**STAFF RECOMMENDATION: APPROVAL WITH CONDITIONS**

The applicant, Haley Todd (PEC+) is proposing to construct a total of 230 dwelling units at a density of approximately 4.23 units per acre, of which 131 are senior housing units.

The subject property in its current configuration comprises approximately 77.21 acres of land that was formerly used as part of the now-defunct Hidden Hills Golf Course. The property is located within a Suburban (SUB) Character Area per the *DeKalb County 2050 Unified Plan* and has an underlying zoning designation of R-100 (Residential Medium Lot-100). In addition, the subject property spans across two tiers of the Greater Hidden Hills Overlay District:

- The extreme eastern and southern portions of the property are designated as being within Tier 4 of the Overlay. Section 27-3.37.5. of the *Zoning Ordinance* defines Tier 4 as “a conservation open space area comprised of properties which are of such size, configuration and topography which would cause undue impacts on adjoining properties if developed. The properties are to be used for active and passive recreation areas and associated accessory structures.”
- The remaining 54.355 acres are designated as being within Tier 5 of the Overlay. Section 27-3.37.5. of the *Zoning Ordinance* defines Tier 5 as “a neighborhood mixed-use area which allows for increased density, increased building heights, and additional permitted uses within a mixed-use environment. The purpose of Tier 5 is to allow increased development in an area where it is needed while preserving/conserving property within Tiers 3 and 4.”

On September 22, 2021, the DeKalb County Planning Commission approved a Sketch Plat (P-Plat #1244609) authorizing the subdivision of 77.21 acres for the purpose of constructing 228 single-family attached (townhome) dwellings, 240 multifamily dwellings, and approximately 225,000 square feet of non-residential office space. Per Section 14-98 of the *Land Development Code*, P-Plat #1244609 expired on September 22, 2023.

On May 22, 2024, the DeKalb County Planning Commission approved a Sketch Plat (P-Plat #1246015) authorizing the subdivision of 77.21 acres into three (3) parcels solely for the purpose of conveying two of the three resultant lots to a new owner for conservation. These lots would align with the current boundaries of Tier 4 on the subject property, as shown in the map titled “Greater Hidden Hills Overlay District” dated October 28, 2011. At the time of this analysis, P-Plat #1246015 has not expired; however, a Final Plat officially creating these three (3) distinct lots has yet to have been recorded by the County.

An additional Sketch Plat application is currently under review at the time of this analysis and is associated with the subject Special Land Use Permit (SLUP) request, which focuses on the remaining 54.355 acres that would comprise Tier 5 of the Overlay. This Sketch Plat application (P-Plat #1246985) calls for up to 230 dwellings at a density of approximately 4.23 units per acre- a significant reduction from the original proposal in 2021 (468 units at a density of 8.61 units per acre, if using the 54.355-acre figure).

Of the 230 dwellings proposed, 44 units would be conventional single-family detached dwellings and 186 would be single-family attached (townhome) dwellings. Of the 186 attached dwellings, 131 are proposed to be senior units. Tier 5 of the Overlay only authorizes *senior housing* with a SLUP, hence the subject application request (the proposed use also satisfies the mixed-use requirement of Tier 5 of the Overlay).

As indicated by a graphic titled “Hidden Hills Master Plan” presented by the applicant at Community Council, the proposed 131 senior housing units would be located in the northwestern section of the development site. The units are proposed to be single-story and ADA accessible, and appear to meet the supplemental requirements for senior housing developments as specified in Section 27-4.2.26. of the *Zoning Ordinance*. The proposed use would be integrated into the larger proposed “Terra Bella” development as envisioned in P-Plat #1246985 (the most recent site plans are included with this analysis) and would share amenities including open space and a clubhouse/pool located to the south of the proposed traffic circle on the site plan.

The proposed senior housing supports the intent of the Suburban (SUB) Character Area per the *DeKalb County 2050 Unified Plan*, as it would “increase housing choice and income diversity without significantly altering established neighborhood development patterns”. The proposed senior housing and additional units that would be associated with P-Plat #1246985 would be developed at a density that is similar to other developments within the Overlay. The overall development promotes connectivity and provides walking trails and ADA-compliant pathways throughout.

From a land use perspective, the proposed use of senior housing would not be in conflict with the intent of Tier 5 of the Overlay and appears to meet the supplemental criteria of Section 27-4.2.46. (Senior housing: independent and assisted living, nursing, and continuing care) and the criteria for a SLUP in Section 27-7.4.6. of the *Zoning Ordinance*. Therefore, upon review of Section 27-4.2.46 and 27-7.4.6 of the *Zoning Ordinance*, the Planning and Sustainability Department recommends **“Approval, with the following conditions”**:

1. Senior housing units shall be constructed and located in general conformance to the conceptual plans titled “Hidden Hills Master Plan” by Planners and Engineers Collaborative.
2. Facades of senior housing units shall be in general conformance with renderings titled “Product Samples” by Planners and Engineers Collaborative and shall also be in conformance with Section 27-4.2.46. (E) and Section 5.7.6. of the *Zoning Ordinance*.
3. The proposed clubhouse amenity shall be completed prior to the issuance of any Certificate of Occupancy (CO) for any senior housing units.
4. A traffic impact study shall be completed prior to Zoning approval of a Sketch Plat, as required per Section 27-5.3.4. of the *Zoning Ordinance*.
5. Approval of this SLUP by the Board of Commissioners has no bearing on the requirements for other regulatory approvals under the authority of the Planning Commission, the Zoning Board of Appeals, or other entity whose

decision should be based on the merits of the application under review by each entity. Approval of this SLUP shall not be used in lieu of an approved Sketch/Preliminary Plat, Land Development Permit (LDP), building permit, or any other County permit nor shall be considered a guarantee of approval of any permit.

