## **<u>Staff Recommendation</u>: Denial.**

The applicant, Theresa Walcot-Ceesay of St. Dominic Savio Motivational Place, Inc., is seeking a Special Land Use Permit (SLUP) to operate a community living arrangement (CLA) for four (4) adults with intellectual and developmental disabilities (IDD) in the Neighborhood Shopping (NS) Zoning District and within Tier 2 of the I-20 Overlay District. CLA is defined as "an establishment licensed by the State of Georgia and provides a residence for adults receiving care for mental health, development disabilities, and/or addictive diseases." Currently, the applicant operates a Group Child Caring Institution (CCI) facility for six (6) boys ages 12-17 at the subject site. As part of the transition, the applicant has stated coordination with case workers to re-home the remaining child(ren) and (if approved) begin the process to apply for the IDD CLA with the State of Georgia. The applicant has stated there will be no overlap between the two (2) operation types. The applicant has provided a floor plan of a 2,094 square foot single-family dwelling with four (4) bedrooms, two (2) bathrooms, a dining room, and a living space with an attached covered two-car carport and driveway. The ingress and egress provide space for a vehicle to safely maneuver before exiting onto Flat Shoals Parkway and will not cause increase of traffic or create congestion in the area. The driveway and carport appear to be sufficient to accommodate at least four (4) vehicles, as required by the supplemental regulations in *Section 4.2.41 Personal Care Homes (four (4) to six (6))* of the *Zoning Ordinance*. It may be of importance to note that there are two (2) existing personal care homes within two hundred (200) feet of the subject site (4047 and 4093 Flat Shoals Parkway). However, the 1,000-foot distance requirement, as stated in the supplemental regulations of *Section 4.2.41 (B3)*, does not apply to the NS Zoning District. Therefore, all supplemental regulations appear to be met. There will be 24-hour care provided, and adverse impacts based on the manner and time of operation will be minimal.

Tier 2 of the I-20 Overlay District is intended to provide a medium intensity mix of land uses which wrap around the high intensity areas close to the I-20/I-285 Interstates. Tier 2 is comprised of two (2) activity centers and multiple Livable Centers Initiatives (LCIs). Specifically, the subject site falls within the *Candler Road/Flat Shoals Parkway LCI*. The LCI aims to enhance development along Flat Shoals Parkway through parcel consolidation for infill development, increased pedestrian accessibility, and leveraging existing institutions and employment (*Candler Road/Flat Shoals Parkway LCI*, pages 96-97). The applicant's request does not appear to enhance the goals and vision of the LCI. Furthermore, a small neighborhood retail node is envisioned for the intersection of Flat Shoals Parkway and Clifton Springs Road located eight hundred (800) feet from the subject site (LCI, page 96). As proposed, the request does not add density or development as encouraged within the LCI or the designated Neighborhood Center (NC) character area. NC refers to an area within a community that is designated for a mix of commercial, retail, and residential uses that serve local neighborhoods (*2050 Unified Plan*, 35).

The subject site may not be appropriate for the proposed change in use. With an underlying NS zoning designation for the subject property and adjacent properties in the vicinity, many of these formerly residential properties have transitioned to intended neighborhood scale nonresidential uses, including retail, beauty salons, a wellness shop, and a late-night establishment. The proposed residential/institutional use may impede the continued commercial transition along a major arterial road. Moreover, directly south of the subject site, a four hundred and sixty-seven-unit (467) unit mixed use project is underway. The project will include both multi-family and townhomes with approximately thirty-five thousand (35,000) square feet of retail and restaurant space. This redevelopment may lead to additional opportunities along Flat Shoals Parkway, which

may be more in line with both the character area and the LCI than the current proposal. Therefore, upon review of *Section 7.4.6* (G and H) of the *Zoning Ordinance*, staff recommends denial of the Special Land Use Permit request. However, should the SLUP request be approved, Staff offers the following recommended conditions for consideration:

1. The SLUP shall expire September 2025 and must be renewed before the expiration date.

2. Applicant(s) must comply with Sec. 4.2.41 of the *Zoning Ordinance* for personal care homes.

3. The PCH/CLA shall be limited to a maximum of four (4) individuals.

4. The special land use permit shall be issued to Theresa H. Walcot-Ceesay and shall not be transferrable.

5. The approval of this SLUP application by the Board of Commissioners has no bearing on the requirements for other regulatory approvals under the authority of the Zoning Board of Appeals, or other entity whose decision should be based on the merits of the application under review by such entity.

