AGENDA ITEM:

Commission District(s): All

RFP - Request for Proposals No. 20-500550 Construction Management Services (Multiyear Contract): for use by the Department of Watershed Management (DWM). Consists of providing on-call construction management services that include pre-construction services, construction inspection, field services, management of meetings, production of progress reports and other related services for water and sewer projects. Recommend award to the three (3) highest scoring proposers: CGA Solutions [Joint Venture of Corporate Environmental Risk Management, LLC (CERM)/Gresham Smith/Atkins North America, Inc.], Tetra Tech, Inc., and EDT-Wade Trim-Reeves JV [Joint Venture of Engineering Design Technologies, Inc. (EDT)/Wade Trim, Inc./RK Reeves and Associates, Inc.]. Total Amount Not to Exceed \$24,743,700.00.

Information Contact: Cathryn G. Horner, Director

Phone Number: (404) 371 - 6334

PURPOSE:

Consists of providing on-call construction management services. This will include, but is not limited to, the following activities: pre-construction services, construction inspection, field services, management of meetings, production of progress reports and other related services for water and sewer projects within the County's Capital Improvement Plan (CIP). These contracts will assist DWM with meeting the demands of the County by providing construction management services for various CIP construction projects. Nine (9) proposals were received.

RECOMMENDATION:

Recommend award to the three (3) highest scoring proposers:

CGA Solutions [Joint Venture of Corporate Environmental Risk Management, LLC (CERM)/Gresham Smith/Atkins North America, Inc.], 1990 Lakeside Parkway Suite 300, Tucker, Georgia 30084

Note: Prime LSBE-DeKalb

LSBE Participation: 20%

Estimated Amount Not to Exceed: \$8,953,950.00

Tetra Tech, Inc., 1899 Powers Ferry Road, Suite 400, Atlanta, Georgia 30339

Note: LSBE Participation: 53%

Estimated Amount Not to Exceed: \$8,606,250.00

CIP Line Item No. (if applicable): Various

Justification if recommendation of award is to a firm other than the highest scoring proposer:

The Department of Watershed Management (DWM) is recommending to award contracts to the three highest scored proposers to perform the specified scope of work within the contract term of 4 years.

The labor classifications and hours provided in the RFP represents the needs for the department in order to provide inspections and construction management services for the delivery of the new Capital Improvement Program and Consent Decree work.

Based on selecting three vendors, the proposed contract amounts for all vendors are shown below:

1. TetraTech, Inc. - Total recommended contract value of \$8,953,950 is based on a total bid price of \$26,861,850 divided by 3 which adjusts the estimated hours to 1/3rd of the amount shown in the RFP.
2. CGA Solutions, CERM/Gresham Smith/Atkins North America (Joint Venture) - Total recommended contract value of \$8,606,250 is based on a total bid price of \$25,818,750 divided by 3 which adjusts the estimated hours to 1/3rd of the amount shown in the RFP.
3. EDT/Wade Trim/Reeves JV, Engineering Design Technologies (Joint Venture) - Total recommended contract value of \$7,183,500 is based on a total bid price of \$21,550,500 divided by 3 which adjusts the estimated hours to 1/3rd of the amount shown in the RFP.

DWM recommendation herein is based on the administrative reviews including verifying references, cost evaluation, providing history of similar projects, and overall qualifications of the companies.

