Maintenance Services will include black toner (excluding highlight color toner, clear toner and custom color toner), black developer, copy Cartridges, and, if applicable, fuser ("Consumable Supplies"). For full-color Equipment, Consumable Supplies shall also include, as applicable, color toner and developer. For Products identified as "Phaser", Consumable Supplies may also include, if applicable, black solid ink, color solid ink, imaging units, waste cartridges, transfer rolls, transfer belts, transfer units, belt cleaner, maintenance kits, print Cartridges, drum Cartridges, waste trays and cleaning kits. You agree that the Consumable Supplies are Xerox's property until used by you, that you will use them only with the Equipment, that you will return all Cartridges to Xerox for remanufacturing once they have been run to their cease-function point (at Xerox's expense when using Xerox-supplied shipping labels), and that at the end of the term of this Agreement you will either (1) return any unused Consumable Supplies to Xerox (at Xerox's expense when using Xerox-supplied shipping labels), or (2) destroy them in a manner permitted by applicable law. Should your use of Consumable Supplies exceed Xerox's published yields for these items by more than 10%, you agree that Xerox shall have the right to charge you for any such excess usage. When requested by Xerox, you agree to provide meter readings and inventory of Consumable Supplies in your possession.
- G) Equipment Replacement.** Xerox will, as your exclusive remedy for Xerox's failure to provide Maintenance Services, replace the Equipment with an identical model or, at Xerox's option, another model with comparable features and capabilities. There will be no additional charge for the replacement Equipment during the remainder of the initial Term.
- 7. Meter Readings.** You agree to provide meter readings in the manner and frequency identified by Xerox. If you do not provide Xerox with meter readings as required, Xerox may reasonably estimate them and bill you accordingly. If meter readings have been estimated, Xerox after receiving the actual meter readings for the equipment shall make an appropriate adjustment on the subsequent invoice.
- 8. Remote Services.** Certain models of Equipment are supported and serviced using data that is automatically collected by Xerox from the Equipment via electronic transmission from the Equipment to a secure off-site location. Examples of automatically transmitted data include product registration, meter read, supply level, Equipment configuration and settings, software version, and problem/fault code data. All such data shall be transmitted in a secure manner specified by Xerox. The automatic data transmission capability will not allow Xerox to read, view or download the content of any Customer documents residing on or passing through the Equipment or Customer's information management systems.

9. Warranty Disclaimer. Xerox disclaims, and you waive, the implied warranty of non-infringement.

10. Intellectual Property Indemnity. Xerox will defend, and pay any settlement agreed to by Xerox or any final judgment for, any claim that a Xerox-brand Product, including any Base Software or Diagnostic Software provided with or within the Xerox-brand Equipment, infringes a third party's U.S. intellectual property rights. You will promptly notify Xerox of any alleged infringement and permit Xerox to direct the defense. Xerox is not responsible for any non-Xerox litigation expenses or settlements unless it pre-approves them in writing. To avoid infringement, Xerox may modify or substitute an equivalent Xerox-brand Product, refund the price paid for the Xerox-brand Product (less the reasonable rental value for the period it was available to you), or obtain any necessary licenses. Xerox is not liable for any infringement based upon a Xerox-brand Product being modified to your specifications or being used or sold with products not provided by Xerox. For non-Xerox brand Products ordered under the Agreement, when you do not have a direct Intellectual Property Indemnity for the non-Xerox brand Product and Xerox does have an Intellectual Property Indemnity for such non-Xerox brand Products and is contractually permitted to do so, Xerox will pass its Intellectual Property Indemnity for such Product through to you.

11. Force Majeure. Xerox will not be liable to you during any period in which its performance is delayed or prevented, in whole or in part, by a circumstance beyond its reasonable control. Xerox will notify you if such a circumstance occurs.

12. Notices. Notices must be in writing and will be deemed given 5 days after mailing, or 2 days after sending by nationally recognized overnight courier. Notices will be sent to you at the "Bill to" address identified in this Agreement, and to Xerox at the inquiry address set forth on your most recent invoice, or to such other address as either party may designate by written notice.

SOFTWARE TERMS

1. SOFTWARE LICENSE

Xerox may provide Software to Customer pursuant to an Order hereunder. The following license applies to Software provided hereunder, unless such Software is accompanied by a click-wrap or shrink-wrap license agreement or otherwise provided subject to a separate license agreement.

