Consistent ☐ Inconsistent

Proposed Density: 24 units/acre	Existing Density: N.A. (undeveloped)
Proposed Units: 281	Existing Units: N.A. (undeveloped)

Zoning History:

The subject property, known colloquially as the “Bag Factory Site”, is comprised of three parcels: 1939 Alexander Avenue, 1846 2nd Avenue, and 1851 2nd Avenue. Historic County zoning maps indicate that, as of March 9, 2009, the northernmost halves of 1939 Alexander Avenue and 1846 2nd Avenue were zoned M (Light Industrial), most likely to allow the manufacturing use implied by the nickname of the property. The remaining portions of these properties were zoned M sometime between 2009 and the present, but information about this zoning action have not yet been found.

SITE AND AREA ANALYSIS

The subject property is a 11.62-acre tract located approximately 700 feet south of Glenwood Road, an east-west minor arterial, and approximately 200 – 500 feet east of Fayetteville Road, a collector. The property fronts on 2nd

Avenue, a two-way, two-lane collector, and on Alexander Avenue, a 39-foot wide, largely unpaved local street that dead-ends at the northern edge of the property. The property has mixed zoning: the westernmost two-thirds are zoned M, and the easternmost third is zoned C-1. The western third and south-central parts of the property are heavily wooded. The remainder of the property have been cleared or leveled after demolition of a “bag factory”, or a manufacturing plant for commercial bags, possibly for used for bagging cotton as with the Fulton Bag and Cotton Mill, located in Atlanta. The topography slopes gradually towards the southwest.

Character of surrounding area: Nearby properties are primarily single-family residential, zoned R-75 and RSM, and have the characteristics of traditional neighborhoods: streets are laid out in a grid pattern, and lots are relatively small and uniform. Glenwood Avenue, located approximately 630 to the north in the City of Atlanta, forms a dividing line between these neighborhoods and the East Lake Golf Club and Charlie Yates Golf Course, located to the north of Glenwood. The adjoining property to the south is zoned RSM and is developed for the Columbia Village Villas, a one-story multifamily residential development. Exceptions to the residential land use pattern is found across the street from the subject property and on the adjoining properties to the north. The Donald E. Trimble Funeral Home, the Bethel Baptist Church, and a multitenant commercial building with a restaurant and hair salon are located across 2nd Avenue to the east and are zoned C-1. A vacated auto repair shop, and a small shopping center which is largely occupied by the Atlanta Masjid of Al Islam mosque, both zoned C-1, are located on the adjoining properties to the north. The shopping center has frontage on Fayetteville Road and on Alexander Avenue, which runs behind the rear wall of the mosque. Alexander Avenue is largely unimproved and dead-ends at the north property line of the subject property.

PROJECT DESCRIPTION

The development proposal is for a mixed residential development with accessory retail. It would consist of 237 apartment units, 44 townhomes, and two street-level retail spaces with a total of 5,000 square feet of floor area. A 32,000 square foot green space (called a Village Green on the site plan) would be located at the center of the development. The Village Green and accompanying pavilion would be accessible by the public. For security and privacy, the residential buildings would be accessible only by residents. The multifamily residential buildings would each have a central amenity; one would have a green open space amenity, and the other would have a pool adjacent to a private club and fitness facility.

The proposed development is targeted specifically toward young professionals and empty nesters and is not expected to be occupied with a significant number of families with school aged children. The development will include what the developer calls a “traditional” unit mix of “studio, one-bedroom, two-bedroom (20% of total), and three-bedroom units (5% - 10% of total.)”

Vehicular access would be provided in a double driveway. Vehicular circulation throughout the site would be provided by linear surface parking lots with two-way aisles. The site plan shows sidewalks with street trees lining the surface parking lots. Public transit is provided by two MARTA bus stops located on 2nd Avenue directly in front of the development site. The East Lake MARTA station, located approximately 2 miles from the property, has limited park-and-ride parking lots.

Neighbors have commented that 2nd Avenue carries high levels of traffic during peak commuting hours. They have requested a second point of vehicular ingress and egress, for the purpose of distributing traffic off of 2nd Avenue. A suggestion to connect the subject property with Fayetteville Road through one of the residential properties along Fayetteville is impractical since it is unknown whether any of the owners want to sell at this time. Also, such a proposal might have negative impacts on the remaining residential properties on either side of the purchased property. Finally, the site plan for the proposed development shows that a large, wooded area on the west side of

the side is to remain natural, so that putting a driveway through it would involve destroying trees and re-grading, both of which are not recommended because of consequences to stormwater drainage, habitat, and the climate. Another suggestion is to connect the dead-end Alexander Avenue to the internal circulation system of the site. Transportation Manager, Patrece Keeter, has said that Alexander Avenue is not suitable. At present, it is a narrow, mostly unpaved street that runs along the back of the building used for the Atlanta Masjid Al Islam. Staff recommends a zoning condition that requires a street stub at a point where an internal street/linear parking lot on the subject property can connect with Alexander Avenue if, in the future, the Masjid is demolished, and Alexander Avenue can be widened and used by residents of the development. It is recommended that ingress and egress be allowed only by residents through use of a keyed gate system, to prevent the general public from cutting across the development site.

COMPLIANCE WITH DISTRICT STANDARDS:

MR-2 STANDARD	REQUIRED/ALLOWED	PROVIDED/PROPOSED	COMPLIANCE
MAX. D.U.s/ACRE (BASE, W/BONUSES)	Base: 12 d.u.s/acre W/Bonuses: 24 d.u.s/ac.	24 units/acre	Yes

LAND USE AND ZONING ANALYSIS

Section 27-832 of the Zoning Ordinance, “Standards and factors governing review of proposed amendments to the official zoning map” states that the following standards and factors shall govern the review of all proposed amendments to the zoning maps.

A. Whether the zoning proposal is in conformity with the policy and intent of the comprehensive plan:

As a redevelopment project at an unused site in a Neighborhood Center character area, the proposal is consistent with the following policy of the 2021 Comprehensive Plan Update: “Promote new and redevelopment at or near activity centers as a means of reducing vehicle miles traveled (VMT). (p. 99) The proposed streetscaping along 2nd Avenue and within the development is consistent with the Plan Update for “Improved street character with consistent signage, lighting, landscaping, and other design features.” (p. 99) The publicly-accessible Village Green is consistent with the following policy: “Encourage [all] development and redevelopment in activity centers [to] provide open space and/or contribute to the public realm with wider public sidewalks, pedestrian linkages, and other design features.” (p. 99)

B. Whether the zoning proposal will permit a use that is suitable in view of the use and development of adjacent and nearby properties:

The proposed zoning is suitable in view of the use and development of adjacent and nearby properties. It is consistent with the character of the multifamily residential land use on the adjoining property to the south, and compatible with the commercial land uses to the north. Large expanses of wooded property will be left untouched on the west side of the site, buffering the single-family residential land uses on adjoining properties to the west.

C. Whether the property to be affected by the zoning proposal has a reasonable economic use as currently zoned:

The fact that the property has remained undeveloped for what the applicant calls “several decades” indicates that there is little market interest in redeveloping the property as currently zoned. Thus the property does not appear to have reasonable economic use.

D. Whether the zoning proposal will adversely affect the existing use or usability of adjacent or nearby property:

Because of the substantial buffers next to adjoining single-family residential properties to the west, and the compatibility of the proposed use with the multifamily residential use of the adjoining property to the south, the proposed development is not expected to adversely affect the use or usability of adjacent or nearby property.

E. Whether there are other existing or changing conditions affecting the use and development of the property, which give supporting grounds for either approval or disapproval of the zoning proposal:

Provision of the publicly-accessible park at the center of the development will furnish an important opportunity for neighborhood residents to socialize and recreate.

F. Whether the zoning proposal will adversely affect historic buildings, sites, districts, or archaeological resources:

No known historic buildings, sites, districts, or archaeological resources are located on the property or in the surrounding area.

G. Whether the zoning proposal will result in a use which will or could cause an excessive or burdensome use of existing streets, transportation facilities, utilities, or schools:

The traffic study prepared for this application indicates that, based on national trip generation rates for various land uses, the proposed development is projected to generate fewer total daily trips than it would if developed for a range of industrial and commercial uses under the current zoning. Public Works Traffic Engineering staff has commented that the proposed development is not expected to impair traffic flow on surrounding streets.

The Board of Education commented that neighborhood elementary, middle, and high schools have the capacity to absorb the additional school-aged children that are expected to live in the development.

There have been no comments from other reviewing agencies and County divisions that indicate an excessive or burdensome use of County infrastructure would result from the proposed development.

H. Whether the zoning proposal adversely impacts the environment or surrounding natural resources:

Significant areas of the site are proposed to remain as natural woodland. Thus, the impact of the proposed development on the natural environment is expected to be less than for other proposals that would develop the entire site.

STAFF RECOMMENDATION:

As a redevelopment project at an unused site in a Neighborhood Center character area, the proposal is consistent with the following policy of the 2021 Comprehensive Plan Update: "Promote new and redevelopment at or near activity centers as a means of reducing vehicle miles traveled (VMT). (p. 99) The proposed streetscaping along 2nd Avenue and within the development is consistent with the Plan Update for "Improved street character with consistent signage, lighting, landscaping, and other design features." (p. 99) The publicly-accessible Village Green is consistent with the following policy: "Encourage [all] development and redevelopment in activity centers [to] provide open space and/or contribute to the public realm with wider public sidewalks, pedestrian linkages, and other design features." (p. 99) The proposed zoning is suitable in view of the use and development of adjacent and nearby properties. It is consistent with the character of the multifamily residential land use on the adjoining property to the south, and compatible with the commercial land uses to the north.

Therefore, the Department of Planning and Sustainability recommends "Approval" with the following conditions:

1. The development shall be substantially consistent with the site plan titled, Architectural Site Plan Bag Factory Development, prepared by Dynamik Design, dated 2/23/22.
2. The development shall have no more than 5,000 square feet of accessory retail space.
3. The developer shall work with the Public Works department to determine if a pedestrian pathway can be installed along Alexander Avenue and if so, shall construct a pathway that would connect with a path along

the north side of the property to 2nd Avenue. If approved by Public Works, the path shall be completed before issuance of the final Certificate of Occupancy.

4. The approval of this rezoning application by the Board of Commissioners has no bearing on other approvals by the Zoning Board of Appeals or other authority, whose decision should be based on the merits of the application before said authority.