General Comments:

DeKalb County Health Regulations prohibit use of on-site sewage disposal systems for

- multiple dwellings
- food service establishments
- hotels and motels
- commercial laundries
- funeral homes
- schools
- nursing care facilities
- personal care homes with more than six (6) clients
- child or adult day care facilities with more than six (6) clients
- residential facilities containing food service establishments

If proposal will use on-site sewage disposal, please contact the Land Use Section (404) 508-7900.

Any proposal, which will alter wastewater flow to an on-site sewage disposal system, must be reviewed by this office prior to construction.

This office must approve any proposed food service operation or swimming pool prior to starting construction.

Public health recommends the inclusion of sidewalks to continue a preexisting sidewalk network or begin a new sidewalk network. Sidewalks can provide safe and convenient pedestrian access to a community-oriented facility and access to adjacent facilities and neighborhoods.

For a public transportation route, there shall be a 5ft. sidewalk with a buffer between the sidewalk and the road. There shall be enough space next to sidewalk for bus shelter's concrete pad installation.

Since DeKalb County is classified as a Zone 1 radon county, this office recommends the use of radon resistant construction.

Please provide additional information relating to the following statement.

According to studies conducted by the Institute of Traffic Engineers (ITE) 6/7<sup>th</sup> Edition (whichever is applicable), churches generate an average of fifteen (15) vehicle trip end (VTE) per 1,000 square feet of floor area, with an eight (8%) percent peak hour factor. Based on the above formula, the \_\_\_\_\_ square foot place of worship building would generate \_\_\_\_\_ vehicle trip ends, with approximately \_\_\_\_\_ peak hour vehicle trip ends.

Single Family residence, on the other hand, would generate ten (10) VTE's per day per dwelling unit, with a ten (10%) percent peak hour factor. Based on the above referenced formula, the \_\_\_\_\_ (Single Family Residential) District designation which allows a maximum of \_\_\_\_\_ units per acres, and the given fact that the project site is approximately \_\_\_\_\_ acres in land area, \_\_\_\_\_ daily vehicle trip end, and \_\_\_\_\_ peak hour vehicle trip end would be generated with residential development of the parcel.

