Subject: Re: meeting today

Good Morning Robin,

Please find attached the Resume that you and Commissioner Bradshaw requested.

My statement of purpose is short and somewhat to the point:

I seek to create a model that will unite the communities bordering the Scottdale community in a way that we seek common solutions to problems that are common to all of our communities.

I am taking classes on community building so that I learn to write grants to assist our schools and families with after school programs and job training for adults.

I want to also act as a communication conduit to help reach and inform community members by passing on correspondence of events and activities that are sent to me by our county government.

As a member of the Community Council, I work to serve the citizens of the 4th district by voting for land rezoning and the creation and development of businesses, as well as voting against projects that are not in the best interest of the community and that do not meet the requirement of the laws of Dekalb County.

Good morning,

I hope this reaches you in time. Would you be able to bring a copy of your resume and statement of purpose with you to the meeting at 10:30 with Commissioner Bradshaw?

Thanks,
