

# LARRY R. SCHEINPFLUG

## CAREER SUMMARY

Motivated, results-focused Environmental Manager with over 30 years of total experience spanning manufacturing operations in 13 countries and 19 states. A proven performer at a mid-cap and Fortune 100 company skilled in strategic short and long term planning. Major responsibilities were to provide direction to Boral Industries, Columbian Chemical's and Georgia Pacific's business units with an emphasis on environmental projects and strategic business objectives for the past 30 years. Developed successful cross functional teams between plant engineers, environmental coordinators, plant managers and senior management. Consistently maintained the best division environmental audit record at a Fortune 100 company.

## PROFESSIONAL EXPERIENCE:

### **BORAL INDUSTRIES**

**6/2019 to Present**

- Responsible for managing all multi-media environmental issues and programs in the Stone Division.
- Responsible for Environmental Compliance, Sustainability and minimizing Environmental Risk.
- Assist with Coal Combustion Residue (CCR) issues within the Ash Division.

### **MANAGED RISK SHARING CORPORATION (contract work)**

**8/2014 to 6/2019**

- Strategic responsibility to assist numerous companies by trading economies of scale for efficiencies of expertise. Improved execution of their business plans through improving efficiencies via anonymous surveys and interviews utilizing Non Disclosure Agreements (NDA's). Results included cost savings averaging over \$200,000 per company, streamlined operations using a centralized versus non centralized operational structure, "Stop Doing Analyses" and opportunities to optimize staffing within the company.

### **COLUMBIAN CHEMICALS COMPANY - Atlanta, GA**

**7/2007 to 1/2014**

#### **Global Environmental Manager**

- Responsible for managing all multi-media environmental issues & programs that affect 17 manufacturing facilities in 12 countries with total annual sales of over 2 billion dollars.
- Responsible for heavy strategic short and long term planning for environmental projects. This includes budgetary analysis and environmental impacts with corporate and plant engineering groups.
- Environmental SME for the annual Sustainability Report developing and reporting companywide environmental data.
- Instituted effective worldwide environmental management systems.
- Assess worldwide business and regulatory issues on a daily basis and issue alerts as needed.
- Manage corporate environmental budget.
- Corporate project manager for a major data request relating to an EPA 114 request affecting two US locations.
- Managed and provided leadership to both Columbian's and the Carbon Black Industry's Greenhouse Gas (GHG) strategies. Project manager for the development of two new industry wide ASTM test methods for GHG reporting.
- Corporate governmental affairs liaison to interact with US Congressman regarding Greenhouse Gas legislation.
- Influenced Greenhouse Gas Regulations in 2 US states, MOE in Canada and at the US federal level by providing technical input.
- Influenced the EPA Above Ground Storage Tank inspection policy and "Fact Sheet" in EPA Region 6.
- Developed and implemented a worldwide Above Ground Storage Tank Inspection Policy to include tank bottoms.
- Corporate Risk Management manager for worldwide environmental issues.
- Negotiated favorable air permits at 2 plants which saved over 3 million dollars per year in raw material costs.
- Awarded the North American Achievement Award related to my cost savings projects noted above.
- Responsible for internal environmental auditing of 17 plants and follow-up of audit action items.
- Participate in the weekly North American Business Team meeting and Safety Review meetings to find corrective actions to accidents and prevent their recurrence.

**LARRY R. SCHEINPFLUG**  
**PROFESSIONAL EXPERIENCE - Continued**
