RE: Tyler Hosting Services for iasWorld
DATE: October 16, 2019

The Innovation and Technology Department (IT) desires to migrate iasWorld from on premise to a cloud hosting - Saas (Subscription as a Service).

In order to continue to ensure hardware support services for the County's iasWorld applications, the Innovation and Technology Department is requesting Purchasing & Contracting assistance and guidance in preparing the necessary documents to approve the iasWorld hosting services totaling \$2,995,980.00. This will be funded by CIP: Project # 105129.

Innovation and Technology is requesting that this renewal be placed on the Purchasing and Contracting BOC Agenda at the earliest date possible to ensure BOC approval.

Thank you for your consideration in this matter. If additional information is required, please contact Angela Green at (404) 371-2374.
