**User Department Recommendation:**

DoIT is currently evaluating options to migrate our Oracle financial systems and related applications to a cloud services provider. This will eliminate the need to replace the existing IBM Pureflex AIX based system. We are requesting approval to extend the existing lease arrangements on a month-to-month basis to complete the migration to an alternate system or facility. The migration will likely proceed throughout 2019 with an anticipated end date on or before December 2019. The total amount for this request is \$315,630 (\$35,070 per month April through December 2019).
