Illegal 2- Sided Sign Erected without Permits in Violation of County Sign Code. Apartments applied for monument sign in 2013 and stated there was no other signs on the property and were granted the right to erect the maximum allowable signage -- 2 monument signs totaling 30 square feet each.

The apartments sold land that was required by code for their density of 6 units per acre and now they are seeking a zoning modification to allow them the required density after selling the land they required to be in compliance. Please require them to remove this illegal 2-sided sign, which is 15 feet high by 10 feet wide for a total of 150 feet on each side or 300 total feet over the allowable maximum. They erected this in addition to the maximum allowable signage they are using in their two monument signs.
