Some Participating Entities may require the use of a Participating Addendum; the terms of which will be worked out directly between the Participating Entity and the Vendor. Vendor will require the use of Vendor's then-current Communication, Systems & Services Agreement ("CCSA") and Exhibits, Subscription Services Addendum ("SSA"), Maintenance and Support Addendum ("MSA"), and Telecommunication Carrier Addendums ("TCA"). Our customer service includes essential services that are delivered through a tailored combination of local field service personnel, centralized teams equipped with a sophisticated service delivery platform, product repair depots, and MyView Portal. These service entities will collaborate to swiftly analyze issues, accurately diagnose root causes, and promptly resolve issues to restore the Customer's network to normal operations. Centralized Managed Support Operations The cornerstone of Motorola Solutions' support process is the Centralized Managed Support Operations ("CMSO") organization, which includes the Service Desk and technical support teams. The CMSO is staffed 24x7x365 by experienced personnel, including service desk specialists, security analysts, and operations managers. The Service Desk provides a single point of contact for all service related items, including communications between the Customer, Motorola Solutions, and third-party subcontractors. The Service Desk processes service requests, service incidents, change requests, and dispatching, and communicates with stakeholders in accordance with pre-defined response times. All incoming transactions through the Service Desk are recorded, tracked, and updated through the Motorola Solutions Customer Relationship Management ("CRM") system. The Service Desk also documents Customer inquiries, requests, concerns, and related tickets. The CMSO coordinates with the field service organization that will serve the Customer locally. Customer Support Manager	

		A Motorola Solutions Customer Support Manager ("CSM") will be the Customer's key point of contact for defining and administering services. The CSM's initial responsibility is to create the Customer Support Plan ("CSP") in collaboration with the Customer. The CSP functions as an operating document that personalizes the services described in this document. The CSP contains Customer-specific information, such as site names, site access directions, key contact persons, any tailored case priority level definitions, case handling instructions, and escalation paths for special issues. The CSP also defines the division of responsibilities between the Customer and Motorola Solutions so response protocols are pre-defined and well understood when the need arises. The CSP governs how the services will be performed and will be automatically integrated into this Statement of Work by this reference. The CSM and Customer will review and amend the CSP on a mutually agreed cadence so the CSP remains current and effective in governing the Essential Services. Repair Depot The Motorola Solutions Repair Depot provides the Customer with a central repair location, eliminating the need to send network equipment to multiple vendor locations for repair. All products sent to the Depot are tracked throughout the repair process, from inbound shipment to return, through a case management system that enables Customer representatives to see repair status. MyView Portal Supplementing the CSM and the Service Desk as the Customer points of contact, MyView Portal is a web-based platform that provides network maintenance and operations information. The portal is accessed from a desktop, laptop, tablet, or smartphone web browser. The information available includes: • Remote Technical Support: Manage cases and view self-service reports. Observe incident details by incident priority level, and track the progress of issue resolution. • Network Hardware Repair: Track return material authorizations ("RMA") shipped to Motorola Solutions' repair depot and eliminate the need to call for status updates. In certain countries, customers will also have the ability to create new RMA requests online. • Security Update Service: View available security updates. Access available security update downloads. • Orders and Contract Information: View available information regarding orders, service contracts, and service coverage details. The data presented in MyView Portal is provided to support the services described in the following sections, which define the terms of any service delivery commitments associated with this data. Because these are all solutions that we develop, we are creating integrations and are not limited to interfacing different solution together. Interfacing typically limits the communication between two solutions because it uses the least common denominator of the information that can pass between to solutions from different vendors. The integrations that we have, and continue, to develop are allowing for greater efficiencies as our customers do their jobs. 74	Describe your use of installation or service partners, if applicable.	Motorola Solutions utilizes both certified internal employees as well as our certified service partner shops to do installs and maintenance. Deciding which we utilize on each opportunity is dependent on the customer, if they have a preference, and the type of project.