## Board of Health

----

12/15/2023

To: LaSonda Hill, Planning and Sustainability

From: Ryan Cira, Environmental Health Director Cc: Alan Gaines, Environmental Health Deputy Re: Rezone Application Review

General Comments:

DeKalb County Health Regulations prohibit use of on-site sewage disposal systems for

- multiple dwellings
- food service establishments
- · hotels and motels
- commercial laundries
- funeral homes
- schools
- nursing care facilities
- personal care homes with more than six (6) clients
- child or adult day care facilities with more than six (6) clients
- residential facilities containing food service establishments

If proposal will use on-site sewage disposal, please contact the Land Use Section (404) 508-7900.

Any proposal, which will alter wastewater flow to an on-site sewage disposal system, must be reviewed

by this office prior to construction.

This office must approve any proposed food service operation or swimming pool prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network or begin

a new sidewalk networks. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and

the road. There shall be enough space next to sidewalk for bus shelter's concrete pad installation.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon

resistant construction.

| Existing right of way width      | Existing right of way width      |
| Proposed number of traffic lanes | Proposed number of traffic lanes |
| Proposed right of way width      | Proposed right of way width      |

Please provide additional information relating to the following statement.

According to studies conducted by the Institute of Traffic Engineers (ITE) 6/7<sup>th</sup> Edition (whichever is applicable), churches generate an average of fifteen (15) vehicle trip end (VTE) per 1, 000 square feet of floor area, with an eight (8%) percent peak hour factor. Based on the above formula, the \_\_\_\_\_\_ square foot place of worship building would generate \_\_\_\_\_\_ vehicle trip ends, with approximately \_\_\_\_\_\_ peak hour vehicle trip ends.

Single Family residence, on the other hand, would generate ten (10) VTE's per day per dwelling unit, with a ten (10%) percent peak hour factor. Based on the above referenced formula, the \_\_\_\_\_\_ (Single Family Residential) District designation which allows a maximum of \_\_\_\_\_\_units per acres, and the given fact that the project site is approximately \_\_\_\_\_\_ acres in land area, \_\_\_\_\_\_ daily vehicle trip end, and \_\_\_\_\_\_ peak hour vehicle trip, end would be generated with residential development of the parcet.

#### SLUP

St Dominic Savio Motivational Place (DSMP), Inc

4077 Flat Shoals Parkway, Decatur, GA 30034

C. Letter of application

1. Letter of application identifying

a) the proposed zoning classification (10)

Community Living Arrangement (CLA)

b) The reason for the rezoning or special use or modification request

(SLUP) due to a single dwelling home in a Neighborhood Shopping Zone. A single dwelling home in a Neighborhood Shopping zone cannot housed three Residents. As per zoning, a CLA residential home must have 4 Residents instead of three in a Neighborhood Shopping, which required a SLUP.

c) The existing and proposed use of the property

We currently have a CCI group home with a capacity of six occupants from ages 12 to 17. The proposed use of the property is to care for Intellectual and Developmental Disability (IDD) Residents.

d) Detailed characteristics of the proposed use (e.g., floor area, height of building(s), number of units, mix of unit types, number of employees, manner and hours of operation), d)(optional) statement of conditions discussed with the neighborhood or community, if any.

Floor area – 2094sqft – four bedrooms, two bathrooms, formal living room, family room, formal dining room, and eat in kitchen.

Height of building - Ranch on an unfinished basement. There is also a carport that holds two vehicles and a pavement parking with lots of extra parking.

Number of units - Single family home

Mix of unit types - N/A

#### Number of employees, manner, and hours of operation

We currently staff 24/7 with the CCI group home and that will be the same for the CLA home. The CLA home will only have four Residents. CCI is 6 to two staff. We also have a night shift staff to monitor the children while sleeping. There will also be a night staff for CLA and requires one staff per shift. Despite of the required staffing, we do use our safety judgement with staffing based on the circumstances for the day. IDD adults can never stay on their own due to their disabilities. We strived for them to living a healthy lifestyle just like us, provide a safe environment including mental and physical well-being.

St Dominic Savio Motivational Place (DSMP), Inc

4077 Flat Shoals Parkway, Decatur, GA 30034

(Optional) statement of conditions discussed with the neighborhood or community, if any.

