Aerotech

Aerotech

The **Aerotech** is a mid-sized bus that accommodates up to 25 passengers. The Aerotech is an ideal choice for transit and paratransit service routes, as well as a shuttle for airports, hotels, assisted living facilities, and touring companies. The Aerotech features an exclusive steel reinforced composite construction that has superior impact resistance and is free of rust and corrosion. This bus includes advanced road stability, and spacious seating. Engineered for safety and designed for easy maintenance with rust-proof bodies and frames as well as advanced corrosion protection.