NEXT STEPS

Following an approval of this zoning action, one or several of the following may be required:

- ✓ • **Land Disturbance Permit** *(Required for of new building construction on non-residential properties, or land disturbance/improvement such as storm water detention, paving, digging, or landscaping.)*
- ✓ • **Building Permit** *(New construction or renovation of a building (interior or exterior) may require full plan submittal or other documentation. Zoning, site development, watershed and health department standards will be checked for compliance.)*
- ✓ • **Certificate of Occupancy** *(Required prior to occupation of a commercial or residential space and for use of property for a business. Floor plans may be required for certain types of occupants.)*
- **Plat Approval** *(Required if any parcel is being subdivided, re-parceled, or combined. Issued “administratively”; no public hearing required.)*
- **Sketch Plat Approval** *(Required for the subdivision of property into three lots or more. Requires a public hearing by the Planning Commission.)*
- **Overlay Review** *(Required review of development and building plans for all new construction or exterior modification of building(s) located within a designated overlay district.)*
- **Historic Preservation** *(A Certificate of Appropriateness is required for any proposed changes to building exteriors or improvements to land when located within the Druid Hills or the Soapstone Geological Historic Districts. Historic Preservation Committee public hearing may be required.)*
- ✓ • **Variance** *(Required to seek relief from any development standards of the Zoning Ordinance. A public hearing and action by the Board of Appeals are required for most variances.)*
- **Minor Modification** *(Required if there are any proposed minor changes to zoning conditions that were approved by the Board of Commissioners. The review is administrative if the changes are determined to be minor as described by Zoning Code.)*
- **Major Modification** *(Required submittal of a complete zoning application for a public hearing if there are any proposed major changes to zoning conditions that were approved by the Board of Commissioner for a prior rezoning.)*
- **Business License** *(Required for any business or non-residential enterprise operating in Unincorporated DeKalb County, including in-home occupations).*
- **Alcohol License** *(Required permit to sell alcohol for consumption on-site or packaged for off-site consumption. Signed and sealed distance survey is required. Background checks will be performed.)*

Each of the approvals and permits listed above requires submittal of application and supporting documents, and payment of fees. Please consult with the appropriate department/division.

Public Works Transportation Division Comments

- Second Avenue is classified as a collector road.
- Please see Zoning Code 5.4.3 and Land Development Code 14-190 for infrastructure improvements.
- Required right of way dedication of 35 feet from centerline or such that all public infrastructure is within right of way, whichever greater.
- Required: 6 foot sidewalk and 4 foot bike lane OR a 10 foot multiuse path (preferred), curb and gutter raised to current standards, 10 foot landscape strip (see Zoning 5.4.3 for options), pedestrian scale street lighting (contact: hefowler@dekalbcountyga.gov).
- Developer needs to watch [comply with, if applicable] access management requirements in Land Development Code Section 14-200 (6).
- No poles can remain within the limits of the sidewalk or multiuse path.
- Intersection and stopping sight distance must be met for all access points based on AASHTO.
- Make functional pedestrian and bicycle connections between the property destinations and the public right of way.

Proposed number of traffic lanes _____	Proposed number of traffic lanes _____
Proposed right of way width _____	Proposed right of way width _____

Please provide additional information relating to the following statement.

According to studies conducted by the Institute of Traffic Engineers (ITE) 6/7TH Edition (whichever is applicable), churches generate an average of fifteen (15) vehicle trip end (VTE) per 1,000 square feet of floor area, with an eight (8%) percent peak hour factor. Based on the above formula, the _____ square foot place of worship building would generate _____ vehicle trip ends, with approximately _____ peak hour vehicle trip ends.

Single Family residence, on the other hand, would generate ten (10) VTE's per day per dwelling unit, with a ten (10%) percent peak hour factor. Based on the above referenced formula, the _____ (Single Family Residential) District designation which allows a maximum of _____ units per acres, and the given fact that the project site is approximately _____ acres in land area, _____ daily vehicle trip end, and _____ peak hour vehicle trip end would be generated with residential development of the parcel.

COMMENTS:

Nothing found that would disrupt traffic pattern. Plans and fielded reviewed.

DEKALB COUNTY GOVERNMENT PLANNING DEPARTMENT DISTRIBUTION FORM

The following areas below may warrant comments from the Development Division. Please respond accordingly as the issues relate to the proposed request and the site plan enclosed as it relates to Chapter 14. You may address applicable disciplines.

DEVELOPMENT ANALYSIS:

- **Storm Water Management**

Compliance with the Georgia Stormwater Management Manual, DeKalb County Code of Ordinances 14-40 for Stormwater Management and 14-42 for Storm Water Quality Control **(sections have been amended recently; please request the amended chapter)**, to include Runoff Reduction Volume where applicable is required as a condition of land development permit approval. Use Volume Three of the G.S.M.M. for best maintenance practices. Use the NOAA Atlas 14 Point Precipitation Data set specific to the site. Recommend Low Impact Development features/ Green Infrastructure be included in the proposed site design to protect as much as practicable the statewaters and special flood hazard areas.

Conceptual plan doesn't indicate the location of the stormwater management facility. Concerns are related to the discharge point of the facility. Development/residences are located downstream of the property, and consideration must be given as to where the discharge pipe from the facility is directed as to not create adverse effects. Runoff Reduction Volume shall be provided, unless technical justification is provided as to the unfeasibility. Strongly recommend to investigate the site and identify location where RRv can be provided and re-design/revise the layout to comply with the RRv requirement.

- **Flood Hazard Area/Wetlands**

The presence of FEMA Flood Hazard Area **was not** indicated in the County G.I.S. mapping records for the site; and should be noted in the plans at the time of any land development permit application. Encroachment of flood hazard areas require compliance with Article IV of Chapter 14 and FEMA floodplain regulations

- **Landscaping/Tree Preservation**

Landscaping and tree preservation plans for any building, or parking lot must comply with DeKalb County Code of Ordinances 14-39 as well as Chapter 27 Article 5 and are subject to approval from the County Arborist.

- **Tributary Buffer**

State water buffer **was not** reflected in the G.I.S. records for the site. Typical state waters buffer have a 75' undisturbed stream buffer and land development within the undisturbed creek buffer is prohibited without a variance per DeKalb County Code of Ordinances 14-44.1.

RE: Community Outreach Report for Application by Perennial Properties, Inc. ("Perennial") to Rezone Properties at 1845 2nd Avenue, 1851 2nd Avenue, and 1939 Alexander Avenue (Collectively, the "Bag Factory Site").

Dear Andrew:

As you know, Perennial is pursuing the county's approval of its application to downzone the Bag Factory Site from commercial and industrial to multi-family residential. As part of its preparation to file the application, Perennial hosted three community stakeholder meetings in advance of submitting its modification application. The discussion points at these meetings are summarized below.

I. Perennial's Pre-Application Community Stakeholder Meetings.

Perennial hosted virtual community stakeholder meetings on February 1st, 8th, and 17th. All the meetings started at 6 pm and, while they were scheduled to run until 7:30, the actual time that they ended varied due to their interactive nature. The first meeting ended after 7:30 because the discussion involved a lot of community feedback. The other two meetings were shorter than the first because community feedback/concerns diminished over the course of Perennial's ongoing community conversation.

Invitations to the first meeting were primarily limited to neighbors whose properties immediately abutted (or were located across the street from) the Bag Factory Site because Perennial wanted to start its community outreach by focusing on the households with the highest potential to be impacted by the proposed development. However, those immediate neighbors shared the invitation with other neighbors who also chose to attend, and Perennial enthusiastically welcomed their attendance. The later community stakeholder meetings were sent to all neighbors within 500 feet of the Bag Factory Site, Community Council 3 members, and anyone else interested in Perennial's development proposal were invited to participate. Perennial also extended invitations to the third meeting to anyone on the mailing list provided by the planning staff who had not already been invited.

Copies of the invitations to all three meetings and our mailing lists are included in this application package.

II. Points of Community Discussion

The points of discussion raised by community stakeholders tended to be fairly consistent across all three meetings. These discussion points, and Perennial's responses, were primarily:

▪ **GENTRIFICATION/AFFORDABLE HOUSING**

- Perennial's target market seems to be smaller families and singles.
- Will there be long-term opportunities to house larger families?
- Will there be affordable units and what income levels would they target?

Perennial's proposed development is designed and intended to be approachable market-rate residential units. Accordingly, there will not technically be any units set aside as affordable housing. However, the proposed development will have a traditional mix of unit types, with most units being studios or one-bedroom units. About 20% of the units will have two bedrooms and approximately 5%-10% of the units will have three bedrooms. Therefore, while the proposed development will not have a lot of units to accommodate large families, it will provide housing opportunities for young professionals and empty nesters.

▪ **POTENTIAL TRAFFIC CONFLICTS**

- There is a concern about traffic impacts along 2nd Avenue.
- Can Alexander Avenue provide secondary site access to Fayetteville Road?¹
- Donald Trimble traffic could conflict with curb cut locations on site plan.
- Can one driveway be relocated to align with Dancing Fox Road?
- Acceleration/deceleration lanes could conflict with speeders on 2nd Avenue.
- Will we accommodate MARTA stops on the Bag Factory Site?

Perennial strongly considered showing secondary site access through Alexander Avenue to avoid relying on 2nd Avenue for its sole access to the Bag Factory Site. However, Perennial decided against providing such secondary access due to anticipated concerns from residential neighbors who live along Fayetteville Road. After being repeatedly presented with the secondary access question by its residential neighbors, Perennial has started considering the inclusion of secondary pedestrian access through Alexander Avenue. More specifically, Perennial has started a dialogue about this issue with the Atlanta Masjid of Al-Islam, which fronts on Alexander Avenue and directly abuts the potential secondary access point.

In response to the other concerns, Perennial revised its site plan to: (1) remove its acceleration/deceleration lanes, (2) split its two-way access driveway into separate one-way driveways, and (3) relocate one of its driveways to better align with one of Donald Trimble's existing curb cuts. Perennial is consulting with its traffic engineers on any remaining discussion points.

¹ This question literally came up at every community stakeholder meeting that Perennial hosted.

▪ **POTENTIAL COMMUNITY CONNECTIONS/CONFLICTS**

- Interparcel access
Will there be pedestrian access between the Bag Factory Site and Publix?
Access safety measures are important, considering recent shootings in the area.
- Community accessibility
Will there be opportunities for small, local businesses to occupy retail spaces?
- Atlanta Masjid of Al-Islam's daily calls to prayer could generate noise complaints.

As described above, Perennial is exploring opportunities for pedestrian access between the Bag Factory Site and the nearby Publix on Glenwood Avenue. While the development's proposed central greenspace will be publicly accessible, access the adjacent residential components will be controlled and restricted.

Perennial has not yet programmed the retail spaces but its ongoing practice is to curate its retail amenities with a preference for local, unique retail experiences over chain businesses.

