Public Notice of Proposed Award of Sole Source Procurement

Section A – Description of Proposed Sole Source Procurement

Description of Supplies/Services: Maintenance and Support of the County's AV Equipment

Demonstration of Contractor's Unique Qualifications:

BIS Digital maintenance is required to support the audio visual (AV) equipment installed and configured by BIS Digital. Due to the custom AV installation within the State, Magistrate, Juvenile, and Probate courtrooms and tight integration of the newly installed AV room at the Maloof building, it would be difficult for another provider to fully support the environment. Business Information Systems Inc. (BIS Digital) has engineered, installed, configured, and supported all DeKalb County Government courtrooms, conference rooms in the Sam's Street building, and most recently, the AV and room control environment for the newly remodeled Maloof Auditorium.

Purchasing Tech review and recommendation: Recommend award of the Sole/ Single source with: BUSINESS INFORMATION SYSTEMS, INC., 1350 NE 56th Street Suite 300 Fort Lauderdale, FL 33334

Amount Not To Exceed: $266,581.23

Due to the custom installation and tight integration of the newly installed AV room management system, it would be difficult for another provider to fully support the environment with all the current complex customizations. BIS Digital engineered, installed, configured, and supports all DeKalb County Government (DCG) Courtrooms, DCG Conference Rooms located at Sam's Street, and the newly remodeled Maloof Auditorium which will include an upgraded AV system and control room. Failure to approve will result in extended downtime, lost productivity, and loss of room functionality resulting from inoperable equipment. Downtime may extend from hours, days, or even weeks while we search for replacements and attempt to re-configure and replace equipment.

Given these factors, maintaining the current platform is not only more cost-efficient but also essential to preserving the integrity of the courtrooms' AV framework. I recommend this be awarded as a Single Source.

1.1. Summary

Procurement Details:

Estimated Value: TBD

Term (Years): 1

Vendor: Business Information Systems, Inc.

Justification: For the ongoing support and maintenance of the Business Information Systems Inc. DCR Digital Recording System audio and video equipment used in State, Magistrate, Juvenile, and Probate Court courtrooms, conference rooms, and the Maloof Auditorium. This platform is deeply integrated into the County's operational infrastructure, supporting regular support and maintenance, which are crucial to keep courtroom technology functioning properly, prevent disruptions, and ensure that court proceedings run smoothly and efficiently for judges, attorneys, and the public.

1.2. Background

BIS Digital engineered, installed, configured, and supports all DeKalb County Government courtrooms and conference rooms located at the DeKalb State Courthouse, the Sam's Street building, the newly remodeled Maloof Auditorium. Reconfiguring or replacing this equipment would result in extended downtime, productivity loss, and loss of room functionality resulting from inoperable equipment. Downtime may extend from hours, days, or even weeks while we search for replacements and attempt to re-configure and replace equipment.
