**Justification:**

It is recommended that Rush Truck Centers be approved as the vendor for this flatbed truck with liftgate, as to they have been awarded the bid through State of Georgia Contract # 9999-001-SPD0000155-0001. Since it's already gone through the bidding process, buying off the State of Georgia Contract Award is more economical.

The Traffic Engineering Signals Department needs this truck to transport materials and equipment to and from job sites. The equipment includes (traffic signal cabinets, traffic heads, rolls of traffic signal wire, pedestrian poles, and pole bases). This equipment is very heavy, and the lift gate is required for the vehicle.