Perennial is engaging with the Masjid to address concerns about new neighbors complaining about the daily calls to prayer, which is in addition to the ongoing discussion between those parties about potential Alexander Avenue access.

▪ **SITE DESIGN**

- Buffering/privacy for adjoining neighbors
- Driveways around central greenspace prevent having a calm, verdant environment.

Perennial responded to these concerns by revising its site plan to: (1) increase transitional buffering adjacent to neighboring residences, (2) converting the parking spaces around its central open space from asphalt spaces to pervious spaces, and (3) reducing the width of the driveways around the central open space.

The community's willingness to engage Perennial in an ongoing stakeholder discussion has been extraordinary. These discussions have already resulted in improvements to Perennial's development plan. At the conclusion of the last pre-application meeting, Perennial advised the participating neighbors of their opportunity to participate in its upcoming Community Council meeting.²

² Many of the participating neighbors resided in Atlanta and, therefore, were unaware of Dekalb County's community council system.

RE: Invitation to Virtual Meeting to Discuss Planned Application to Rezone Property at 1851 2nd Avenue, 1845 2nd Avenue, and 1939 Alexander Avenue (also known as the Bag Factory Site)

Dear Neighbor:

Perennial Properties is exploring an opportunity to develop the property described above (please refer to the attached map) with a residential and mixed-use community development. We want to initiate the community conversation on our development proposal with an intimate meeting with the neighbors whose properties abut or face the site. We hope you can join us at the following virtual meeting so that you may learn more about our company and the proposed development, ask questions, and provide feedback:

Date: Tuesday, February 1st, 2022

Time: 6:00pm – 7:30pm

Meeting Log-In Credentials:

<https://gracehill.zoom.us>

Meeting ID: 935 6647 6267

Passcode: 970419

Dial by Phone: 646 876 9923

Perennial Properties will host a follow-up community stakeholder meeting in February before filing its rezoning application. This meeting will be open to anyone in the area who is interested in the proposed development.

If you have any questions about the meeting, please contact me by phone at (678) 389-5515 or email at cwasilewsky@perennialproperties.net. We look forward to meeting you to kick off the community conversation!

Sincerely,

A handwritten signature in black ink, appearing to read "Craig Wasilewsky", with a long, sweeping horizontal line extending to the right.

Craig Wasilewsky
Development Manager

RE: Invitation to Virtual Meeting to Discuss Planned Application to Rezone Property at 1851 2nd Avenue, 1845 2nd Avenue, and 1939 Alexander Avenue (also known as the Bag Factory Site)

Dear Neighbor:

Perennial Properties is exploring an opportunity to develop the property described above (please refer to the attached map) with a residential and mixed-use community development. We want to continue the conversation on our development proposal with an intimate community stakeholder meeting with our surrounding neighbors. We hope you can join us at one or both of the following virtual meetings so that you may learn more about our company and the proposed development, ask questions, and provide feedback:

Meeting #1:

Date: Tuesday, February 8th, 2022

Time: 6:00pm – 7:30pm

Meeting Log-In Credentials:

<https://gracehill.zoom.us>

Meeting ID: 951 8263 4847

Passcode: 797009

Dial by Phone: 646 876 9923

Meeting #2:

Date: Thursday, February 17th, 2022

Time: 6:00pm – 7:30pm

Meeting Log-In Credentials:

<https://gracehill.zoom.us>

Meeting ID: 937 8110 7101

Passcode: 028103

Dial by Phone: 646 876 9923

If you have any questions about the meeting, please contact me by phone at (678) 389-5515 or email at cwasilewsky@perennialproperties.net. We look forward to meeting you to kick off the community conversation!

Sincerely,

A handwritten signature in black ink, appearing to read "Craig Wasilewsky", with a long, sweeping horizontal line extending to the right.

Craig Wasilewsky
Development Manager

Mr. Andrew Baker, Director
DeKalb County Dept. of Planning and Sustainability
330 West Ponce de Leon Avenue, Suite 500
Decatur, GA 30030

RE: Application by Perennial Properties, Inc. ("Perennial") to Rezone Properties at 1845 2nd Avenue, 1851 2nd Avenue, and 1939 Alexander Avenue (Collectively, the "Bag Factory Site") to Facilitate a New Multi-Family Residential Development.

Dear Andrew:

My firm represents Perennial, an Atlanta-based developer that, since it was founded in 1988, has specialized in creating high quality residential communities that incorporate street-level retail amenities. Starting with its first residential development, which is located on Lakeview Avenue just north of Ponce de Leon Avenue in Atlanta, Perennial has developed and operated more than 20 sites in and around Atlanta. One of Perennial's most recently developed multi-family communities will open around the corner from the Bag Factory Site at 2201 Glenwood Avenue SE, immediately next door to the Publix on Glenwood Avenue. Perennial's business model of holding the communities it develops over the long term evidences its commitment to its core mission: to provide exceptional housing and retail experiences with extraordinary service for its residents, commercial tenants, and their customers.

While the Bag Factory Site is currently vacant land, Perennial desires to develop it with a 281-unit multi-family residential development consisting of 237 apartment units, 44 townhomes, and two street-level accessory retail spaces totaling 5,000 square feet of floor area. An over 32,000 square-foot village green and activated central pavilion will serve as the heart of the proposed development, and as a defining amenity for future residents and the surrounding community. While the village green will be publicly accessible, access to the residential areas of the development would be controlled and limited to residents. These secure areas would be served by robust amenity services such as two courtyards, one of which would provide a green, park-like setting, with the other serving as a pool courtyard immediately adjacent to a private club and fitness facility.

The Bag Factory Site currently has mixed zoning with various portions of the site zoned for either commercial or industrial development, which would not allow the Bag Factory Site to be improved with a multi-family residential development. Therefore, to facilitate its development vision, Perennial respectfully requests the Site to be downzoned from commercial/industrial to the MR-2 multi-family residential zoning classification. Perennial's rezoning request satisfies all the county's standards for such relief, as set forth in section 27-7.3.5 of the zoning ordinance, as follows:

I. Rezoning approval Standards

A. The rezoning request conforms to the comprehensive plan's policies and intent.

The comprehensive plan includes a future land use map that was created by delineating various character areas based on the county's concept map and various countywide small area studies.¹ The future land use map designates the Bag Factory Site to the Neighborhood Center character area. Table 7.4 of the comprehensive plan confirms that the MR-2 zoning classification, with a density of up to 24 units/acre, is consistent with the Neighborhood Center character area designation. While consistency with the future land use map is not the only measure of whether a zoning application conforms to the comprehensive plan's written policies and intent, it is very strong evidence that the county has pre-screened certain uses and confirmed such consistency. For that reason, Perennial's multi-family development residential proposal conforms to the comprehensive plan's policies and intent.

B. The rezoning permits a use that is suitable in view of the use and development of adjacent and nearby properties.

The Bag Factory Site is located along the west side of 2nd Avenue, less than a quarter mile south of its intersection with Glenwood Avenue and directly across the street from the Donald Trimble Mortuary. 2nd Avenue and Glenwood Avenue are both important roadways that are characterized by varying development types, ranging from commercial and institutional uses to single-family residential uses. However, the area between the Bag Factory Site and the foregoing street intersection to the north is mainly characterized by commercial development. The properties abutting the north side of the Bag Factory Site are developed with a vacant auto repair garage, which is in a state of disrepair, and a commercial development that houses the Atlanta Masjid of Al-Islam, which is a vibrant community of faith. Furthermore, the developments across 2nd Avenue from the Bag Factory Site are all non-residential in character. Perennial's proposed multi-family residential development is suitable considering the use and development of adjacent and nearby properties between the Bag Factory Site and the intersection of 2nd Avenue and Glenwood Avenue to the north.

The Columbia Village Villas, a duplex style senior apartment development, abuts the south side of the Bag Factory Site and would serve as an area of transition between Perennial's medium density multi-family development and adjacent single-family homes fronting on Terry Mill Road. As it is currently configured, the Bag Factory Site directly backs up to five single-family residential properties, which all front Fayetteville Road on the opposite side of the above-mentioned Publix grocery store. Perennial's development proposal includes 50-foot buffers to protect all abutting residential properties, including its neighbors along Fayetteville Road and those in Columbia Village to the south. Perennial's development proposal is suitable considering: (1) the 50-foot buffers between Perennial's proposed development and all adjoining residential developments, and (2) the downward density transition from the commercial developments at the corner of 2nd Avenue and Glenwood Avenue through the Bag Factory Site and Columbia Village to most of the adjacent single-family residential community to the south and west.

¹ Comprehensive Plan, P. 55.

C. The current multiple commercial/industrial zoning does not provide Bag Factory Site with a reasonable economic use.

The Bag Factory Site has remained undeveloped under its current mixed commercial and industrial zoning for several decades. Meanwhile, new development and redevelopment along 2nd Avenue between Glenwood Avenue and Flat Shoals Road has skewed heavily toward residential uses, both single-family and multi-family. Given these two facts, the Bag Factory Site does not have a reasonable economic use under its current multiple zoning.

D. The rezoning will not adversely impact adjacent or nearby properties.

Perennial's proposed development will not adversely impact adjacent or nearby properties for the same reasons that are presented in paragraph B above.

E. There are existing conditions that affect the Site's use and development that support the rezoning's approval.

There are several existing conditions that support the approval of Perennial's rezoning request. First, the Bag Factory Site is located within a Neighborhood Center development node that is centered on the intersection of 2nd Avenue and Glenwood Avenue. The county's land use policies strongly encourage medium density residential developments that promote pedestrian walkability within neighborhood centers. The area around the Bag Factory Site contains several existing community services, such as the Publix grocery store, Dream Wings restaurant, Almadina Market, and a Wells Fargo bank. Developing medium density residential uses on the Bag Factory Site will inherently place more community residents within easy walking distance of these community services. Even more community services would be within easy biking distance, such as the East Lake YMCA and several restaurants at the intersection of 2nd Avenue and Hosea Williams.

F. The rezoning will not adversely affect historic or archaeological resources.

There are no established historic or archaeological resources on the Site, which is undeveloped.

G. The requested rezoning will not impose excessive or burdensome demands on utilities, or transportation and education infrastructure.

The Bag Factory Site is located along 2nd Avenue near its intersection with Glenwood Avenue. Both roadways are major transportation corridors. Furthermore, two MARTA bus stops are located directly in front of the Bag Factory Site on 2nd Avenue; and the East Lake MARTA transit station is located less than 2 miles away, as measured by the most direct pedestrian route. Furthermore, as explained above, the Bag Factory Site is located within easy walking and biking distance of several attractive community services. Therefore, Perennial's proposed development will not cause excessive or burdensome demands on local road infrastructure.

