Justification:

The aforementioned contract is set to expire September 30, 2019 and requires a renewal for utilization by the Department of Watershed Management (DWM) for the period of October 1, 2019 – September 30, 2020 to continue providing the listed chemicals for water/wastewater treatment. It is mandatory that DWM maintain continuity of these contracts as the listed chemicals are necessary to allow the department to make clean water. The lack of these chemicals would cause the Department to violate federal water regulations.