<b>MARTA July 2025 Case Comments</b>
--

**N5-2025-0628      Z-25-1247529      2381 Snapfinger Road, Decatur, GA 30034**

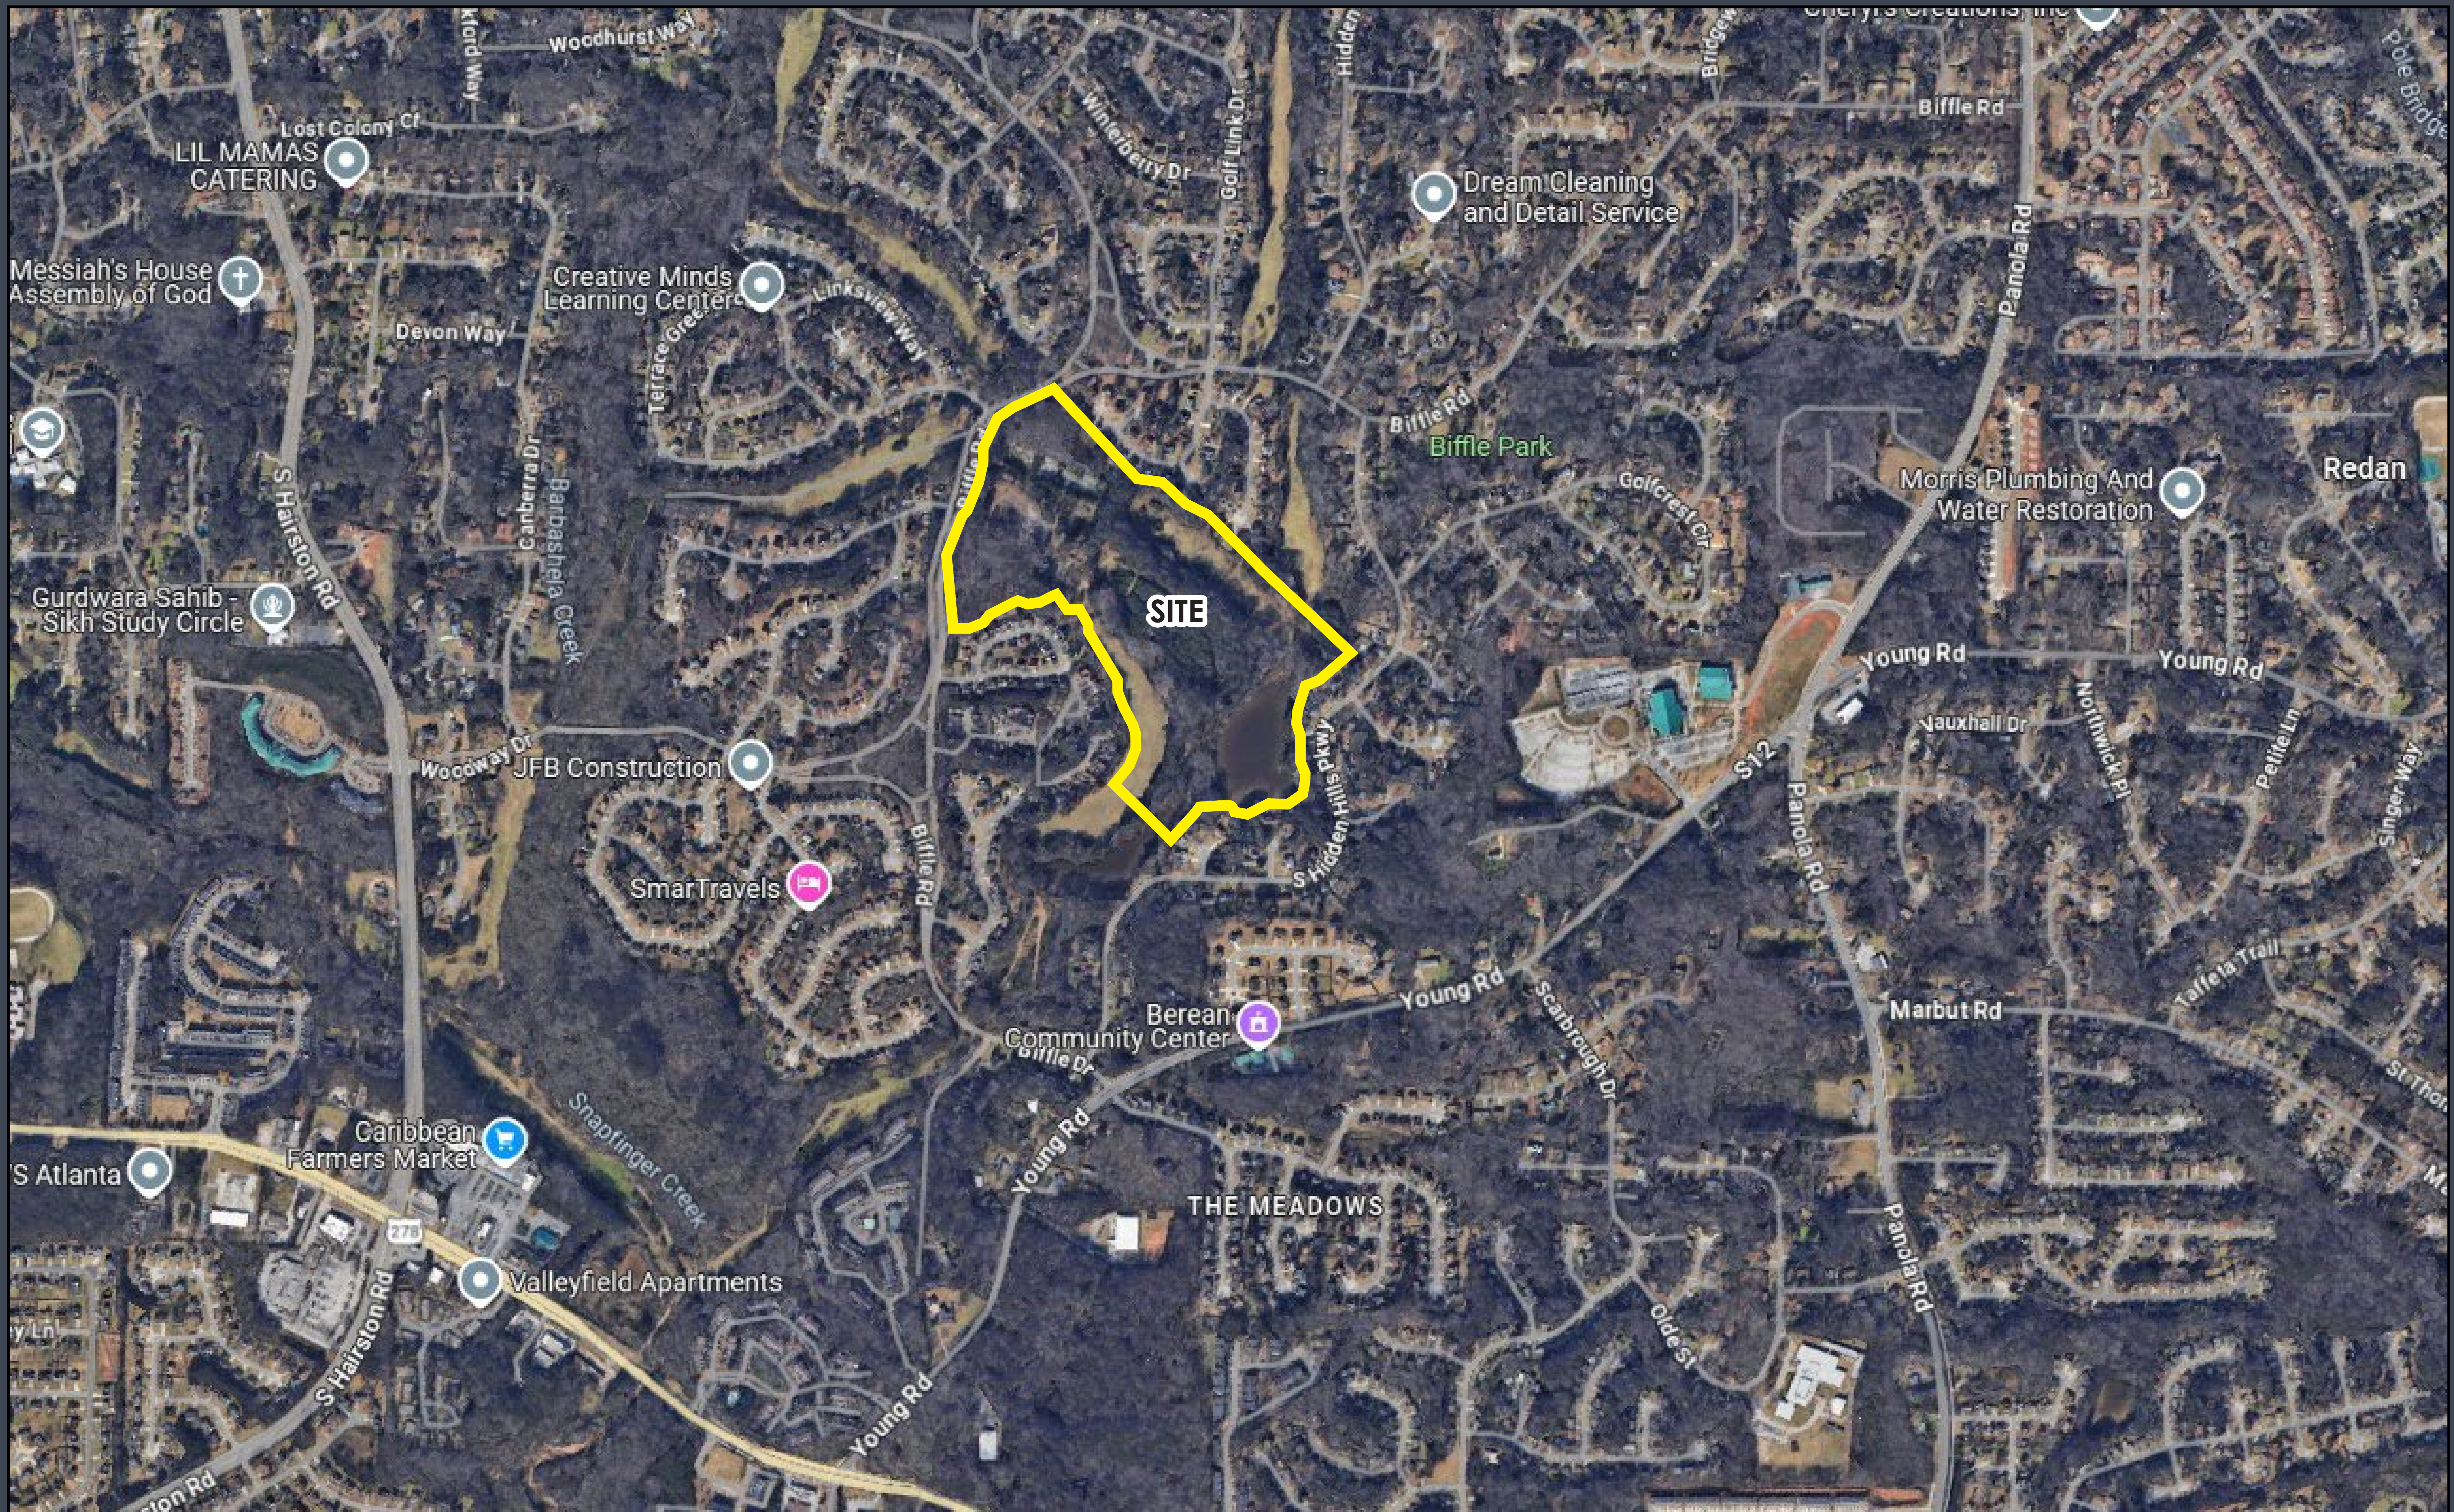

This property is adjacent to MARTA bus routes on nearby Rainbow Rd and Wesley Chappel Rd. Development should include pedestrian connectivity to these routes.