The Bag Factory Site is also zoned for commercial and industrial land uses, both of which generate significant demands on physical infrastructure. Furthermore, the comprehensive plan designates the Bag Factory Site to the Neighborhood Center character area, which includes policies that encourage the development of medium density residential land uses. Based on the foregoing, the Board of Commissioners has clearly determined that the Bag Factory Site's infrastructure is sufficient to support medium density residential developments, like the one Perennial now proposes.

Finally, Perennial's proposed development is targeted toward young professionals and empty nesters who desire an amenity rich intown living experience. Therefore, while some resident households may include school aged children, Perennial does not anticipate such households to comprise a significant portion of the development's overall demographics. Therefore, Perennial's proposed development will not impose an appreciable increase in demand for educational infrastructure. The development will include a traditional unit mix of studio, one-bedroom, two-bedroom (20% of total), and three-bedroom units (5%-10% of total).

H. The rezoning will not adversely impact the environment or natural resources.

The Site does not include any environmentally sensitive features or areas. Furthermore, Perennial's proposed residential and accessory retail uses are not environmentally adverse land uses. Therefore, Perennial's development proposal satisfies this rezoning approval standard.

For all the foregoing reasons, Perennial's request to rezone the Bag Factory Site from its multiple commercial/industrial zoning to the MR-2 zoning classification satisfies all the county's prescribed approval standards for such zoning requests.

II. Supplemental use regulations

Section 4.2.24 of the zoning ordinance prescribes additional regulations governing cottage, mobile home, townhouse, urban single-family, and condominium dwellings. Perennial's development proposal only includes apartments and townhomes. Therefore, Section 4.2.24 only applies to Perennial's proposed townhomes, which are governed by subparagraph D therein.

Section 4.2.24(D) reads in its entirety as follows:

"Townhouse and urban single-family (U-SF). Notwithstanding any other provision to the contrary, a townhouse or U-SF development may be subdivided into individual lots that do not meet the minimum street frontage requirements and may be treated as fee simple or condominium lots."

Given the permissive nature of the foregoing language, this supplemental use regulation has no bearing on the present analysis of Perennial's compliance with all relevant rezoning standards.

III. Confirmation of the proposed retail component's accessory use status.

In our pre-application conference, the planning staff instructed Perennial to analyze the zoning ordinance to confirm that its proposed retail component was an accessory land use. Our code analysis and resulting conclusion are presented below.

Table 4.1 of the zoning ordinance permits "retail, 5,000 sf or less" as an accessory use for MR-2 properties. Section 9.1.3 of the zoning ordinance generally defines the term "accessory use" as:

"A use of land or building or structure or portion thereof customarily incidental and subordinate to the principal use of the land or building and located on the same lot with the principal use."

However, the zoning ordinance does not explain in definitional terms what retail elements or characteristics are indicative of an accessory use, as opposed to elements or characteristics that would indicate a principal use. In the absence of any explicit definition of what constitutes an accessory retail use, one must determine what constitutes an accessory retail use by examining the entirety of the zoning ordinance's language.

Section 9.1.3 defines the term "principal use" as: "the primary or predominant use of any lot." Therefore, the question is whether Perennial's proposed retail component is the Bag Factory Site's "primary" or "predominant" use, as opposed to an "incidental" or "subordinate" use. The zoning ordinance does not define the terms "primary," "predominant," "incidental," or "subordinate."

In the absence of definitions for the foregoing terms, the zoning ordinance's plain language is ambiguous as the definitional threshold beyond which accessory retail becomes a principal retail use. Under longstanding Georgia law, zoning ordinances must be strictly administered according to their plain and explicit terms, and any ambiguity as to their meaning must be resolved in favor of the free use of the land.² In other words, if a zoning requirement or restriction is not set forth plainly and unambiguously in the zoning ordinance, that requirement or restriction must be interpreted in the manner most favorable to the property owner.

While the zoning ordinance does not specifically establish the threshold between accessory retail uses and principal retail uses, it does present an implied threshold. Table 4.1 of the zoning ordinance establishes "retail, 5,000 sf or less" as a permitted accessory use for MR-2 properties. That same table also establishes "retail, over 5,000 sf" as a separate land use category, which is prohibited on MR-2 properties.³ Based on the foregoing, it is very reasonable to conclude that the Board of Commissioners' legislative intent is to classify retail development components totaling more than 5,000 square feet as principal land uses, which would necessarily classify smaller retail uses as accessory land uses.

² *Stanfield v. Glynn County*, 280 Ga. 785, 631 S.E.2d 174 (2006); *Dekalb County v. Post Apartment Homes, L.P.*, 234 Ga. App. 409, 412, 506 S.E.2d 899, 902 (1998); *Bo Fancy Productions, Inc. v. Rabun County Bd. Of Comm'rs*, 267 Ga. 341, 478 S.E.2d 373 (1996); *Fayette County v. Seagraves*, 245 Ga. 196, 264 S.E.2d 13 (1980); *Dunkin v. Entrekin*, 211 Ga. 311, 85 S.E.2d 771 (1955).

WILSON BROCK & IRBY, L.L.C.
PERENNIAL REZONING APPLICATION
February 23, 2022
Page 6

Based on the foregoing reasonable reading of the zoning ordinance, the only appropriate classification of Perennial's proposed retail component, which totals 5,000 square feet, is as being an accessory use. This conclusion is supported by the fact that the retail component only comprises a small fraction of the overall development's floor area. Perennial's development proposal calls for 290,000 square feet of residential floor area, 7,000 square feet of residential amenity space, and 5,000 square feet of retail space. Not only is retail physically the smallest individual development component, it literally constitutes less than 2% of the proposed development's overall floor area, with the proposed accessory fitness club being as large as both retail spaces combined. Therefore, Perennial's proposed retail component complies with the accessory use restriction the MR-2 regulations impose on retail uses.

IV. Constitutional objections and conclusion

Georgia courts have long held that an aggrieved party must present any potential constitutional objections to the local government during the zoning review process, which includes administrative zoning appeals. Applicants who fail to do so substantially deprive themselves of a legal basis to appeal adverse zoning decisions.⁴ Therefore, solely to satisfy mandatory requirements of Georgia law, Perennial respectfully advises Dekalb County of its constitutional objections. Perennial has demonstrated that its rezoning request fully satisfies all applicable standards for the approval of such applications. Therefore, any action by the Board of Commissioners to deny Perennial's requested rezoning or to grant some lesser form of relief would violate Perennial's rights to due process of law and equal protection under the laws.

For all the foregoing reasons, Perennial respectfully requests the approval of its rezoning application. Please do not hesitate to let me know if I may provide you with any additional information or clarify anything in this letter.

Sincerely,

WILSON BROCK & IRBY, L.L.C.

DISCLOSURE OF CAMPAIGN CONTRIBUTION

In accordance with the Conflict of Interest in Zoning Act, OCGA Chapter 36-67A, the following questions must be answered.

Have you, the applicant, made \$250.00 or more in campaign contribution to a local government official within two years immediately preceding the filing of this application?

Yes _____ No X *

If the answer is yes, you must file a disclosure report with the governing authority of DeKalb County showing:

1. The name and official position of the local government official to whom the campaign contribution was made.
2. The dollar amount and description of each campaign contribution made during the two years immediately preceding the filing of this application and the date of each such contribution.

The disclosure must be filed within 10 days after the application is first filed and must be submitted to the C.E.O. and to the Board of Commissioners of DeKalb County, 1300 Commerce Drive, Decatur, GA 30030.

DEPARTMENT OF PLANNING & SUSTAINABILITY

Comments: __. __Applicant will need to show compliance that commercial uses are accessory to the residential. Only some commercial uses are allowed as an accessory use in MR-2 zoning; this issue will be reviewed upon submittal of rezoning application on its merits. Applicant will need to justify how their proposed MR-2 or O-I or mixed use district is compatible and consistent with the surrounding area. Show compliance with maximum building height and transitional height plane requirements of zoning ordinance. Density bonuses may be required for densities above 12 units per acre. Show compliance with min and max parking requirements, parking lot landscaping. Bicycle parking may be required. Show compliance with building materials and streetscape requirements. 50 foot transitional undisturbed buffer required where abutting single-family zoning districts.

RE: ***Bag Factory Development at 1845 2nd Avenue, 1851 2nd Avenue, and 1939 Alexander Avenue, Dekalb County, Georgia – Trip Generation Comparison***

Kimley-Horn is pleased to provide this memorandum regarding the trip generation comparison for the proposed *Bag Factory* development in unincorporated Dekalb County, Georgia. This memo is issued as a revision to the memo dated February 23, 2022, after a review of allowable uses in the C-1 zoning which may be used for the trip generation comparison.

PROJECT OVERVIEW

The *Bag Factory* development is a proposed residential development on an approximate 11.747-acre property located along the west side of 2nd Avenue and south of Alexander Avenue in unincorporated Dekalb County, Georgia.

The site is currently zoned for C-1 (Local Commercial) and M (Light Industrial) land use and the entire site is proposed to be rezoned to MR-2 (Medium Density Residential-2) land use. The trip generation comparison will be based on the following scenarios:

1. Existing Zoning: 58,400 SF Retail, 5,000 SF Day Care Center, 27,200 SF Light Industrial
2. Proposed Zoning: 237 Multi-Family Housing (Mid-Rise) units, 44 Townhomes (Low-Rise), 5,000SF Retail

The purpose of this memorandum is to compare the trip generation potential of the Existing Zoning with the trip generation potential of the Proposed Zoning.

Figure 1 provides a location map. **Figure 2** provides an aerial imagery of the project site. Additionally, the preliminary site plans for the proposed development are provided.

TRIP GENERATION

Project traffic used in this analysis is defined as the vehicle trips expected to be generated by the development and the distribution and assignment of that traffic through the study roadway network.

Anticipated trip generation for the proposed *Bag Factory* development was calculated using rates and equations contained in the Institute of Transportation Engineers' (ITE) *Trip Generation Manual*, 10th Edition, 2017.

The densities and the project trip generation for the proposed development are summarized by land use in **Table 1**.

