

**American Rescue Plan (ARP) funding for
Students with Free and Reduced Lunch, (ED) Students**

Who: ED (economically disadvantaged) Students

What: Remediation through Summer Camp

When: Summer of 2026

Cost: \$10,000 for Summer of 2026

ED Students: This remediation program during summer camp offered at The GLOBE Academy will be offered for free to students who qualify for Free and Reduced Lunch. We will offer this to all of our ED students. If more than the allotted amount of students apply, we will run a lottery for the seats each summer.

Remediation: During Summer Camp, students will have the opportunity for remediation in reading, math, and language through our Dual Language Immersion (DLI) program. They will start in the morning with breakfast, then move into targeted instruction, have lunch, then end the day with review and camp activities. At the end of the camp period, students will fill gaps in math, reading, and language knowledge and prevent the summer slide for these students.

Summer Camp Dates: Summer Camp is the last three full weeks of June. We will offer this to students for the **summer of 2026**. Students will have the opportunity to attend for one week, two weeks, or all three weeks of summer camp for remediation.

Cost: Each week of summer camp is **333.00** per student to attend summer camp for remediation.

\$333.00 per student, per week Total: \$9,990 for summer 2026

No administration fee is associated with this project
