Justification:

The aforementioned contract is set to expire March 31, 2018 and requires a renewal for utilization by the Department of Watershed Management for the period of April 1, 2018 – March 31, 2019 to continue providing silt fencing, wheat and pine straw and sandbags for erosion control measures. This contract is a combination of several materials that were previously purchased through separate contracts or open market and therefore requires a larger financial projection.