Table 1: Gross Trip Generation											
Land Use	ITE Code	Density	Daily Traffic			AM Peak			PM Peak Hour		
			Total	Enter	Exit	Total	Enter	Exit	Total	Enter	Exit
Existing Zoning (C-1 & M)											
Light Industrial	110	27,200 SF	162	81	81	17	15	2	15	2	13
Day Care Center	565	5,000 SF	238	119	119	55	29	26	56	26	30
Retail/Shopping Center	820	58,400 SF	2,204	1,102	1,102	55	34	21	223	107	116
Total Gross Trips			2,604	1,302	1,302	127	78	49	294	135	159
Proposed Zoning (MR-2)											
Multi-Family Housing (Low Rise)	220	44 d.u.	292	146	146	22	5	17	28	18	10
Multi-Family Housing (Mid-Rise)	221	237 d.u.	1,290	645	645	80	21	59	101	62	39
Retail/Shopping Center	820	5,000 SF	188	94	94	5	3	2	19	9	10
Total Gross Trips			1,770	885	885	107	29	78	148	89	59
Difference in Gross Project Trips			-834	-417	-417	-20	-49	+29	-146	-46	-100
% Difference in Gross Project Trips			-32%	-32%	-32%	-16%	-63%	+60%	-50%	-34%	-63%

*Note: No reductions for mixed-use, alternative mode, or pass-by were taken in order to present a conservative analysis.

Based on the trip generation shown in **Table 1**, the proposed *Bag Factory* development is projected to generate approximately 834 less total daily trips (417 in; 417 out), 20 less AM peak hour trips, and 146 less PM peak hour trips than the Existing Zoning. The proposed *Bag Factory* development will generate approximately 32% less gross daily trips, 16% less AM peak hour trips, and approximately 50% less PM peak hour trips compared to the Existing Zoning.

Although the above comparison presents gross trips, some reductions in gross trips are expected based on the neighborhood characteristics. Alternative mode reductions (when a site can be accessed by modes other than vehicles) are expected for the site, as there are multiple retail destinations (including a Publix-anchored shopping center), three schools, and Starmount-McAfee Park are all within 2,000 feet walking distance from the site. Additionally, MARTA bus routes 24 and 34 have stops immediately adjacent to the site along 2nd Avenue, providing service to the Atlanta-Decalb Human Services Complex, GSU Perimeter-Decatur Campus, Gresham Park, and the Blue/Green MARTA Rail lines.

SUMMARY

The proposed *Bag Factory* development is located on an approximate 11.747-acre property located along the west side of 2nd Avenue and south of Alexander Avenue in unincorporated Dekalb County, Georgia. The entire site is proposed to be rezoned from C-1 and M to MR-2.

This memo compared the trip generation potential of the Existing Zoning: 58,400 SF Retail, 5,000 SF Day Care, and 27,200 SF Light Industrial; to the trip generation potential of the Proposed Zoning: 237 Multi-Family Housing (Mid-Rise) units, 44 Townhomes (Low-Rise), 5,000SF Retail. Based on the trip generation comparison, the Proposed Zoning of the proposed *Bag Factory* development is projected to generate approximately 32% less gross daily trips, 16% less AM peak hour trips, and 50% less PM peak hour trips versus the Existing Zoning.

We hope this information is helpful. Please contact me if you have any questions.

Sincerely,

KIMLEY-HORN AND ASSOCIATES, INC.

John D. Walker, P.E., PTOE
Senior Vice President

Harrison Forder, P.E.
Project Engineer

Subject: 2nd Av Traffic Flow Needs

(1847 2nd Ave)

Dear Commissioners Johnson and Terry, Planning Commissioners and staff,

I'm one of your constituents living near the proposed Bag Factory development on 2nd Ave.

The proposed site plan puts all entries/exits on 2nd Ave, which unfairly impacts us I ask that you decline to approve the project unless at least one public entry/exit is located on Fayetteville Rd to better disperse traffic, and unless at least one public entry/exit aligns with Dancing Fox Rd, to improve walkability and traffic-calming.

The applicant already owns adjacent land that could be easily added to the site plan for these purposes. The applicant is also in talks with other adjacent land owners to explore additional options. Trimble Mortuary has long funeral procession and the additional exit will stop horrendous traffic problems for our local families.

Thank you.

Carolyn

Subject: Please vote NO on rezoning #N7 (1847 2nd Ave)

Dear Commissioners Johnson and Terry, Planning Commissioners, and staff,

I'm a constituent of yours and live near the proposed Bag Factory development on 2nd Avenue.

The proposed site plan has all the vehicle entries/exits on 2nd Avenue, which unfairly impacts residents along that street. Please do not approve this project unless at least one public entry/exit is located on Fayetteville Road, better distributing traffic from the development. It would also be good for one entry to align with Dancing Fox Road to improve walkability and traffic calming. The applicant currently owns adjacent land that could be used for these purposes.

Thank you for your consideration of these concerns,
Kathie Klein

Subject: Agenda #N7 (1847 2nd Ave) - please vote NO

To Whom It May Concern,

My name is Karen Minvielle and I live at 2201 Dancing Fox Road, across the street from the proposed Bag Factory development.

Due to the density of the proposed Perennial Properties development and the fact that all entrances/exits are onto Second Ave, this proposal worsens an already bad traffic problem on Second Ave.

I ask that you vote NO on this project unless at least one ungated public entry/exit is located on Fayetteville Rd to better disperse traffic AND at least one ungated public entry/exit aligns with Dancing Fox Rd to improve walkability and traffic-calming.

Perennial's proposal to add a turn lane on Second Ave and change the lane configuration at the corner of Second Ave and Glenwood are definitely *not* sufficient to resolve the problems caused by an additional 381 units all accessing Second Ave.

Thank you for your support.

Karen Minvielle

Subject: Please vote NO on rezoning #N7 (1847 2nd Ave)

Dear Commissioners Johnson and Terry, Planning Commissioners, and staff,

I'm one of your constituents living near the proposed Bag Factory development on 2nd Ave.

The proposed site plan puts all entries/exits on 2nd Ave, which unfairly impacts us. I ask that you decline to approve the project unless at least one public entry/exit is located on Fayetteville Rd to better disperse traffic.

I am very concerned about access to my driveway at Dancing Fox Rd and I do not want to see an exit/entrance exactly opposite, as I think this will cause accidents and backup. The entrance/exit on 2nd to the new development should include a traffic light as the traffic is very fast on Second Ave.

Thank you,

Mary

Subject: #2 Proposed apartments 2nd Ave: Resident comments

Greetings Planning Commissioners

As a 45 year resident of DeKalb County & homeowner 25 years in S. DeKalb @ 2nd Ave & Glenwood Ave, I would like to share my belief that more exploration is required before granting permission to Perennial Properties & other associated developers in our neighborhood to build apartments that will adversely affect a large group of people on 2nd Ave & surrounding areas that will be subjected to unresolved traffic problems.

As you review the points below, please decide to NOT give approval until some of the major issues are resolved. Thank you.

In community Andrea Kay Smith 404-377-8004

Dear Planning Commissioners,

At your 5/3/22 meeting, **please make a motion to adopt the following conditional zoning statement** for agenda item #N7, and then vote for its approval:

“The property shall include at least two un-gated public points of entry and exit for vehicles and pedestrians:

(1) from Fayetteville Road or Alexander Avenue, and

(2) aligned with 2nd Avenue at Dancing Fox Road.”

Adding this condition supports goals of the [2021 Comprehensive Plan Update](#) by reducing automobile travel and promoting walkability (p. 96), in a way that encourages connectivity (p. 98), while adding traffic-calming improvements and increased street interconnections (p. 99).

Alternatively, a vote of **No**, or a vote to **Defer for 60 days**, would also be welcomed.

To the extent that any objections can be anticipated, please consider the suggested rebuttals offered below.

I'm grateful for your careful consideration.

John Wuichet

East Lake Commons

(Dancing Fox Rd)

Suggested rebuttals to anticipated objections

Staff report, p 4, last paragraph: "Connecting to Fayetteville Rd is impractical since it is unknown whether any of the owners want to sell at this time."

- The applicant, East Lake Holdings LLC, already owns 690 Fayetteville Rd, providing direct access to the subject site without any 3rd-party sale.
- The applicant, East Lake Holdings LLC, a.k.a. Glenwood & Fayetteville Development LLC, already owns 708 Fayetteville Rd, providing access to the site in combination with a landlocked parcel at 710 Fayetteville Rd owned by Atlanta Masjid of Al-Islam. Title to, or easement across, 710 Fayetteville may be achievable if a 60-day deferral is granted, as was recommended by the Community Council on 4/13.
- 596 Fayetteville is a single family residence adjacent to Alexander Ave and owned by Atlanta Masjid of Al-Islam. Title to, or easement across, 596 Fayetteville may be achievable if a 60-day deferral is granted, as was recommended by the Community Council on 4/13.

Staff report, p 4, last paragraph: Connecting to Fayetteville Rd "might have negative impacts on the remaining residential properties on either side."

- Speculation about the opinions of adjacent owners is unwarranted. At its 4/13 meeting, the Community Council voted 8-1-0 for a 60-day deferral so that matters such as these can be adequately explored.
- Atlanta Masjid of Al-Islam owns parcels adjacent to both sides of Alexander Ave; representatives of the Masjid have attended public meetings about the proposed development and have not voiced objections in those meetings about the use of Alexander Ave, which is a public right of way.
- Owners adjacent to 690 Fayetteville are Felicia and John McLeod to the north, and Porter Hubbard and Ree Ceaser to the south. None of these owner names appear in the applicant's attendance records (pages 8-10 of the application) for public meetings held 2/1, 2/8, and 2/17.
- Owners adjacent to 708 Fayetteville are Mary Jackson to the north, and Jameel Hanif and Taqqee Id Deen to the south. None of these owner names appear in the applicant's attendance records (pages 8-10 of the application) for public meetings held 2/1, 2/8, and 2/17.
- With 147 feet of road frontage, 708 Fayetteville Rd is more than double the width of many neighboring parcels. A driveway of 55 feet in width would still allow substantial buffer on either side, ensuring minimal impact to neighbors.

Staff report, p 4, last paragraph: "A large wooded area on the west side of the site is to remain natural; putting a driveway through it would involve destroying trees and regrading – both of which are not recommended because of consequences to stormwater drainage, habitat, and the climate."

- The "large wooded area" is 710 Fayetteville Rd, a landlocked parcel of 1.96 acres that is adjacent to – but presently not part of – the proposed development.
- The stormwater report (p. 16 of the staff report) does not mention any of these consequences.
- The tree preservation report (pp. 16-17 of the staff report) does not mention any of these consequences.
- It is not clear why destroying a large number of trees on the proposed site is recommended, while destroying a smaller number of trees on an adjacent site is not recommended.
- The wooded parcel is landlocked. To recommend against utilizing this parcel amounts to depriving its owner of any possible economic value, in perpetuity.

Staff report, p 5, first paragraph: Alexander Ave is "not suitable" as a connection to Fayetteville Rd due to insufficient width of the right of way.

