

RECOMMENDATION FORM
GSA Schedule Number GS-35F-0119W

User Department's Recommendation

Recommended Firm: Emergent

User Department: Innovation and Technology

APPROVE (Please circle one): YES NO

Name of Fund: Operating Fund 100 Object Code 522201

Contract Award Amount: \$204,907.00

Justification:

DoIT uses the Ansible Automation product to automate system administration tasks in our technical environment. The product is also used to automate the creation of new employee accounts in association with the CV360 human resources system. Automation performs necessary administrative actions using scripts and processes to ensure efficient, consistent operations and reduce the potential for human error when working with county business systems. The automation is also scheduled to be conducted during off-hours, nights, weekends, and holidays to minimize downtime during normal business hours. The automation will also include immediate automated responses to security events, eliminating the delays caused by current manual processes. Other automation will ensure consistent operational processes, reducing errors and improving efficiency.

We are requesting the use of GSA Schedule Number GS35F0119W with Emergent to renew and co-term all Red Hat Ansible from 06/18/2026 – 06/17/2027. The total amount for this request is \$204,907.00.

If additional information is required, please contact Tiffany Davis at 404-276-4337.
