Justification:

NICE justice will improve DA/PD case management system/data sharing in this “post-pandemic” world. Further it is a data resource sharing platform that will significantly improve operational efficiencies and address the backlog that was created by the COVID-19 pandemic. Access to evidence at earlier stages, and electronic communications with the judges are now a requirement based on the new-norm, and DA/PD need to be able to share evidentiary data in an electronic form, rather than ineffective and inefficient manual processes and sharing.

Procurement is with NICE Systems, Inc. utilizing the Houston Galveston Area Council (H-GAC) Contract RP07-20.