- Sufficient width may be available through an easement over a portion of 596 Fayetteville Rd, which is owned by Atlanta Masjid of Al-Islam. At its 4/13 meeting, the Community

Council voted 8-1-0 for a 60-day deferral so that matters such as these can be adequately explored.

Staff report, p 5, first paragraph: “It is recommended that ingress and egress be allowed only by residents through use of a keyed gate system, to prevent the general public from cutting across the development site.”

- This recommendation runs counter to objectives of the [2021 Comprehensive Plan Update](#) and its goals of walkability (p. 96), connectivity (p. 98), and street interconnections (p. 99). The Plan Update emphasizes a need to “Encourage that all development in activity centers contribute to the public realm” (p. 98).
- DeKalb Code section 27-5.3.2(A): “Public and private streets ... shall be designed to create an interconnected system of grid-patterned roads... Each new street shall connect to the existing street grid.”

Staff report, p 8, paragraph G: “The proposed development is not expected to impair traffic flow on surrounding streets.”

- This claim is unsubstantiated. The referenced traffic study (pp. 49-53 of the staff report) is scoped so narrowly that it does not address this question at all.
- The proposed development is 1 of 4 new developments totaling 659 new units all within 600 feet of each other, all initiated by the same owner (CF Foundation and its affiliated entities: East Lake Holdings LLC and Glenwood & Fayetteville Development LLC), including:
 - Columbia Fayetteville Apartments (108 units, now leasing),
 - The Trust at East Lake (40 units, breaking ground this summer),
 - The ELLA apartments (230 units, now leasing), and
 - the subject site (281 units, proposed).
- DeKalb Code section 27-5.3.4(A): “A traffic impact study to establish the impact of a development project on the surrounding roads is required for any rezoning for [any] multi-family development with over 300 new units.”
- Even before any of the 4 new simultaneous developments, rush hour traffic in the area frequently reached “block-the-box” levels on 2nd Ave -- at Glenwood Rd, at Memorial Dr, at Hosea Williams Dr, at Oakview Dr, and at East Lake Dr.
- At its 4/13 meeting, the Community Council voted 8-1-0 for a 60-day deferral so that matters such as these can be adequately explored.

Subject: Agenda #N7 (2nd Ave)

Hello Planning Commission members:

My family lives across the street from the proposed development site of Bag Factory on 2nd Ave where 281 new apartments/townhouses are planned to be built. I would like to share my opinion regarding the development. I think that the commission should only approve the site to be developed IF and ONLY IF the following is included:

1. Line up the entrance/exit road on 2nd ave with Dancing Fox Rd
2. Create and maintain an entrance/exit road from the back of the property onto Fayetteville Rd

Thanks for your time and consideration.

John Wuichet

Resident: East Lake Commons (Dancing Fox Rd)

DeKalb Planning Council

5/3/22

Traffic Impact

With all entrances on 2nd Ave (in **red**), residents of 2nd Ave are unfairly impacted. Adding an entrance on Fayetteville Rd (**green**) cuts 2nd Ave traffic by up to 50%.

Traffic Solution

East Lake Holdings has at least 3 ways to access Fayetteville Rd. At least 1 option is already owned by the applicant and requires no 3rd-party sale.

Traffic Solution

A public entrance aligned with Dancing Fox Rd supports the [2021 Comprehensive Plan Update](#) by improving pedestrian safety and traffic calming (pp. 96-99).

Walkability

Walking along routes in **red** is dangerous and slow. Access to Fayetteville Rd (in **green**) makes walking **safer** and **faster**.

Subject: Proposed apartments on 2nd Ave: Constituent comments

Dear Planning Commissioners,

We are constituents and residents of East Lake Commons, a community across the street from the Bag Factory property. At your 5/3/22 meeting, we ask that you **please make a motion to adopt the following conditional zoning statement** for agenda item #N7, and then vote for its approval:

“The property shall include at least two un-gated public points of entry and exit for vehicles and pedestrians:

(1) from Fayetteville Road or Alexander Avenue, and

(2) aligned with 2nd Avenue at Dancing Fox Road.”

Adding this condition supports goals of the [2021 Comprehensive Plan Update](#) by reducing automobile travel and promoting walkability (p. 96), in a way that encourages connectivity (p. 98), while adding traffic-calming improvements and increased street interconnections (p. 99).

Alternatively, a vote of **No**, or a vote to **Defer for 60 days**, would also be welcomed.

To the extent that any objections can be anticipated, please consider the suggested rebuttals offered below.

We are grateful for your careful consideration.

Jenny Hoffner and Jason Martin

501 Dancing Fox Rd, Decatur, GA 30032

East Lake Commons

More information to address anticipated concerns

Staff report, p 4, last paragraph: “Connecting to Fayetteville Rd is impractical since it is unknown whether any of the owners want to sell at this time.”

- The applicant, East Lake Holdings LLC, already owns 690 Fayetteville Rd, providing direct access to the subject site without any 3rd-party sale.
- The applicant, East Lake Holdings LLC, a.k.a. Glenwood & Fayetteville Development LLC, already owns 708 Fayetteville Rd, providing access to the site in combination with a landlocked parcel at 710 Fayetteville Rd owned by Atlanta Masjid of Al-Islam. Title to, or easement across, 710 Fayetteville may be achievable if a 60-day deferral is granted, as was recommended by the Community Council on 4/13.
- 596 Fayetteville is a single family residence adjacent to Alexander Ave and owned by Atlanta Masjid of Al-Islam. Title to, or easement across, 596 Fayetteville may be achievable if a 60-day deferral is granted, as was recommended by the Community Council on 4/13.

Staff report, p 4, last paragraph: Connecting to Fayetteville Rd “might have negative impacts on the remaining residential properties on either side.”

- Speculation about the opinions of adjacent owners is unwarranted. At its 4/13 meeting, the Community Council voted 8-1-0 for a 60-day deferral so that matters such as these can be adequately explored.
- Atlanta Masjid of Al-Islam owns parcels adjacent to both sides of Alexander Ave; representatives of the Masjid have attended public meetings about the proposed development and have not voiced objections in those meetings about the use of Alexander Ave, which is a public right of way.
- Owners adjacent to 690 Fayetteville are Felicia and John McLeod to the north, and Porter Hubbard and Ree Ceaser to the south. None of these owner names appear in the applicant’s attendance records (pages 8-10 of the

- application) for public meetings held 2/1, 2/8, and 2/17.
- Owners adjacent to 708 Fayetteville are Mary Jackson to the north, and Jameel Hanif and Taqquee Id Deen to the south. None of these owner names appear in the applicant's attendance records (pages 8-10 of the application) for public meetings held 2/1, 2/8, and 2/17.
- With 147 feet of road frontage, 708 Fayetteville Rd is more than double the width of many neighboring parcels. A driveway of 55 feet in width would still allow substantial buffer on either side, ensuring minimal impact to neighbors.

Staff report, p 4, last paragraph: “A large wooded area on the west side of the site is to remain natural; putting a driveway through it would involve destroying trees and regrading – both of which are not recommended because of consequences to stormwater drainage, habitat, and the climate.”

- The “large wooded area” is 710 Fayetteville Rd, a landlocked parcel of 1.96 acres that is adjacent to – but presently not part of – the proposed development.
- The stormwater report (p. 16 of the staff report) does not mention any of these consequences.
- The tree preservation report (pp. 16-17 of the staff report) does not mention any of these consequences.
- It is not clear why destroying a large number of trees on the proposed site is recommended, while destroying a smaller number of trees on an adjacent site is not recommended.
- The wooded parcel is landlocked. To recommend against utilizing this parcel amounts to depriving its owner of any possible economic value, in perpetuity.

Staff report, p 5, first paragraph: Alexander Ave is “not suitable” as a connection to Fayetteville Rd due to insufficient width of the right of way.

- Sufficient width may be available through an easement over a portion of 596 Fayetteville Rd, which is owned by Atlanta Masjid of Al-Islam. At its 4/13 meeting, the Community Council voted 8-1-0 for a 60-day deferral so that matters such as these can be adequately explored.

Staff report, p 5, first paragraph: “It is recommended that ingress and egress be allowed only by residents through use of a keyed gate system, to prevent the general public from cutting across the development site.”

- This recommendation runs counter to objectives of the [2021 Comprehensive Plan Update](#) and its goals of walkability (p.

96), connectivity (p. 98), and street interconnections (p. 99). The Plan Update emphasizes a need to “Encourage that all development in activity centers contribute to the public realm” (p. 98).

- DeKalb Code section 27-5.3.2(A): “Public and private streets ... shall be designed to create an interconnected system of grid-patterned roads... Each new street shall connect to the existing street grid.”

Staff report, p 8, paragraph G: “The proposed development is not expected to impair traffic flow on surrounding streets.”

- This claim is unsubstantiated. The referenced traffic study (pp. 49-53 of the staff report) is scoped so narrowly that it does not address this question at all.
- The proposed development is 1 of 4 new developments totaling 659 new units all within 600 feet of each other, all initiated by the same owner (CF Foundation and its affiliated entities: East Lake Holdings LLC and Glenwood & Fayetteville Development LLC), including:
 - Columbia Fayetteville Apartments (108 units, now leasing),
 - The Trust at East Lake (40 units, breaking ground this summer),
 - The ELLA apartments (230 units, now leasing), and
 - the subject site (281 units, proposed).
- DeKalb Code section 27-5.3.4(A): “A traffic impact study to establish the impact of a development project on the surrounding roads is required for any rezoning for [any] multi-family development with over 300 new units.”
- Even before any of the 4 new simultaneous developments, rush hour traffic in the area frequently reached “block-the-box” levels on 2nd Ave -- at Glenwood Rd, at Memorial Dr, at Hosea Williams Dr, at Oakview Dr, and at East Lake Dr.
- At its 4/13 meeting, the Community Council voted 8-1-0 for a 60-day deferral so that matters such as these can be adequately explored.

Suggested rebuttals to anticipated objections

Staff report, p 4, last paragraph: “Connecting to Fayetteville Rd is impractical since it is unknown whether any of the owners want to sell at this time.”

- The applicant, East Lake Holdings LLC, already owns 690 Fayetteville Rd, providing direct access to the subject site without any 3rd-party sale.
- The applicant, East Lake Holdings LLC, a.k.a. Glenwood & Fayetteville Development LLC, already owns 708 Fayetteville Rd, providing access to the site in combination with a landlocked parcel at 710 Fayetteville Rd owned by Atlanta Masjid of Al-Islam. Title to, or easement across, 710 Fayetteville may be achievable if a 60-day deferral is granted, as was recommended by the Community Council on 4/13.
- 596 Fayetteville is a single family residence adjacent to Alexander Ave and owned by Atlanta Masjid of Al-Islam. Title to, or easement across, 596 Fayetteville may be achievable if a 60-day deferral is granted, as was recommended by the Community Council on 4/13.

