Comments

Business Requirements:

1. FASTER will create a custom Fuel Report for DeKalb County, based on the standard FASTER Web W400 report.
2. The report will include fuel transaction information based on the parameter options selected.
3. The report will be optimized for CSV export with no header row.
4. DeKalb County will be responsible for adding/maintaining the appropriate enQuesta Account Numbers for each Organization to be used in the report:
 - a. Accounting > Create New Account
 - xi. Account Number = enQuesta Account Number, prefixed by the Organization, an "F" (for Fuel) and a dash. For example, for the fuel account number for Organization 007, the Account Number should be set to "007F-2002622200".
 - xii. Account Name = Static value "Fuel"
 - xiii. Organization = Organization
 - xiv. Account Type = "Accounts Receivable"
 - xv. Account Status = Active
 - xvi. Comment = Static value "enQuesta"
 - xvii. Fiscal Year = 2022
 - xviii. Budget Status = Closed
 - xix. Budgeted Amount = 0.00
 - xx. Encumbrances = 0.00

Parameters:

1. Report will have all the same parameters as the standard FASTER Web W400 report.
2. Time Zone parameter will be defaulted to user's current time zone.
3. Date Type parameter will be defaulted to "Transaction Date".
4. Grouping parameter will be defaulted to "Organization".
5. Page breaks parameter will be defaulted to "No".
6. Organization will have no defaults selected - i.e., turn off "Select All"

Report Header:

1. Report will not have a report header, as report will be optimized for csv export.

Page Header:

1. Report will not have a page header, as report will be optimized for csv export.

Grouping:

1. Report will be grouped according to Grouping parameter option selected by user.

Group Header:

1. Report will not have a group header, as report will be optimized for csv export.

Columns/Fields:

Report will include the following columns of data:

1. enQuesta Account Number
 - a. Up to 10 digits.
 - b. This column will display the Account Number, starting at position 6, from FASTER where:
 - i. Account Name = Static value "Fuel".
 - ii. Organization = Organization for transaction
 - iii. Account Type = "Accounts Receivable"
 - iv. Account Status = Active
 - v. Comment = Static value "enQuesta"
 - vi. Fiscal Year = 2022
 - vii. Budget Status = Closed
2. Total Amount Due
 - a. Up to 9 digits before decimal and two digits after decimal.

- b. This column will display the fuel costs for the asset.
 - 3. ACD Code
 - a. Static value "611".
 - 4. Date (YYYYMMDD)
 - a. This column will display the transaction Transaction Date.
 - 5. Quantity
 - a. Up to 8 digits before decimal and two digits after decimal.
 - b. This column will display the fuel quantity.
 - 6. Price
 - a. Up to 9 digits before decimal and two digits after decimal.
 - b. This column will display "Calculated Unit Cost" as it appears in the W400 report.
 - 7. Memo Field
 - a. Up to 25 digits.
 - b. "EQ#" + Asset Number + ";" + SPACE + Fuel Description
- Group Footer:
- 1. Report will not have a group footer, as report will be optimized for csv export.
- Page Footer:
- 1. Report will not have a page footer, as report will be optimized for csv export.
- Report Footer:
- 1. Report will not have a report footer, as report will be optimized for csv export.
- Page Setup & Formatting:
- 1. Setup and formatting will be optimized for csv export.
- Document Map:
- 1. Document map will be based on Grouping parameter option selected by user.

Custom Scripts, Reports and Integrations are scheduled in advance and carefully coordinated with our development and programming team. This process ensures the highest quality result for our customers, and a reliable delivery timeline. In most cases additional consulting services such as requirements analysis, requirements writing, gap analysis, or discussion meetings are not required to meet customer objectives, so these costs are not unnecessarily included in the costs of these custom actions. If needed, these services are available as requested and can be added to our proposal.

Our team will provide a targeted timeline for completion upon acceptance of this quote and receipt of a purchase order for the proposed services.

Custom built integrations will be developed based on written requirements approved by the customer in advance. To ensure the highest quality and customer satisfaction, no work will begin until FASTER has confirmed requirements with our customer.

PAYMENT TERMS: 50% at Start of Project/50% at Delivery
