Purchasing Agent review and recommendation:

Founded in 1902, Ditch Witch Worx offers a range of services, including selling, leasing and servicing leading named companies in today’s market with trenchless technology systems, trenchers, vibratory plows, and underground tools and accessories. Ditch Witch Worx serves as the authorized dealer for Ditch Witch underground construction equipment and acts as a distributor for various other brands, including the sole provider for the Hammerhead piercing tools in Georgia.

The Department of Watershed Management is currently using Hammerhead equipment and is requesting approval to purchase the Hammerhead piercing tools totaling \$200,000.00 to cover a one-year term for the equipment, parts and service. Watershed applications require that the equipment being purchased must be compatible with the equipment that is being used. If another brand is purchased, all currently used tools and accessories will need to be upgraded to make them compatible with the new brand. This will result in additional costs and delays in the necessary repairs. The requested equipment is currently available exclusively through Ditch Witch Worx, the sole distributor in Georgia, and they have agreed to accept DeKalb County’s Terms and Conditions for this purchase.

Ditch Witch Worx has been doing business with DeKalb County since 2005. Currently there is no active contract on file with Ditch Witch Worx, however Ditch Witch Worx has supplied DeKalb County with piercing tool equipment, training, and support since the initial purchase. The total amount spent within the last 12 months with Ditch Witch Worx is \$25,445.00.

My recommendation is to approve the sole source request to purchase the Hammerhead piercing

tools with Ditch Witch Worx to ensure compatibility with the County's current equipment and prevent additional costs and potential delays associated with upgrading all tools and equipment to a different brand.