Staff report, p 4, last paragraph: Connecting to Fayetteville Rd “might have negative impacts on the remaining residential properties on either side.”

- Speculation about the opinions of adjacent owners is unwarranted. At its 4/13 meeting, the Community Council voted 8-1-0 for a 60-day deferral so that matters such as these can be adequately explored.

- Atlanta Masjid of Al-Islam owns parcels adjacent to both sides of Alexander Ave; representatives of the Masjid have attended public meetings about the proposed development and have not voiced objections in those meetings about the use of Alexander Ave, which is a public right of way.
- Owners adjacent to 690 Fayetteville are Felicia and John McLeod to the north, and Porter Hubbard and Ree Ceaser to the south. None of these owner names appear in the applicant's attendance records (pages 8-10 of the application) for public meetings held 2/1, 2/8, and 2/17.
- Owners adjacent to 708 Fayetteville are Mary Jackson to the north, and Jameel Hanif and Taqqee Id Deen to the south. None of these owner names appear in the applicant's attendance records (pages 8-10 of the application) for public meetings held 2/1, 2/8, and 2/17.
- With 147 feet of road frontage, 708 Fayetteville Rd is more than double the width of many neighboring parcels. A driveway of 55 feet in width would still allow a substantial buffer on either side, ensuring minimal impact to neighbors.

Staff report, p 4, last paragraph: "A large wooded area on the west side of the site is to remain natural; putting a driveway through it would involve destroying trees and regrading – both of which are not recommended because of consequences to stormwater drainage, habitat, and the climate."

- The "large wooded area" is 710 Fayetteville Rd, a landlocked parcel of 1.96 acres that is adjacent to – but presently not part of – the proposed development.
- The stormwater report (p. 16 of the staff report) does not mention any of these consequences.
- The tree preservation report (pp. 16-17 of the staff report) does not mention any of these consequences.
- It is not clear why destroying a large number of trees on the proposed site is recommended, while destroying a smaller number of trees on an adjacent site is not recommended.
- The wooded parcel is landlocked. To recommend against utilizing this parcel amounts to depriving its owner of any possible economic value, in perpetuity.

Staff report, p 5, first paragraph: Alexander Ave is "not suitable" as a connection to Fayetteville Rd due to insufficient width of the right of way.

- Sufficient width may be available through an easement over a portion of 596 Fayetteville Rd, which is owned by Atlanta Masjid of Al-Islam. At its 4/13 meeting, the Community Council voted 8-1-0 for a 60-day deferral so that matters such as these can be adequately explored.

Staff report, p 5, first paragraph: “It is recommended that ingress and egress be allowed only by residents through use of a keyed gate system, to prevent the general public from cutting across the development site.”

- This recommendation runs counter to objectives of the [2021 Comprehensive Plan Update](#) and its goals of walkability (p. 96), connectivity (p. 98), and street interconnections (p. 99). The Plan Update emphasizes a need to “Encourage that all development in activity centers contribute to the public realm” (p. 98).
- DeKalb Code section 27-5.3.2(A): “Public and private streets ... shall be designed to create an interconnected system of grid-patterned roads... Each new street shall connect to the existing street grid.”

Staff report, p 8, paragraph G: “The proposed development is not expected to impair traffic flow on surrounding streets.”

- This claim is unsubstantiated. The referenced traffic study (pp. 49-53 of the staff report) is scoped so narrowly that it does not address this question at all.
- The proposed development is 1 of 4 new developments totaling 659 new units all within 600 feet of each other, all initiated by the same owner (CF Foundation and its affiliated entities: East Lake Holdings LLC and Glenwood & Fayetteville Development LLC), including:
 - Columbia Fayetteville Apartments (108 units, now leasing),
 - The Trust at East Lake (40 units, breaking ground this summer),
 - The ELLA apartments (230 units, now leasing), and
 - the subject site (281 units, proposed).
- DeKalb Code section 27-5.3.4(A): “A traffic impact study to establish the impact of a development project on the surrounding roads is required for any rezoning for [any] multi-family development with over 300 new units.”
- Even before any of the 4 new simultaneous developments, rush hour traffic in the area frequently reached “block-the-box” levels on 2nd Ave -- at Glenwood Rd, at Memorial Dr, at Hosea Williams Dr, at Oakview Dr, and at East Lake Dr.
- At its 4/13 meeting, the Community Council voted 8-1-0 for a 60-day deferral so that matters such as these can be adequately explored.

2022-1475
Proposed Zoning Conditions

Updated: June 23, 2022

1. The development shall be substantially consistent with the site plan titled, “Architectural Site Plan Bag Factory Development”, prepared by Dynamik Design, dated June 15, 2022
2. The development shall have no more than 5,000 square feet of accessory retail space.
3. The approval of this rezoning application by the Board of Commissioners has no bearing on other approvals by the Zoning Board of Appeals or other authority, whose decision should be based on the merits of the application before said authority.
4. The developer shall provide an 8-foot-wide, where feasible, public pedestrian sidewalk/path connecting 2nd Avenue and Fayetteville Road through the subject property similar to how it’s shown on the site plan referenced in Condition No. 1 above. The developer shall also:
 - (a) not obstruct the current vehicular use of Alexander Avenue for the benefit of 560 Fayetteville Road;
 - (b) include a landscape zone between the hardscaped path and vehicular access route per (a) above, as well as pedestrian-level lighting and benches; and
 - (c) include a secured pedestrian gate to allow direct pedestrian access to the path from the resident-only portion of the property.

These improvements are subject to the approval of the authorities having jurisdiction such as Dekalb County and the Dekalb County Department of Public Works.

5. The developer shall provide a pedestrian crossing on 2nd Avenue along the subject property’s frontage and on Fayetteville Road, near the pedestrian path’s intersection with Fayetteville Road, for those using the public pedestrian path described above. The crossing will incorporate reasonable pedestrian protection elements such as a Rectangular Rapid-Flashing Beacon (RRFB) system. These improvements are subject to the approval of the authorities having jurisdiction such as Dekalb County and the Dekalb County Department of Public Works.
6. The developer shall install the restriping improvements to the northbound right-turn lane along 2nd Avenue at the intersection with Glenwood Avenue as recommended in the trip generation memorandum prepared by Kimley Horn, titled “Bag Factory Development at 1845 2nd Avenue, 1851 2nd Avenue, and 1939 Alexander Avenue, Dekalb County, Georgia – Trip Generation Comparison and LOS Analysis,” dated April 29, 2022, and revised June 14, 2022. The developer shall also restripe 2nd Avenue in front of the development to add a center two-way left-turn lane as recommended in the above-referenced memorandum. These improvements are subject to the approval of the authorities having jurisdiction such as Dekalb County, the Dekalb County Department of Public Works, the City of Atlanta Department of Transportation, and GDOT.
7. The developer shall incorporate productive urban landscaping and ecological

Proposed Zoning Conditions

Updated: June 23, 2022

stormwater management systems into its site development permit drawings, where feasible and practical, to support pollinating insects and enhance the site's ability to collect and treat stormwater. Examples of such improvements may include pervious parking spaces, bio-swales, flowering orchard trees, pollinator gardens/edible annual beds, and other environmentally sustainable landscaping practices. The design shall be done in consultation with the County's sustainability coordinator.

RE: ***Bag Factory Development at 1845 2nd Avenue, 1851 2nd Avenue, and 1939 Alexander Avenue, Dekalb County, Georgia – Trip Generation Comparison and LOS Analysis***

Kimley-Horn is pleased to provide this memorandum regarding the trip generation comparison for the proposed *Bag Factory* development in unincorporated Dekalb County, Georgia. This memo is issued as a revision to the memo dated February 23, 2022, after a review of allowable uses in the C-1 zoning which may be used for the trip generation comparison.

PROJECT OVERVIEW

The *Bag Factory* development is a proposed residential development on an approximate 11.747-acre property located along the west side of 2nd Avenue and south of Alexander Avenue in unincorporated Dekalb County, Georgia.

The site is currently zoned for C-1 (Local Commercial) and M (Light Industrial) land use and the entire site is proposed to be rezoned to MR-2 (Medium Density Residential-2) land use. The trip generation comparison will be based on the following scenarios:

1. Existing Zoning: 58,400 SF Retail, 5,000 SF Day Care Center, 27,200 SF Light Industrial
2. Proposed Zoning: 237 Multi-Family Housing (Mid-Rise) units, 44 Townhomes (Low-Rise), 5,000SF Retail

The purpose of this memorandum is to compare the trip generation potential of the Existing Zoning with the trip generation potential of the Proposed Zoning.

Figure 2 provides a location map. **Figure 3** provides an aerial imagery of the project site. Additionally, the preliminary site plans for the proposed development are provided.

TRIP GENERATION

Project traffic used in this analysis is defined as the vehicle trips expected to be generated by the development and the distribution and assignment of that traffic through the study roadway network.

Anticipated trip generation for the proposed *Bag Factory* development was calculated using rates and equations contained in the Institute of Transportation Engineers' (ITE) *Trip Generation Manual*, 10th Edition, 2017.

The densities and the project trip generation for the proposed development are summarized by land use in **Table 1**.

Table 1: Gross Trip Generation											
Land Use	ITE Code	Density	Daily Traffic			AM Peak			PM Peak Hour		
			Total	Enter	Exit	Total	Enter	Exit	Total	Enter	Exit
Existing Zoning (C-1 & M)											
Light Industrial	110	27,200 SF	162	81	81	17	15	2	15	2	13
Day Care Center	565	5,000 SF	238	119	119	55	29	26	56	26	30
Retail/Shopping Center	820	58,400 SF	2,204	1,102	1,102	55	34	21	223	107	116
Total Gross Trips			2,604	1,302	1,302	127	78	49	294	135	159
Proposed Zoning (MR-2)											
Multi-Family Housing (Low Rise)	220	44 d.u.	292	146	146	22	5	17	28	18	10
Multi-Family Housing (Mid-Rise)	221	237 d.u.	1,290	645	645	80	21	59	101	62	39
Retail/Shopping Center	820	5,000 SF	188	94	94	5	3	2	19	9	10
Total Gross Trips			1,770	885	885	107	29	78	148	89	59
Difference in Gross Project Trips			-834	-417	-417	-20	-49	+29	-146	-46	-100
% Difference in Gross Project Trips			-32%	-32%	-32%	-16%	-63%	+60%	-50%	-34%	-63%

*Note: No reductions for mixed-use, alternative mode, or pass-by were taken in order to present a conservative analysis.