A letter of invitation via Zoom to attend a neighborhood meeting for discussion of the proposed SLUP was sent via postal mail.

2

2. **Impact analysis** of the anticipated impact of the proposed use and rezoning on the surrounding properties in response to the standards and factors specified in Article 7.3 of the DeKalb County Zoning Ordinance, as attached. If a Major Modification, please include previously approved conditions and Board of Commissioner meeting minutes.

There will be no modification at the proposed location. The proposed location is already an existing group home and has the required elements that qualifies a CCI group home as well as a CLA home. The requirements for both are the same.

A. Adequacy of the size of the site for the use contemplated and whether or not adequate land area is available for the proposed use including provision of all required yards, open space, off-street parking, transitional buffer zones, and all other applicable requirements of the zoning district in which the use is proposed to be located.

The subject site is one acre. The lot is developed with a 2,094-square foot, single- family detached dwelling and a attached covered carport within a neighborhood of similarly sized homes and business. The applicant is not proposing to expand the existing structure's footprint and the property meets the dimensional standards for lot coverage, off street parking, and other applicable requirements of the NS zoning district. The site appears to be adequate for the proposed use including the existing dwelling, 2- car -carport, paved parking, and driveway.

B. Compatibility of the proposed use with adjacent properties and land uses and with other properties and land uses in the district, and whether the proposed use will create adverse impacts upon any adjoining land use by reason of traffic volume/congestion, noise, smoke, odor, dust, or vibration generated by the proposed use.

The property now is a NS, surrounded by homes and businesses. The proposed use is not expected to cause any adverse impacts. The home will have four adults with intellectual and developmental disabilities (I/DD) and will be considered their home. There is adequate parking for caregivers and visitors to the home. There will be an extensive file review of referred individuals (clients) to determine if the individual is a good match for the home and the neighborhood. We want to fit into the neighborhood. The house is not located in a subdivision. Care would be taken to protect the established neighborhood.

C. Adequacy of public services, public (or private) facilities, and utilities to serve the proposed use. **Schools** - There will be no impact on public school facilities.

**Stormwater management -** The applicant does not propose any alterations to the property which would require review of stormwater management.

Water and sewer - DeKalb Watershed Management will complete a full review as part of the process if needed and if the SLUP is approved.

D. Adequacy of the public street on which the use is proposed to be located and whether or not there is sufficient traffic-carrying capacity for the use proposed so as not to unduly increase traffic and create congestion in the area.

There is sufficient traffic-carrying capacity. As the dwelling is currently used as a CCI Group Home and is staffed 24 hours. The change to a CLA home will not change the current traffic flow in either direction. The applicant has a single, unmarked, van parked in the carport, remained parked in the carport, and is used as transportation to and from community outings. One staff member would be on site with the CLA home and that there could be three times per day that staff would change shifts; between 7am-8am, between 3pm-4pm, and between 9pm-10pm." Additionally, an agency contracted by DBHDD will visit the home once a month to audit for compliance and safety. The measurement of the driveway - from the border of the walkway to the driveway – length 64ft, park space – width 40ft (please see driveway photos).

E. Adequacy of ingress and egress to the subject property and to all proposed buildings, structures, and uses thereon, with particular reference to pedestrian and automotive safety and convenience, traffic flow and control, and access in the event of fire or other emergency.

The subject property's current ingress and egress will not change and is accessible to emergency assistance. When exiting the property, there is space to maneuver a vehicle on the property before attempting to exit onto Flat Shoals Parkway. There is a sidewalk on the street in front of the property for safe walks to and from. The applicant is proposing no modifications to the interior or exterior of the home. The property is located on little under two acres of land, which would also provide adequate access for emergency services vehicles and the DeKalb County Fire Department expressed no concerns regarding access for emergency vehicles with the current CCI home.

F. Whether the proposed use will create adverse impacts upon any adjoining land use by reason of the manner and hours of operation of the proposed use.

The hours of operation will be 24 hours a day, however, shift changes will happen between the hours of 7am-8am, 3pm-4pm, and 9pm-10pm, which is our practice currently. The Residents will not be drivers, so there should be minimal traffic impacts compared to a typical single-family home. The Residents are also not drivers in the current CCI home and the CLA Residents will not be drivers. The applicant has stated the residence shall appear as a single-family home and no signage will be erected for the CLA home as it appears now. Nearby single-family homes or nearby businesses should not be adversely affected by the manner or operation of the CLA home.