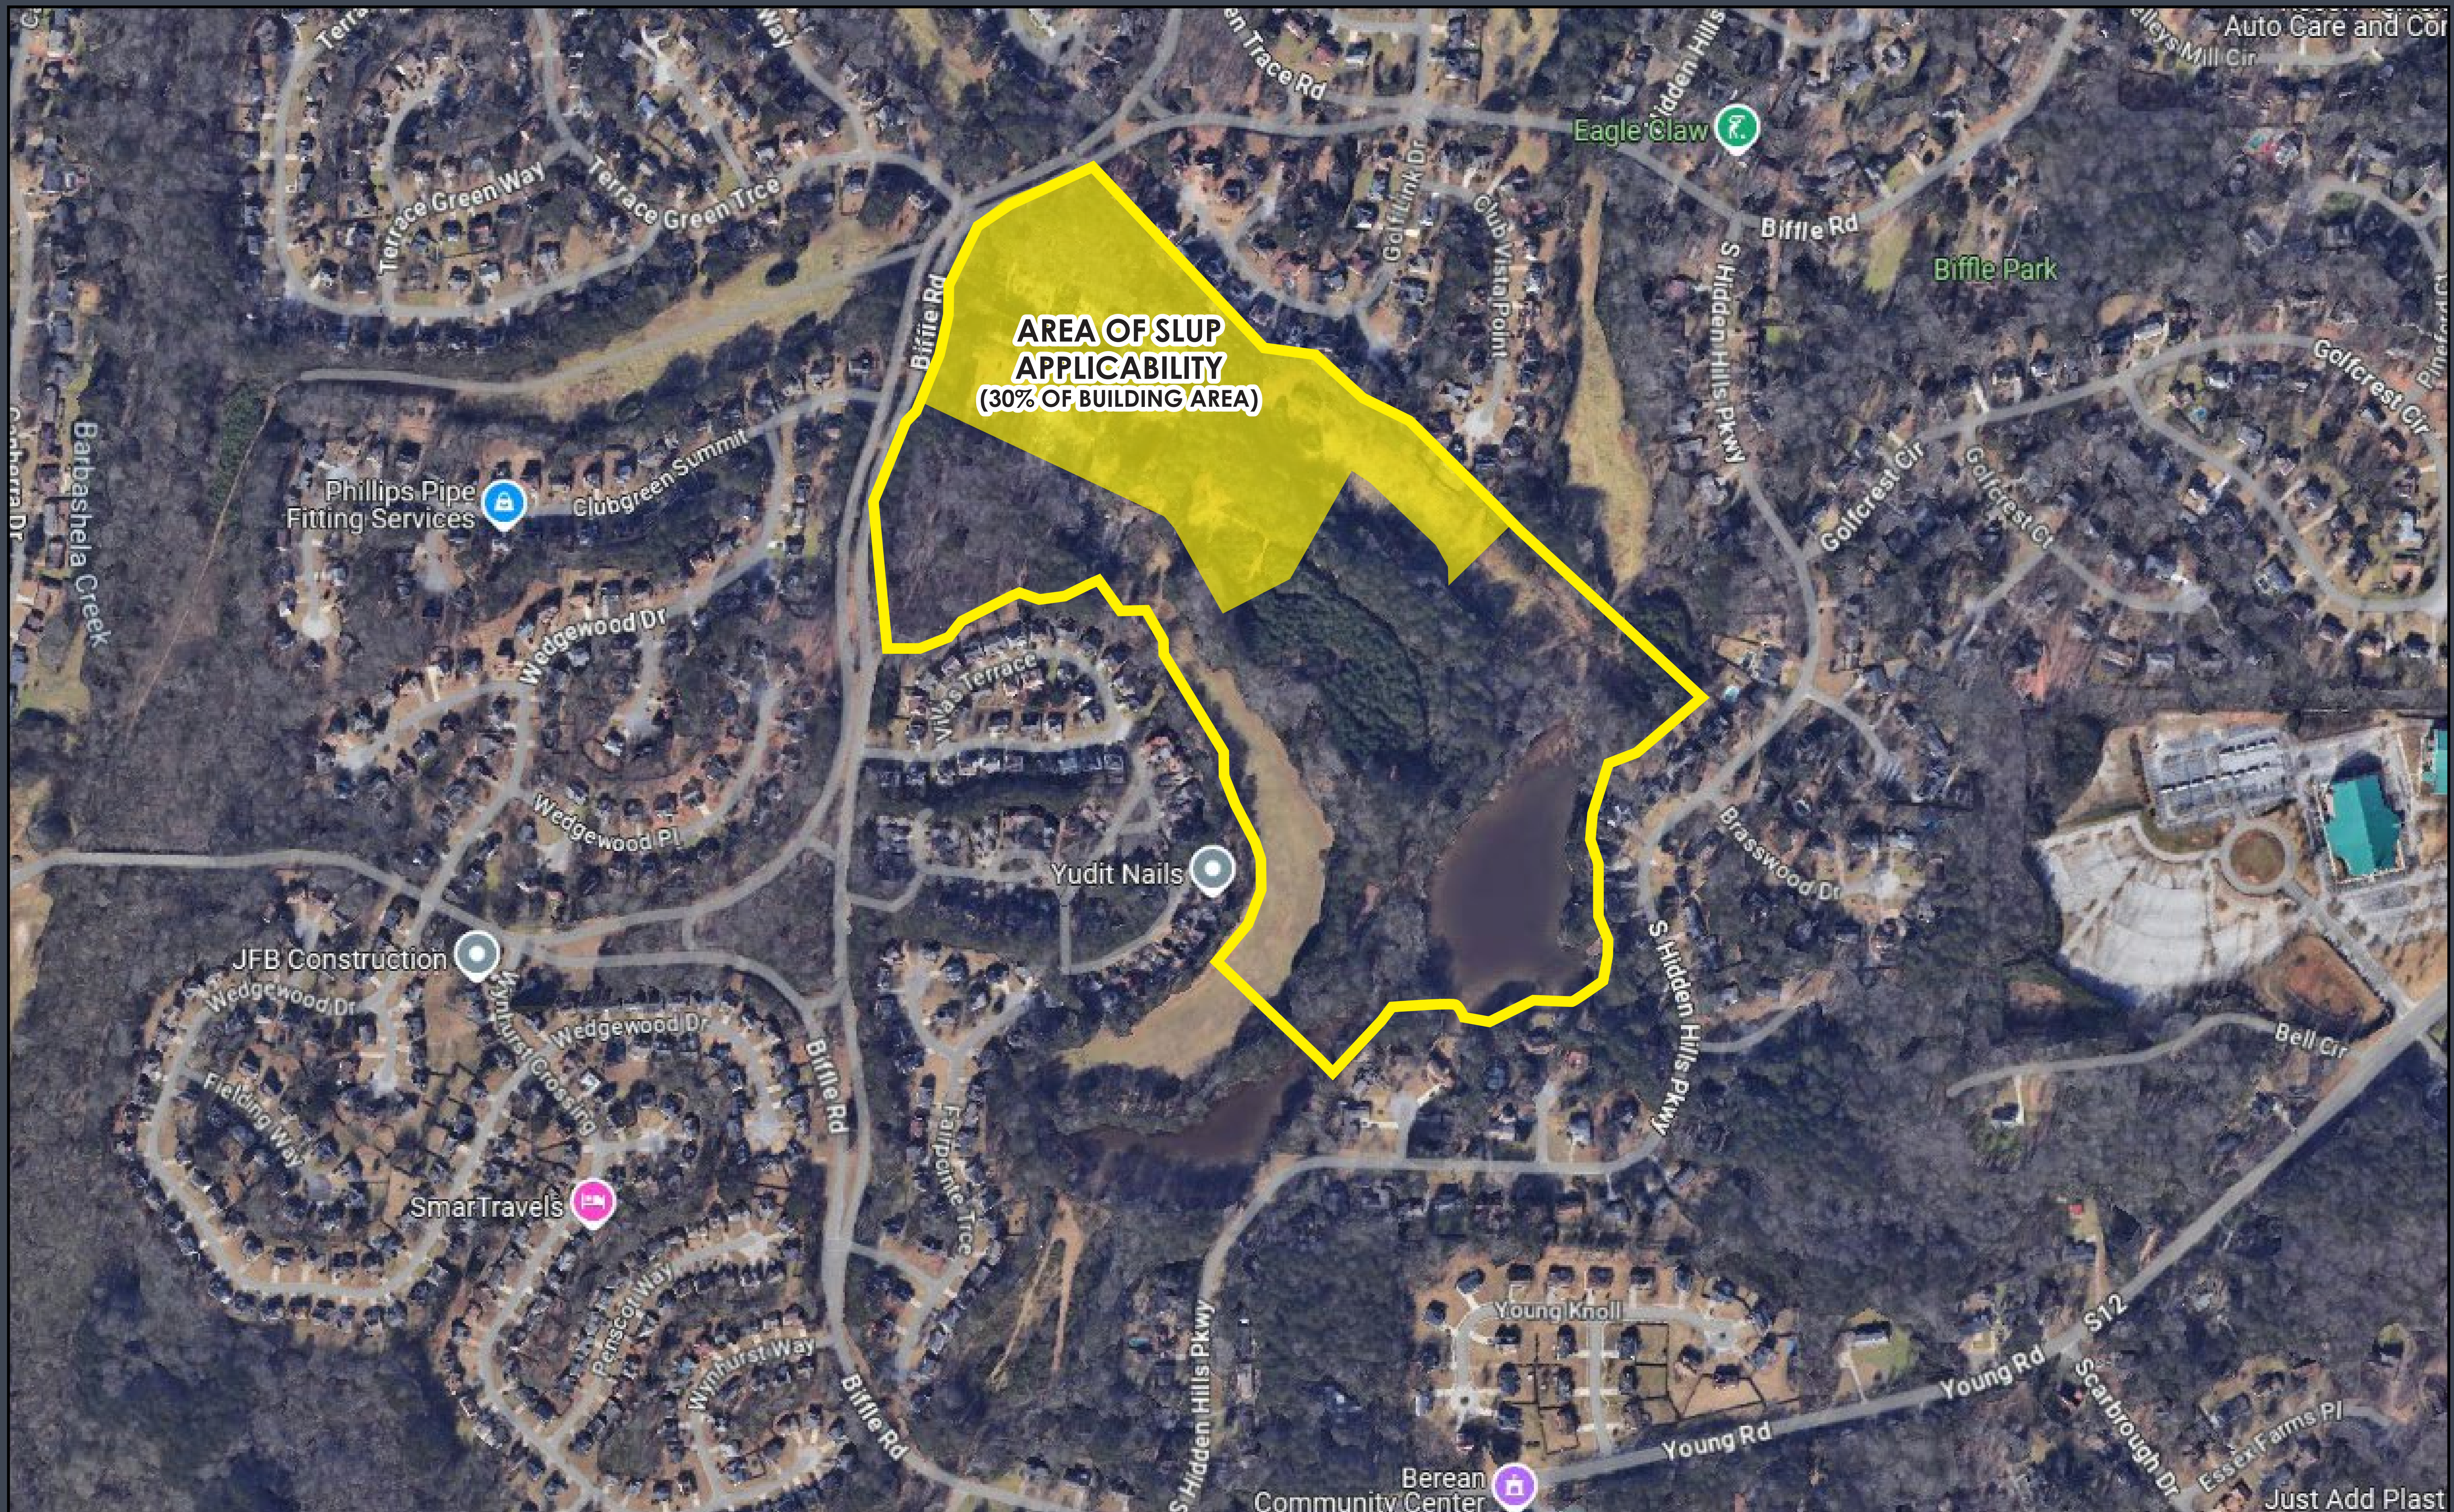

**N4-2025-0627      Z-25-1247528      3803 & 3815 Glenwood Road, Decatur, GA 30032**

MARTA supports this rezoning due to proximity to transit access on Glenwood Rd. The constructed development should include direct pedestrian access to Glenwood Rd to ensure residents can take advantage of transit services and should coordinate with MARTA during design.

**N5-2025-0628      Z-25-1247529      3265 NE Expressway, Chamblee, GA 30341**

MARTA supports this rezoning as this project is located adjacent to MARTA service. However, it is critical that the developer accommodate direct pedestrian access to Northeast Expressway frontage so that residents can access transit service. Developer should coordinate with MARTA to place amenity pad.

---

Hi there,

You are receiving this email because we wanted to let you know that we are holding a neighborhood meeting to discuss a Special Land Use Permit to allow senior residential housing as part of the Hidden Hills master planned redevelopment. The meeting is scheduled for Monday, April 14 at the Hairston Crossing Library (4911 Redan Road) at 6pm.

I have attached the sketch plat that you may already be familiar with. We sent paper letters to all neighbors within the required radius of the site yesterday.

Please give me a call with any questions or concerns.  
Thanks!

