

**User Department's Recommendation**

**Recommended Bidder:** Delta Municipal meets our approval.

**Amount Spent Last Year:** \$526,954.61

**Name of Fund:** Operational

**Project Amount This Term:** \$288,081.85

**Justification:**

The Department of Watershed Management has multiple efforts that require the use, rehabilitation and or change out of Manhole Rings and covers. Due to a short term capacity project in the wastewater system we saw an unexpected uptick in the overall spend during the previous term of this contract. We currently have no indication of such projects requiring the use of the Manhole Ring and Cover Contract outside of normal Operational concerns in 2018 term.