- a. Xerox grants Customer a non-exclusive, non-transferable, non-assignable (by operation of law or otherwise) license to use in the U.S.: (i) Base Software only on or with the Equipment with which (or within which) it was delivered; and (ii) Application Software only on any single unit of Equipment, subject to Customer remaining current in the payment of any indicated applicable Software license fees (including any annual renewal fees). For Services Software, Xerox grants Customer a non-exclusive, non-transferable, non-assignable (by operation of law or otherwise) license in the U.S. to install the Services Software on a host computer(s) or server(s) or, if applicable, on Equipment or Third Party Hardware, and, further, if applicable, on the number of workstations, laptops and mobile devices specified in the Order, and to use the Services Software only for the purpose of receiving the applicable Services. Customer has no other rights to the Software. Customer will not and will not allow its employees, agents, contractors or vendors to: (i) distribute, copy, modify, create derivatives of, decompile, or reverse engineer Software except as permitted by applicable law; (ii) activate Software delivered with or within the Equipment in an un-activated state; or, (iii) access or disclose Diagnostic Software for any purpose. Title to Software and all copyrights and other intellectual property rights in Software will reside solely with Xerox and its licensors (who, if required by the terms of the third-party license agreement with Xerox, will be considered third party beneficiaries of this Agreement's software and limitation of liability provisions).
- b. The Base Software license will terminate: (i) if Customer no longer uses or possesses the Equipment with which the Base Software was provided; or (ii) upon the expiration or termination of any Order under which Customer has acquired the Equipment with which the Base Software was provided (unless Customer has exercised an option to purchase the Equipment, where

available, in which case the license to Base Software is perpetual and transferrable with purchase of the Equipment by Customer).

- c. Software may contain code to prevent its unlicensed use and/or transfer. If you do not permit Xerox periodic access to such Software, this code may impair the Equipment's and/or Software's functionality.
- d. Xerox does not warrant that the Software will be free from errors or that its operation will be uninterrupted.

2. SOFTWARE SUPPORT

Software support will be provided by Xerox or a designated service provider as follows. For Base Software, Software support will be provided during the initial term of the applicable Order and any renewal period, but not longer than five (5) years after Xerox stops taking orders for the subject model of Equipment. For Application Software, Software support will be provided as long as Customer is current in the payment of all applicable software license, annual renewal and "support only" fees. For Services Software, support will be provided in accordance with the terms of the applicable Statement of Work or Order.

- a. Xerox will maintain a web-based or toll-free hotline during Xerox's standard working hours to report Software problems and answer Software-related questions. Xerox, either directly or with its vendors, will make reasonable efforts to: (i) assure that Software performs in material conformity with its Documentation; (ii) provide available workarounds or patches to resolve Software performance problems; and (iii) resolve coding errors for (1) the current release and (2) the previous release for a period of six (6) months after the current release is made available to Customer. Xerox will not be required to provide Software support if Customer has modified the Software.
- b. Xerox may make available new releases of the Software that are designated as "**Maintenance Releases**" or "**Updates**." Maintenance Releases or Updates are provided at no charge and must be implemented within six (6) months after being made available to Customer. Each Maintenance Release or Update shall be considered Software governed by these terms. Feature Releases will be subject to additional license fees at Xerox's then-current pricing and shall be considered Software governed by these terms and conditions (unless otherwise noted in an Order). Implementation of a Maintenance Release, Update or Feature Release may require Customer to procure, at its expense, additional hardware and/or software from Xerox or another entity. Upon installation of a Maintenance Release, Update or Feature Release, Customer will return or destroy all prior Maintenance Releases, Updates or Feature Releases.
- c. Xerox may increase Software license fees and support fees for Application Software annually by an amount no greater than the CPI Adjustment Percentage.

3. DIAGNOSTIC SOFTWARE

Diagnostic Software and method of entry or access to it constitute valuable trade secrets of Xerox. Title to the Diagnostic Software shall at all times remain solely with Xerox and Xerox's licensors. Xerox does not grant Customer a license or right to use the Diagnostic Software. Customer will not use, reproduce, distribute, or disclose the Diagnostic Software for any purpose (or allow third parties to do so). Customer will allow Xerox reasonable access to the Equipment during Customer's normal business hours to remove or disable Diagnostic Software if Customer is no longer receiving Maintenance Services from Xerox.

4. THIRD PARTY SOFTWARE

Third Party Software is subject to license and support terms provided by the applicable Third-Party Software vendor.