Re: **Letter of Intent – SPECIAL LAND USE PERMIT**  
**Terra Bella – Hidden Hills Golf Course Redevelopment**  
**(5083 Biffle Road) (+/- 54.355 acres)**  
PEC+ Project No. 20251.00a

Dear Community Development Officials,

This application proposes a Special Land Use Permit to allow Senior Residential Uses as part of the master plan for the above-referenced site that falls within the Hidden Hills Tier 5 Overlay. The Special Land Use Permit allows the senior residential uses to count toward the 30 percent commercial floor area that is required for mixed-use developments.

**Current Zoning:**

Currently, the site is zoned R-100 and is included in Tier 5 of the Hidden Hills Overlay that allows mixed-use developments. Under the overlay, the underlying zoning may remain R-100 and the site may be developed by-right with uses/performance standards that would otherwise not be permitted under this district.

**Reason for SLUP Request:**

Under the Tier 5 Overlay, 30 percent of the site's floor area must consist of commercial uses. The Special Land Use Permit allows Senior Residential Housing to count toward the thirty percent requirement. This use was chosen as the result of optimal site planning techniques, market conditions, and after numerous conversations with the surrounding community stakeholders outlining their use preferences.

**Existing and Proposed Uses; Details of Proposed Special Use:**

The property is currently developed as the Hidden Hills Golf Course, though the course has been closed for several years. There are no plans to open a new golf course at this location. The site is largely cleared and grassed with gentle topography and an existing lake at the southeastern end.

The proposed use of the property is a master-planned residential development consisting of 131 Senior Residential Homes, 55 single-family attached townhomes, and 44 single-family detached lots. The latter two uses are permitted by-right under the Overlay. The SLUP would apply only to the proposed 131 age-restricted Senior Residences.

Because the requirement is for 30 percent of the total floor area to consist of commercial space (or Senior Residential Homes, as permitted by this SLUP), and the proposed Senior Residential Homes are single-story, the use requires a greater land area than the other types of homes.

**Conclusion**

The applicant and owner respectfully request that the Dekalb County Board of Commissioners, Planning Commission and Planning Staff approve and support the Applicant's SLUP request to allow for the incorporation of Senior Residential Housing as part of the Hidden Hills Golf Course redevelopment master plan. The developer and their representatives welcome the opportunity to meet with all interested parties and representatives.

