**Date Public Notice closed: June 28, 2019**

**Review of Offers**

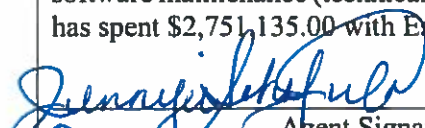

**Were any offers received (Yes/No): No**

**Number of offers received: 0**

**Responders: N/A**

**Purchasing Agent review and recommendation:**

DeKalb County has been utilizing this technology since 2011. As part of our mission-critical GIS Enterprise efforts, GIS provides core services used across DeKalb County through the suite of Environmental Systems Research Institute (ESRI) products which many other business systems within the County are dependent, including Tax Assessors/Commissioner (Tyler), Permitting (Hansesn), Watershed (CityWorks), among others. ESRI allows for collaboration and communication throughout the County. Therefore, unless DeKalb County changes its technology, which could be done at a significant impact in time, cost and man hours, the Enterprise License Agreement is the most cost efficient and time saving method to continue using this technology. This Enterprise License Agreement is for a period of three (3) years. ESRI is the owner and manufacturer of the Enterprise GIS technology that is an integral component of DeKalb County's daily services and is the sole-source provider of software maintenance (technical support plus ESRI Software updates/upgrades. To date, DeKalb County has spent \$2,751,135.00 with Esri.