5. FREEFLOW TERMS AND CONDITIONS

If CCC terminates Xerox's right to offer access to the CCC Service through FFCM, Xerox may, upon written notice and without any liability to you, terminate your right to access the CCC Service through FFCM. THE CCC SERVICE IS PROVIDED "AS IS," WITHOUT ANY WARRANTIES, WHETHER EXPRESS OR IMPLIED. XEROX DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING WITHOUT LIMITATION THE IMPLIED WARRANTIES OF NONINFRINGEMENT, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.  - d. The FreeFlow Base Software contains the Windows Update feature that allows you to access Windows Updates directly through the Microsoft Corp. Windows Update server. If you elect to activate this feature, any Windows Updates installed by you using the Windows Update feature may not function on the Equipment or may cause malfunctions or cause harm to the Equipment. Before you download a Windows Update using this feature, you should contact Xerox so that Xerox can ensure that each Windows Update is suitable for use on the Equipment and provide any necessary technical support for the installation and use of such Windows Update.

- 2. Lease Commencement & Term.** The Term for each unit of Equipment will commence upon: delivery of customer-installable Equipment; or the installation of Xerox-installable Equipment and will expire on the last day of the final full calendar month of the contracted term of the Lease Agreement. Unless

either party provides notice of termination at least 30 days before the expiration of the initial Term, it will renew on a month-to-month basis on the same terms and conditions. During this renewal period, either party may terminate the Equipment upon at least 30 days' notice. Upon termination, you will make the Products available for removal by Xerox. At the time of removal, the Equipment will be in the same condition as when delivered (reasonable wear and tear excepted).

Invoicing.** The Minimum Lease Payment, which may include a guaranteed number of copies (copy allowance), plus any additional Print Charges covers the cost of (1) the use of the equipment; (2) the equipment's maintenance; and (3) consumable supplies, if applicable. The Minimum Lease Payment will commence following Equipment installation and will be billed monthly. Charges for excess prints will be reconciled and billed monthly or quarterly, as applicable, in arrears.
- 4. Refinance.** The "Amount Refinanced" is included in the amount financed under this Agreement. - 9. Default and Remedies.** If you default or breach an individual Lease Agreement, Xerox may, in addition to its other remedies (including cessation of Maintenance Services), remove the Equipment at your expense and require immediate payment, as liquidated damages for loss of bargain and not as a penalty, of: (a) all amounts then due, plus interest from the due date until paid as allowed under law; at the rate of 1.5% per month; (b) the Minimum Lease Payments (less the Maintenance Services and Consumable Supplies components, as reflected on Xerox's records) remaining in the Term, discounted at 4% per annum; and (c) the applicable FMV or Purchase Option; and (d) all applicable Taxes. If you make the Equipment available for removal by Xerox within 30 days after notice of default, in the same condition as when delivered (reasonable wear and tear excepted), you will receive a credit for the fair market value of the Equipment as determined by Xerox, less any costs incurred by Xerox. You agree to pay all reasonable costs, including attorneys' fees, incurred by Xerox to enforce this Agreement.
- 10. The risk of loss due to your fault or negligence, as well as theft, fire, or disappearance, shall pass to you upon delivery. You will comply with the information reporting requirements of Section 149(e) of the Code. Such compliance includes the execution of 8038-G or 8038-GC Information Returns. You appoint Xerox as your agent to maintain, and Xerox will maintain, or cause to be maintained, a complete and accurate record of all assignments of this Agreement in form sufficient to comply with the book entry requirements of Section 149(a) of the Code and the regulations thereunder from time to time. Should Xerox lose the benefit of this exemption as a result of your failure to comply with or be covered by Section 103(c) the Code or the regulations thereunder, then, subject to the availability of funds and upon demand by Xerox, you will pay Xerox an amount equal to its loss in this regard. BALTORO AND RIALTO INK AND PRINT HEAD MAINTENANCE SERVICES. For the BaltoroHF and Rialto Equipment (referred to in this Section as "Equipment"), repairs that are needed due to misuse, neglect or abuse (which are excluded from Xerox's provision of Maintenance Services as described in Appendix B-Exhibit 1 General Terms and Conditions #5, specifically include, but are not limited to, your failure to ensure that inks and consumables are correctly loaded into the Equipment and to properly perform operator maintenance in a timely manner. The correct method of loading ink is described in the Guide. Customer is liable for any and all damage, including all repairs, arising out of incorrect loading of ink or from the failure to properly perform operator maintenance in a timely manner.

Routine refurbishment and replacement of print heads is covered under this Agreement at no additional charge to you. Xerox's refurbishment and replacement obligations can be voided if you:

- (a) fail to perform routine maintenance as specified by Xerox;
- (b) use inks, consumables (including paper) or spare parts, which do not meet Xerox specifications;

Xerox will not be required to repair or replace a print head if the cause of the subject failure is covered by any of the specific causes listed above or any other exclusion set forth in the Agreement or the applicable CED or Guide, and you will be required to pay for the repairs to the, or to purchase a replacement, print head. You agree to perform all maintenance tasks when directed to do so by the status messages on the Equipment's interface window and/or as outlined in the Equipment's CED or Guide.

