

MEMORANDUM

July 15, 2021

To: DeKalb County Board of Commissioners

From: Robert Patrick, District 1
Board of Commissioners

Subject: **Mid-Year Budget Review Project Requests: Annual Traffic Count Program**

As part of the mid-year budget review, District 1 would like to request the Board of Commissioner and County Administration to consider the following projects for the FY2021-2022 midyear budget review.

- **Annual Traffic Count Program:** Traffic count data is an integral component of transportation and overall county planning efforts. This data can be used for a variety of purposes such as planning road closures, installation of new stop signs, speed limit adjustments, and business market analyses. The County receives many requests from various community stakeholders in need of traffic data in order to make community, safety, and business decisions. As such, it would be prudent for the County to adopt a comprehensive annual traffic count program that includes all County maintained streets and roads, similar to Gwinnett County's Annual Traffic Count Program