The dwelling will be a CLA Home for I/DD Adults who will live just like anyone else in the community. Although hours of operation are 24 hours, there will be no outdoor activities in the night hours. All daytime activities will be supervised by the staff. Furthermore, the proposed CLA home will not generate excessive noise, nor will it emit smoke, odor, dust, or vibration. The occupancy will not be more than 4 Residents.

G. Whether the proposed use is otherwise consistent with the requirements of the zoning district classification in which the use is proposed to be located.

If approved by SLUP, the proposed CLA Home will comply with the Neighborhood Shopping zoning district. The proposed CLA home will be in a single-family home and must maintain the exterior appearance as a residential structure.

H. Whether the proposed use is consistent with, advances, conflicts, or detracts from the policies of the comprehensive plan.

The subject property is in a neighborhood Shopping zoning. The proposed use is consistent with the intent of the adopted comprehensive plan, care must be taken to preserve existing neighborhoods from institutionalization. The introduction of a CLA Home does not align with preservation of existing neighborhoods because it could institutionalize the area. However, the zoning ordinance defines institutionalization as two Personal Care Homes within 1,000 feet of each other. In research of other nearby and surrounding Personal Care Homes, and with the confirmation from zoning, there is no nearby PCH, CLA or CCI home with a 1000ft.

I. Whether there is adequate provision of refuse and service areas.

The proposed use should not generate excessive refuse and the applicant has stated that they will be serviced by DeKalb County sanitation. We are currently serviced by Dekalb County Sanitation.

J. Whether the length of time for which the special land use permit is granted should be limited in duration.

Staff does not recommend any limits on the length of time of the special land use permit (if granted), so long as the applicant obtains all local licensing requirements including compliance with approved conditions.

K. Whether the size, scale and massing of proposed buildings are appropriate in relation to the size of the subject property and in relation to the size, scale and massing of adjacent and nearby lots and buildings; and whether the proposed use will create any shadow impact on any adjoining lot or building as a result of the proposed building height.

The applicant proposes no changes to the existing building size, mass, and scale. The current dwelling is adequate. There is no need for construction/building.

L. Whether the proposed use will adversely affect historic buildings, sites, districts, or archaeological resources.

There are no known historic buildings, sites, districts, or archaeological resources on the subject properties. Therefore, no adverse effects are anticipated.

M. Whether the proposed use satisfies the requirements contained within the supplemental regulations for such special land use permit.

The current CCI home is in compliance such as but not limited to having a current business license, Certificate of Occupancy, no signage that violates the sign ordinance, no PCH, CLA or CCI homes less than 1000ft. The proposed CLA Home will follow the supplemental regulations for CLA home.

N. Whether the proposed use would be consistent with the needs of the neighborhood or the community as a whole, as expressed and evidenced during the review process.

The proposed use will not produce an adverse effect in the neighborhood neither the community. No changes are being proposed to the existing structure regarding increasing the footprint or height of the building. Since residing at 4077 Flat Shoals Parkway, none of our foster Youths have invaded any neighborhood. They are well supervised, and we have been at the location since 2018. As we are changing from CCI to a CLA home, we vowed to continue the same caring pattern for our I/DD population.

The following address locations were reviewed to see if existing PCH/CLA are within 1000 feet of the address. The blue/purple ping dots indicate existing PCH/CLA locations on the maps and the red  $\times$  indicates where the address is located (approximately).

#### 1. 4077 Flat Shoals Parkway, Decatur GA 30034-- No existing PCH/CLA within 1000 feet.

DEPARTMENT OF PLANNING & SUSTAINABILITY

## **DISCLOSURE OF CAMPAIGN CONTRIBUTION**

In accordance with the Conflict of Interest in Zoning Act, OCGA Chapter 36-67A, the following questions <u>must</u> be answered.

Have you, the applicant, made \$250.00 or more in campaign contribution to a local government official within two years immediately preceding the filling of this application?

Yes No X \*

If the answer is yes, you must file a disclosure report with the governing authority of DeKalb County showing:

- 1. The name and official position of the local government official to whom the campaign contribution was made.
- 2. The dollar amount and description of each campaign contribution made during the two years immediately preceding the filing of this application and the date of each such contribution.

The disclosure must be filed within 10 days after the application is first filed and must be submitted to the C.E.O. and to the Board of Commissioners of DeKalb County, 1300 Commerce Drive, Decatur, GA 30030.