Based on the trip generation shown in **Table 1**, the proposed *Bag Factory* development is projected to generate approximately 834 less total daily trips (417 in; 417 out), 20 less AM peak hour trips, and 146 less PM peak hour trips than the Existing Zoning. The proposed *Bag Factory* development will generate approximately 32% less gross daily trips, 16% less AM peak hour trips, and approximately 50% less PM peak hour trips compared to the Existing Zoning.

Although the above comparison presents gross trips, some reductions in gross trips are expected based on the neighborhood characteristics. Alternative mode reductions (when a site can be accessed by modes other than vehicles) are expected for the site, as there are multiple retail destinations (including a Publix-anchored shopping center), three schools, and Starmount-McAfee Park are all within 2,000 feet walking distance from the site. Additionally, MARTA bus routes 24 and 34 have stops immediately adjacent to the site along 2nd Avenue, providing service to the Atlanta-Decalb Human Services Complex, GSU Perimeter-Decatur Campus, Gresham Park, and the Blue/Green MARTA Rail lines.

LEVEL-OF-SERVICE ANALYSIS

A Level-of-Service (LOS) analysis has been prepared for the intersection of Glenwood Avenue at 2nd Avenue, located approximately 820 feet north of the project site in the City of Atlanta, Georgia. Due to neighborhood concerns on traffic, an analysis was prepared to evaluate the intersection.

Existing Traffic Conditions

Traffic counts were collected on Wednesday, March 9, 2022, during the AM period (7:00 AM-9:00 AM) and the PM period (4:00 PM-6:00 PM). Additionally, a 24-HR Volume count was collected along 2nd Avenue south of McAfee Road to line up with an existing GDOT count station (089-3939).

Due to COVID-19's impact on traffic, the existing turning movement counts were adjusted based on historical data and engineering judgement. Average Daily Traffic (ADT) volumes collected in 2022 and Annual Average Daily Traffic (AADT) volumes from GDOT's Traffic Analysis & Data Application (TADA) were used to compare typical traffic volumes in the vicinity of the project site.

The volume comparison is shown in a tabular format in **Table 2**. **Figure 1** illustrates the comparison between the July 2018 GDOT AADT and the March 2022 collected ADT.

Table 2: Traffic Count Comparison and Adjustment Calculations									
Count Station	Location	GDOT					Collected		
		Two-Way AADT	ADT Date	ADT	AM Peak	PM Peak	2022 ADT	AM Peak	PM Peak
089-3939	2 nd Ave s/o McAfee Road NB	9,620	November 2018	4,939	539	286	4,231	388	305
089-3939	2 nd Ave s/o McAfee Road SB	9,620	November 2018	4,660	234	466	4,332	210	433
Difference Calculations		ADT			AM Peak			PM Peak	
		Vol Diff	Percent	Factor	Vol Diff	Percent	Factor	Vol Diff	Factor
089-3939	2 nd Ave s/o McAfee Road NB	-708	-14%	1.17	-151	-28%	1.39	+19	0.94
089-3939	2 nd Ave s/o McAfee Road SB	-328	-7%	1.08	-24	-10%	1.11	-33	1.08

As a result of the volume comparison, it was determined that an adjustment factor of 1.39 should be used for northbound traffic during the AM peak and an adjustment factor of 1.0 (no adjustment) should be used for northbound traffic during the PM peak. It was determined that an adjustment factor of 1.11 should be used for southbound traffic during the AM peak and an adjustment factor of 1.08 should be used for southbound traffic during the PM peak. Eastbound and westbound traffic should be adjusted by the same factors as southbound traffic.

Figure 5 illustrates the adjusted 2022 peak hour traffic volumes at the study intersections as well as the existing roadway geometry (intersection layout).

Figure 1: 2nd Avenue ADT Comparison

Project Traffic

Project traffic used in this analysis is defined as the vehicle trips expected to be generated by the build out of the *Bag Factory* development. The expected gross trip generation of the development is summarized in **Table 1** (page 2).

The directional distribution and assignment of new project trips was based on a review of land uses in the area, population densities in the area, and the existing peak hour turning movement counts. Based on the trip generation from **Table 1** and the anticipated trip distribution, new project trips were assigned to the study roadway network. **Figure 4** illustrates the trip distribution and new project trips assigned to the study network by movement. **Figure 5** illustrates the Existing plus Proposed Project traffic volumes.

LOS Analysis

Level-of-service determinations were made for the weekday AM and PM peak hours for the study network intersections using *Synchro, Version 11*. In order to accurately model the intersection network, methodologies contained in the *Highway Capacity Manual, 6th Edition* were used to determine the operating characteristics of an intersection. Capacity is defined as the maximum number of vehicles that can pass over a particular road segment or through a particular intersection within a specified period under prevailing roadway, traffic, and control conditions. Levels-of-service for signalized intersections are reported for the intersection as a whole. One or more movements at an intersection may experience a low level-of-service, while the intersection as a whole may operate acceptably.

In addition to the Estimated 2022 traffic conditions, an analysis was performed for the AM and PM peak hours for the Estimated 2022 plus Proposed Project Traffic Conditions. **Table 3** summarizes the results of the LOS Analysis.

Table 3: Level-of-Service Summary LOS (Delay, in seconds)							
Intersection	Approach / Movement	Estimated 2022		Estimated 2022 plus Proposed Project		Estimated 2022 plus Proposed Project IMPROVEMENT	
		AM Peak	PM Peak	AM Peak	PM Peak	AM Peak	PM Peak
1. Glenwood Avenue at 2 nd Avenue (signalized)	Overall	D (47.8)	C (30.3)	D (49.7)	C (32.4)	D (43.6)	C (32.4)

The LOS analysis indicated that to mitigate the impact of the additional project traffic associated with the *Bag Factory* development, consideration should be given to restriping along 2nd Avenue. With the implementation of the following improvement to increase the northbound roadway capacity along 2nd Avenue, the AM peak hour LOS is expected to improve from existing conditions, even with the addition of the proposed project trips.

- Consider restriping the northbound right-turn lane along 2nd Avenue at Glenwood Avenue to a shared through/right-turn lane, as illustrated in **Figure 6**.
 - Note: A second northbound receiving lane exists and tapers into one lane approximately 400 feet north of the intersection, therefore additional roadway widening is not required.
- Consider restriping the roadway along the site frontage from the existing two-lane cross-section with unused paved shoulder to a three-lane (with center two-way left-turn lane (TWLTL)), as illustrated in **Figure 7**.
 - Providing a center TWLTL along the site frontage benefits the through traffic and the traffic entering the proposed site by removing the left-turning traffic from the through traffic, this is likely to reduce the potential for rear-end crashes.
 - Providing a center TWLTL along the site frontage will make use of the current existing, unused, pavement and will provide clarity to driver expectancy along the roadway.

It should be noted that the above improvement does not change the PM peak hour conditions. PM peak volumes are lower than AM peak volumes, and currently, there is available capacity along the northbound approach. The addition of the proposed project trips only increases delay by approximately 6%, and the intersection still operates at the same LOS letter grade (LOS C).

SUMMARY

The proposed *Bag Factory* development is located on an approximate 11.747-acre property located along the west side of 2nd Avenue and south of Alexander Avenue in unincorporated Dekalb County, Georgia. The entire site is proposed to be rezoned from C-1 and M to MR-2.

This memo compared the trip generation potential of the Existing Zoning: 58,400 SF Retail, 5,000 SF Day Care, and 27,200 SF Light Industrial; to the trip generation potential of the Proposed Zoning: 237 Multi-Family Housing (Mid-Rise) units, 44 Townhomes (Low-Rise), 5,000SF Retail. Based on the trip generation comparison, the Proposed Zoning of the proposed *Bag Factory* development is projected to generate approximately 32% less gross daily trips, 16% less AM peak hour trips, and 50% less PM peak hour trips versus the Existing Zoning.

A level-of-service analysis indicated that restriping the existing northbound right-turn lane along 2nd Avenue at Glenwood Avenue as a shared through/right-turn lane to increase the intersection capacity will improve operations during the AM peak at the intersection from existing conditions, even with the addition of the proposed *Bag Factory* development traffic. Additionally, restriping the laneage across the site's frontage to a three-lane section (with center two-way left-turn lane (TWLTL)) would be beneficial for the traffic operations.

We hope this information is helpful. Please contact me if you have any questions.

Sincerely,

KIMLEY-HORN AND ASSOCIATES, INC.

Estimated 2022 Conditions

Collected traffic counts were adjusted by a growth factor of 1.39 for the northbound direction and 1.11 for the southbound direction of 2nd Ave during the AM peak and 1.0 for the northbound direction and 1.08 for the southbound direction of 2nd Avenue during the PM peak to account for fluctuations in normal traffic patterns due to COVID-19. Glenwood Avenue was adjusted by a factor of 1.11 during the AM peak and 1.08 during the PM peak.

To Whom It May Concern,

As neighbors of the proposed development at the old bag factory at 1845-1851 Second Avenue, we have worked with Perennial Properties through this entire process starting with their first community meeting on February 1, 2022. We have found the developers willing to engage the local community to explain their proposal and hear feedback.

Over the past few months, Perennial Properties has arranged multiple meetings at the Ella apartments and the Atlanta Masjid of Al-Islam to hear from the community which resulted in a variety of modifications to the original plans:

1. Adding a lighted pedestrian pathway accessible to the public from Second Ave along the north side of the property, along Alexander Ave, and ending at Fayetteville Road.
2. Adding two pedestrian crossings - one across Second Ave and one across Fayetteville Road - ideally including protections such as the Rectangular Rapid-Flashing Beacons.
3. To facilitate traffic flow, re-striping at the corner of Second Ave and Glenwood and along Second Ave running the distance of the Bag Factory site.
4. Committing to community infrastructure improvements by putting funds in escrow to support the Right-of-Way Improvements detailed in Conditions No 4, 5, and 6.

Although we are disappointed there will not be an egress from the westside of the property to ease traffic congestion on Second Ave or stop signs on Second Ave where it intersects with Dancing Fox Road to improve driver and pedestrian safety, Perennial Properties made authentic efforts to discuss and research these options.

We have carefully reviewed the Bag Factory proposal dated June 23, 2022, and we see the three conditions and the escrow account as good faith efforts to address our concerns.

We look upon these meetings with Perennial Properties over the last few months reviewing the Bag Factory development as a solid start to a long-term neighborly relationship over the coming years and are grateful for their involvement in the approval process.

Sincerely,

Karen Minvielle
