1. Dr. Ed Williams, P.O. Box 361626 Decatur, GA 30036 - Good Morning Commissioners. My name is Ed Williams It has been just over a year since the Supreme Court of Georgia ruled in the case of WILLIAMS versus DEKALB COUNTY which overturned the ruling of the DeKalb County trial court Judge Gregory Adams. In summary, the Supreme Court of Georgia found the following. It partially ruled in favor of Dr. Ed Williams who sued the DeKalb County Board of Commissioners for raising members' salaries by 60 percent. In the lawsuit, Dr. Williams claimed in part that the board violated the Georgia Open Meetings Act by not giving proper notice of its intent to pass the pay increase. At the meeting, the board then voted 6-1 to pass the increase, raising commissioners' salaries from \$40,530.55 to \$65,000. The truth of the matter is that statute 36-5-24 is unconstitutional, and the phrase unless otherwise provided by local law, is the show stopper. A local government cannot repeal a local act of the General Assembly related to their compensation. This is prohibited by the Georgia Constitution in Article 9, Section 2, Paragraphs 1(b) and 1(c) of the Georgia Constitution prohibits the governing authority from setting their own compensation. It is the General Assembly that has the authority to fix the salaries of the commissioners. There is no two ways about it, that the DeKalb law department is not serving the citizens of DeKalb County well and is spending a lot of taxpayer money to defend unlawful actions. It seems that case after case, DeKalb county prefers to spend taxpayer money fighting the defenseless actions that are clearly illegal and at best a conflict of interest and unethical. The law department is an enabler for the county to continue to do wrong and flees the citizens of DeKalb County. We have seen in the recent presidential election where some attorneys will say and do anything to represent their clients. Well, this should not be the practice for the employees and attorneys that work for DeKalb County. The attorneys in the DeKalb County law department should be representing the interest of the citizens of DeKalb County, not the elected officials' interests. Instead, it seems that the county attorneys believe that they are personal attorneys for the elected officials and that their advice is protected privileged communications, it is not. Three years later the county is still fighting the obvious fact that the commission violated the law and the Georgia Constitution. The case Williams v. DeKalb County has a hearing scheduled for the week of April 12 through 16 in DeKalb Superior Court on the commission pay raise on Youtube. The Georgia Constitution and the DeKalb County Organizational Act prohibited county governing authority from having that power to increase their salaries. The Gwinnett County officials should pay attention and not make the same mistake. Thank You

2. Stephen Binney, (no address) - Good Morning Commissioners, on today's agenda, Item #2369 relates to the granting of a tax abatement to the Manor Druid Hills project in the City of Brookhaven. I admit that I am against tax abatements in general but to award one to a company building on one of the most desirable plots in all of Dekalb County is insane. If a developer needs a tax abatement or zoning changes in order to "make a profit" on land they bought, then maybe they just paid too much money for it. Taxpayers should not have to pay for their mistakes. Speaking of insanity, did I hear last week that Decide Dekalb has the sole power over which developers get a tax abatement? To allow a non-elected entity that kind of control over County revenues is crazy. As County Commissioners you must have the final say in the awarding of a tax abatement. The voters elected you to spend our taxes not Decide Dekalb. And now, some more information on Dekalb County's Local Small Business Enterprise department. The Office of Independent Internal Audit issued a report on the LSBE in 2019. There were 10 areas of noncompliance, including no finalized operating procedures to administer the modified 2016 LSBE program passed by this commission 6 years ago. Incomplete prime contractor profile information, pertinent data fields left blank or filled with a description, such as "John Doe". Do you know a company called "Jon Doe"? I didn't think so. Recently I introduced you to a company called The Renee Group. After a little research I discovered there are two Renee Groups in this area. One is located

in southwest Atlanta. They have about 93 employees, annual revenues of around 22 million dollars, and do business throughout the southeast. The other Renee Group is a listed LSBE in Doraville with around 8 employees and around 1 million dollars in annual revenues. They sub-contract their jobs out. I wonder who they sub-contract with? Both Renee Groups have the same website address and the same listed phone number. Looks more like a front group to help qualify for contracts than a legitimate LSBE company. This is not an isolated occurrence but only an example of the types of problems that are rampant throughout DeKalb's LSBE program. The contract for running this program is coming up soon. Has the RFP process started yet? Last year you spent 280 thousand dollars of good money with a bad company that has proven itself to be ineffective and open to corruption over the last 6 years without even talking about it. This year I hope you will talk seriously about the LSBE program instead of wearing a mask and washing your hands of it like it's COVID-19. Thank you for your time and consideration

3. Martha Gross, Zoning and Land Use Chair North Druid Hills Residents Association - How many massage parlors are within walking distance of your home? If you lived in North Druid Hills, the answer would be 12 according to Google and likely that number who operate out of their homes or apartments and are not listed on Google. How many of those massage places are properly licensed and have operated without resorting to illegal activity? We would all like to know. We hear the stories on social media of young Asian women who do not speak English offering more than a foot massage to male patrons. Patrons say they complain to DeKalb Police and nothing happens. I know of a patron who complained to the police of a local jurisdiction and that department set up a raid in conjunction with DeKalb police. The raid revealed there were several young women there who did not speak English and had no documents. What do you suppose happened to that place? Those offenses are in direct violation of county license law, as well as state and national laws. Would you guess it was shut down and the owners faced serious consequences for human trafficking and dealing in the sex trade? The answer is essentially nothing. The spa got to open up again the next day – business as usual. Poor unsuspecting residents go there for a massage could be inadvertently supporting human trafficking. I am writing to beg you to pass a local ordinance that lets the public know when a spa has been found to have unlicensed or undocumented people working there OR when it has been found to have been providing “happy endings”. The public needs to be protected from the deception and silence that allows this activity to fester right under our noses

4. Susan Firestone, 1227 Church Street Unit E, Decatur, GA 30030 - Commissioners, I urge you to remove the cannon commemorating the "Indian war" of 1836 from the square in Decatur. The cannon is a harmful racist symbol of the forced removal and genocide of the Muscogee Creek people from their homelands. We, the residents of the city of Decatur and of DeKalb County, now benefit from their stolen land and erased history. This cannon has no place in our public square. Remove this cannon immediately. There are other more appropriate ways to remember this period of our history, such as in an alternate symbol or display that tells the whole history of that period and honors the Muscogee Creek people

5. Ronald Nuse, Decatur, GA 30030 - I join with the Beacon Hill Black Alliance for Human Rights, Decatur High School students, local clergy, historians and indigenous peoples in the call for removal of the infamous “Indian War Cannon” by the old Court House in Decatur Square. This object speaks to the violent removal of indigenous peoples from their land. The cannon was placed in Decatur in 1906 by the United Daughters of the Confederacy and memorializes the removal of indigenous peoples following the Creek Indian War of 1836.

The war was a consequence of the Indian Removal Act of 1830, which President Andrew Jackson strongly supported. Along with the Beacon Hill Black Alliance for Human Rights I call on Decatur's leaders to "finish the job" it began last June when it removed a Confederate monument from the city square.