Sincerely,

Re: **Impact Analysis – SPECIAL LAND USE PERMIT**  
**Terra Bella – Hidden Hills Golf Course Redevelopment**  
**(5083 Biffle Road) (+/- 54.355 acres)**  
PEC+ Project No. 20251.00a

Dear Community Development Officials,

Please see below the answers to the IMPACT ANALYSIS criteria required for Special Land Use Permit decisions.

**A. Is the size of the site adequate for the use contemplated and is adequate land area is available for the proposed use, including provision of all required yards, open space, off-street parking, transitional buffer zones, and all other applicable requirements of the zoning district in which the use is proposed to be located?**

Yes, the land area of the site is adequate for the proposed use, including all required yards, open space, off-street parking, transitional buffer zones, and all other applicable requirements of the zoning district. See attached sketch plat depicting the proposed use for compliance.

**B. Compatibility of the proposed use with adjacent properties and land uses and with other properties and land uses in the district, and whether the proposed use will create adverse impacts upon any adjoining land use by reason of traffic volume/congestion, noise, smoke, odor, dust, or vibration generated by the proposed use.**

The proposed use is compatible with adjacent properties and land uses in the vicinity of the site as well as the zoning district. The proposed use—townhomes—is permitted by-right in the underlying zoning + overlay district. The special use only restricts the uses to senior persons, which does not affect the bulk or generate any of the externalities of concern that would otherwise be permitted by-right in the area and district.

**C. Are public services, public (or private) facilities, and utilities adequate to serve the proposed use?**

Public services, facilities, and utilities are adequate to serve the proposed use. This project has been in review for several years and would not move forward without necessary improvements in place.

**D. Is the public street on which the use is proposed to be located adequate and is there sufficient traffic-carrying capacity for the use proposed so as not to unduly increase traffic and create congestion in the area?**

The public street on which the proposed use is to be located is adequate to support traffic generated by the proposed use. The proposed use will not cause an undue burden on the traffic conditions in the area.

**E. Is the ingress and egress adequate to the subject property and to all proposed buildings, structures, and uses thereon, with particular reference to pedestrian and automotive safety and convenience, traffic flow and control, and access in the event of fire or other emergency?**

The ingress and egress of the subject property is adequate to serve all proposed buildings, structures, and uses. Because the uses are dedicated to senior residents, special consideration has been given to the safety and circulation of pedestrians on-site.

**F. Will the proposed use create adverse impacts upon any adjoining land use by reason of the manner and hours of operation of the proposed use?**

The proposed use will not create adverse impacts upon any adjoining land uses. The hours and manner of the use are the same as other uses within the development.

**G. Is the proposed use otherwise consistent with the requirements of the zoning district classification in which the use is proposed to be located?**

The use is consistent with the requirements of the zoning district classification; the structure would be permitted by right under current zoning and overlay configurations; the senior residential component (that does not

adversely affect the size, bulk, or intensity of the use) triggers the requirement for the special land use permit. The dwelling units have been designed to comply with underlying zoning.

**H. Is the proposed use consistent with, advances, conflicts, or detracts from the policies of the comprehensive plan?**

The proposed use is consistent with the policies of the comprehensive plan. As mentioned, the structures at the subject of this SLUP are permitted by-right, as is the rest of the development.

**I. Is there adequate provision of refuse and service areas?**

Because the project is part of a larger master plan, there are adequate refuse and services areas for the development.

**J. Should the length of time for which the SLUP is granted be limited in duration?**

The length of time for which the SLUP is granted should not be limited in duration as it would be disruptive to the residents inhabiting the homes. The SLUP should be granted in perpetuity and should run with the site like zoning conditions.

**K. Is the size, scale and massing of proposed buildings appropriate in relation to the size of the subject property and in relation to the size, scale and massing of adjacent and nearby lots and buildings; and will the proposed use create any shadow impact on any adjoining lot or building as a result of the proposed building height?**

The size, scale, and massing of the proposed buildings are in harmony with the surrounding land uses.

**L. Will the proposed use adversely affect historic buildings, sites, districts, or archaeological resources?**

There are no archaeological or historic resources on-site.

**M. Does the proposed use satisfy the requirements contained within the supplemental regulations for such special land use permit?**

The proposed use satisfies the requirements contained within the supplemental regulations for such special land use permit.

**N. Will the proposed use be consistent with the needs of the neighborhood or the community as a whole, as expressed and evidenced during the review process?**

The proposed use is consistent with the needs of the neighborhood and community as a whole. The project has been underway for numerous years and has been the subject of many community meetings. Neighbors are well aware of the project and are generally in support since there has been a years-long effort to engage them on plans for the site. The proposed plan at the subject of this SLUP is the result of said meetings and negotiations.

**Conclusion**

The applicant and owner respectfully request that the Dekalb County Board of Commissioners, Planning Commission and Planning Staff approve and support the Applicant's SLUP request to allow for the incorporation of Senior Residential Housing as part of the Hidden Hills Golf Course redevelopment master plan. The developer and their representatives welcome the opportunity to meet with all interested parties and representatives.

Sincerely,

*Hayley Todd*
