Funding: General			
Justification: The contractors have provided satisfactory services in past years. Therefore, we are confident that they will continue to provide the level of services we've become accustom to.			
In addition, we are requesting funding as follows to support the new term: Control Technologies (\$144,048) Traffic Parts (\$114,673) Temple, Inc. (\$230,048) Southern Lighting and Traffic (\$500,048) GTEC (\$88,000)			
We have a MARTA grant project underway that requires specific equipment, we've just entered a new IGA with the School District, and we have 650 traffic signals that require routine maintenance and sometimes replacement. Further, we must be able to response to emergencies resulting from traffic accidents. Bottom line, we need sufficient funding to replenish supplies, complete contracted work, and be able to respond to routine and emergency requests without delay.