EVALUATION SUMMARY

Opening: 2-24-21 @ 3:00 PM
Agent: Willie Moon, Procurement Agent, Senior

Criteria	Vendors								
	Arcadis	Black & Veatch	CGA	EDT-Wade-Trim	Hellier	NAPM	Tetra Tech	VolKert	Wood
Firm Experience and Qualifications	<ul style="list-style-type: none"> The prime contractor seems to have experience with water infrastructure work - primarily plant work. Experience staff (plenty of staff available) Extensive experience with DeKalb projects. Downside is that experience is heavier on plant side rather than linear projects. Arcadis submitted information indicates that they have a lot of experience. 	<ul style="list-style-type: none"> The prime contractor seems to have experience with water infrastructure work - no linear, CIPP, etc. Good Staff and approach to project Current on-call engineering firm for Watershed. The highlighted projects are ok but in some cases don't match our needs. Didn't see any references to Tank painting. 	<ul style="list-style-type: none"> The firm shows experience in all required areas of interest outlined in the RFP. Good experience on similar projects Gresham Smith has DeKalb, Gwinnett and Fulton construction management experience. Good sample of projects that are similar to DWM's expected work. Bidder submitted information indicates that they have a lot of experience 	<ul style="list-style-type: none"> Matrix shows the firm has experience in all of the areas. Good description of Job duties Reeves has past or present construction management role with DeKalb Watershed. Matrix is strong and shows extensive CM and inspections. The joint venture seems to be a partnership of contractors that has meet the criteria that the County is asking for 	<ul style="list-style-type: none"> Didn't see any experience with inspections of CIPP work. Plenty of experience in all aspects of the contract Not clear what if any water and sewer related experience Hellier actually has. Firm experience is not strong. They did not list some of the requested information such as project milestones 	<ul style="list-style-type: none"> The firm NAPM has limited experience with construction management but is a contractor and should have experience in effectively managing a contract. Good Staff Not Over Educated Not clear how much experience NAPM has with construction management on water and sewer projects Firm experience is relatively strong. Good Team. 	<ul style="list-style-type: none"> Matrix shows the firm has experience in all areas including Tank painting Good experience in the type of work in this RFP Current CM services contract with DWM. The highlighted five projects are representative of expected work Tetra Tech has a strong team that seems to meet the criteria of the RFP 	<ul style="list-style-type: none"> The firm has very solid experience and expertise. Didn't see any CIPP similar projects for inspectors or construction managers Good Company all around VolKert and subs all have relevant experience either locally or elsewhere. Some construction administration but doesn't demonstrate extensive or convincing Construction Management experience in water and wastewater. VolKert have experience provided design and construction admin services on th Rockbridge Road project 	<ul style="list-style-type: none"> Experience matrix covered all areas throughout team members. Expertise mostly in pump stations but no point repair work provided. Wood has worked on many similar projects in DeKalb and on similar projects in nearby counties and cities. The highlighted five projects are representative of expected work. Wood has experience in a multitude of water and sewer projects for inspections and CCTV Assessments, CIPP, point repairs, pipe bursting
Construction Technical Management Approach	<ul style="list-style-type: none"> Clearly defined roles. Love the fact the CM has a contractor background. Good Approach to managing project Only one construction manager listed. Not clear what the difference is between project manager and construction manager. Approach is good and well thought out; although fairly standard and not innovative in any way. They plan to created shared understanding of the goals of the project with all stakeholders 	<ul style="list-style-type: none"> Not sure if they understand the depth of resources requirement nor the primary needs of Watershed. Good resources. Do not talk about communication with DeKalb doing projects Little discussion of communications strategy. Construction management approach is thorough and complete. Didn't mentioned services provided during pre-bid conferences, questions. 	<ul style="list-style-type: none"> Plan was pretty solid on planning, executing, monitoring and controlling and project closeout. Good approach on managing and keeping DWM informed Notes the need to adjust resources to meet current needs in program. CM approach is sound, understands the requirements of the project. Good Approach 	<ul style="list-style-type: none"> Completed but I'm not sure if the firm understands the depth of resources of what is required. Good Management approach for coordination and communications Very dependent on two people. Organization below them is unclear although staff are listed by specific functional area. Expertise mostly in pump stations but no point repair work provided. Good Team solid response 	<ul style="list-style-type: none"> Delineation of roles assigned to team members was completed but not much effort put into the RFP. Straight forward approach, though almost vague Brief and fairly generic. Good communication matrix Doesn't convey a wealth of experience in Construction management or inspection Needed more detail on experience 	<ul style="list-style-type: none"> Built a team with a lot of construction background which is a huge plus. Good Management approach Proposing that Lee Orr and Robert McPherson be co-leaders and central points of contact. Approach is only ok. Doesn't identify any resources, only says they have them. Good management approach 	<ul style="list-style-type: none"> Very good approach and coordination plan provided. Good approach to project management Well organized description of project approach showing the proposed roles of each sub Construction Management approach is very good. Addresses each of the requirements. Good Team. The learning curve should be shortsince some of the contractors is already working with the County 	<ul style="list-style-type: none"> Approach was well defined by utilizing local resources and expertise. Good staff and experience especially in field personnel Detailed but fairly generic description of approach. Construction Management approach is good. Good Team solid response. 	<ul style="list-style-type: none"> The construction management approach was ok - pretty standard. Good management approach but did not say exactly meeting schedule Concise description of their construction management approach. Construction Management approach is very good. I like thier approach and Org chart.
