Justification:
 The aforementioned contract is set to expire January 31, 2021 and requires a renewal for utilization by the Department Watershed Management (DWM) for the period of February 1, 2021 - January 31, 2022. The Cement contract is utilized to support pipe installation projects as well as building manholes, curbing, patching and the repair of walls, roads, driveways, etc. The Department is projecting a post COVID-19 increase in the use of cement as it is used in connection with Transmission and Collection Main Projects. Subsequently due to the pandemic many of these projects were slowed during the 2020 term. DWM is anticipating a potential up-tick in user demand over the 2021 term of the contract.