Experience and Qualifications of Staff	<ul style="list-style-type: none"> Cannot tell which team members outside of Graham who have the required certifications. Lots of staff. Engineer not registered All major participants have extensive relevant experience. 5 of the 9 inspector's experience is primarily with material testing, not water or wastewater work. None of the nine have any CIPP experience Submitted information indicates that they have the required experience and has assembled a successful team 	<ul style="list-style-type: none"> Full resumes provided. Overall staff was pretty weak. Lack of stating certifications Contract manager and two of four construction managers show no experience on any of the reference projects listed in the staff experience matrix. The proposed staff's experience in similar work performing CM and inspection is very weak. Didn't see MACP, PACP certifications for inspectors. 	<ul style="list-style-type: none"> The team is staffed with experienced leaders currently working with DeKalb DWM Good experience with technical staff Project manager - has 27 years experience. Oversees current DeKalb construction management The Sewer CM has no water or sewer experience showing; appears to be strictly DOT experience. Proposer has good experience and management plan. Inspectors have PACP and MACP certifications. 	<ul style="list-style-type: none"> Construction managers had little relevant experience. No water or sewer pipeline work (per the staff matrix). Good staff plenty of education Dorsey El Amin is construction manager and has DeKalb experience. Good to see focus on the change management plan. Over average proposal submitted.No mention of tans 	<ul style="list-style-type: none"> Good qualified inspectors and managers, but not much experience, not alot of higher education Project Manager Fran Limieux doesn't have watershed related experience PM has no water or ww experience No wastewater experience 	<ul style="list-style-type: none"> The team has a extensive background in construction Resumes short but to the point, plent of experienced personnel No specific past projects listed for Lee Orr, program manager. CM (Steele) shows CM and inspection for Dekalb but doesnt show specific project types, footages, water sewer etc. Over all good team cover all of ther requirements in the solicitation 	<ul style="list-style-type: none"> Good qualified staff both at management level and field level Good chart showing certifications of key staff. Inspector resumes are strong in all aspects of water and ww inspection Expertise mostly in pump stations but no point repair work provided. Overall good team 	<ul style="list-style-type: none"> Good experience with DWM projects Many proposed staff with relevant experience. Construction Management approach is good. As a whole, the staff is not strong in water and ww construction inspection. Over proposals didn't seem to as experience in construction than they did in roads. 	<ul style="list-style-type: none"> Good experienced staff not over educated Expertise mostly in pump stations but no point repair work provided. Project manager and most key staff have relevant DeKalb DWM. Staff experience is relatively strong. Construction managers are not strong. Although the proposal mentions that thier multiple certifications focused on NPDES, I only saw one inspector that had NASCO, PACP, MACP certifications.
Financial Responsibility	<ul style="list-style-type: none"> Very strong balance sheets. 	<ul style="list-style-type: none"> Very strong balance sheets. Did not submit cash flow statements. 	<ul style="list-style-type: none"> Corporate Environmental Risk Mgmt., LLC; Gresham Smith & Atkins North America submitted a proposal as a joint venture. Corporate Environmental, although "small", looks okay. Positive they were organized in 1995. Gresham's balance sheet looks okay. They did not submit income or cash flow statements. Atkins North America has strong financials. 	<ul style="list-style-type: none"> Good set of financials. 	<ul style="list-style-type: none"> Did not submit Financials 	<ul style="list-style-type: none"> Financials are okay 	<ul style="list-style-type: none"> Very Strong Financials 	<ul style="list-style-type: none"> Strong financials. 	<ul style="list-style-type: none"> Very strong financials
DeKalb First Ordinance Participation	<ul style="list-style-type: none"> Contractor had a mix of LSBE Points LSBE DeKalb LSBE MSA Total LSBE Points: 7.5 	<ul style="list-style-type: none"> Contractor had a mix of LSBE Points LSBE DeKalb LSBE MSA Total LSBE Points: 7.5 	<ul style="list-style-type: none"> Identified 20% LSBE earning the maximum score of 10 	<ul style="list-style-type: none"> Identified 20% LSBE earning the maximum score of 10 	<ul style="list-style-type: none"> Identified 20% LSBE earning the maximum score of 10 	<ul style="list-style-type: none"> Identified 20% LSBE earning the maximum score of 10 	<ul style="list-style-type: none"> Identified 20% LSBE earning the maximum score of 10 	<ul style="list-style-type: none"> Contractor had a mix of LSBE Points LSBE DeKalb LSBE MSA Total LSBE Points: 10 	<ul style="list-style-type: none"> Contractor had a mix of LSBE Points LSBE DeKalb LSBE MSA Total LSBE Points: 10