In the event of the failure of a print head, you and Xerox will jointly review the maintenance history, and any other relevant data. If you have complied with the foregoing requirements, as demonstrated by the Equipment and/or in the Equipment's CED and Guide and any other relevant data, Xerox will replace the failed print head in accordance with this Agreement at no charge to you.

In the event you have failed to perform the maintenance tasks as directed to do so by the Equipment's interface window and/ or as outlined in the Equipment's CED and Guide, or any other relevant data demonstrates that you have failed to adhere to the requirements set out in the CED or Guide, you will return the damaged print head to Xerox in accordance with the process that is communicated to you and managed

by your Xerox certified service representative. The determination of your liability or non-liability must be made in each instance prior to your returning the damaged print head to Xerox.

In a case where your liability for repair or replacement has been agreed to, following return of a print head, Xerox will in good faith determine if the print head can be repaired or must be replaced. Xerox will communicate its determination to you promptly and provide at such time its good faith estimate of the cost of the remedial action to be undertaken. In a case where your liability for repair or replacement has been agreed to, you will pay the amount invoiced by Xerox for the materials, associated work and shipping costs to repair or replace the subject print head. The amount to be invoiced shall be in line with Xerox's good faith estimate and, in instances where a print head must be replaced, Xerox will charge you an amount not to exceed \$12,500. While there is an agreement in place between you and Xerox that requires Xerox to provide Maintenance Services for the Equipment, if Xerox uses any of the spare parts located and stored at your site to keep the Equipment in good working order, Xerox will replace the spare parts used at no additional cost to you. Additionally, Xerox will not charge you for spare parts supplied from a Xerox storage or distribution facility used to keep the Equipment in good working order.

You are liable for any and all damage, including all repairs, arising out of incorrect loading of ink or from the failure to properly perform operator maintenance in a timely manner. Routine refurbishment and replacement of Jetter Blocks is covered under this Agreement at no additional charge to you. Xerox's refurbishment and replacement obligations can be voided if you: (i) fail to perform routine maintenance as specified by Xerox; (ii) use inks, consumables (including paper) or spare parts, which do not meet Xerox specifications; (iii) allow or cause the changing or handling of a Jetter Block by anyone other than a Xerox certified service representative; (iv) allow the repair of the Equipment or a Jetter Block by anyone other than a Xerox certified service representative; (v) fail to maintain the environmental specifications required by Xerox including but not limited to specifications for humidity and/or temperature during operation of the equipment; (vi) fail to follow Xerox's operating procedures while operating the Equipment; or, (vii) allow the Equipment to be operated by employees that have not received Xerox training. Xerox will not be required to repair or replace Jetter Blocks if the cause of the subject failure is covered by any of the specific causes listed above or any other exclusion set forth in the Agreement or the applicable CED and you will be required to pay for the repairs to the, or to purchase replacement, Jetter Blocks. You agree to maintain a maintenance log to demonstrate adherence to Xerox requirements. In the event of the failure of a Jetter Block, you and Xerox will jointly review the maintenance log, and any other relevant data. If you have complied with the foregoing requirements, as demonstrated by the maintenance log and any other relevant data, Xerox will replace the Jetter Block in accordance with this Agreement at no charge to you. Xerox will communicate its determination to you promptly and provide at such time its good faith estimate of the cost of the remedial action to be undertaken. In a case where your liability for repair or replacement has been agreed to, you will pay the amount invoiced by Xerox for the materials, associated work and shipping costs to repair or replace the subject Jetter Block. The amount to be invoiced shall be in line with Xerox's good faith estimate and, in instances where a Jetter Block must be replaced, Xerox will charge you an amount not to exceed the production cost of a Jetter Block without profit or mark-up, which shall not exceed \$25,000. While there is an agreement in place between you and Xerox that requires Xerox to provide Maintenance Services for the Equipment, if Xerox uses any of the spare parts located and stored at your site to keep the Equipment in good working order, Xerox will replace the spare parts used at no additional cost to you. Additionally, Xerox will not charge you for spare parts supplied from a Xerox storage or distribution facility used to keep the Equipment in good working order.

COMMENCEMENT & TERM, RENEWAL AND TERMINATION OF THIRD-PARTY HARDWARE MAINTENANCE.

- a. The Third-Party Hardware Maintenance terms and conditions shall become effective upon acceptance of the Order Document by Xerox and shall remain in effect for effect for the number of months set forth in the order (the "Initial Term").
- b. Upon expiration of the Initial Term, unless either party provides at least thirty (30) days' notice before the end of the Initial Term, the Third Party Hardware Maintenance shall automatically renew for successive periods of twelve (12) calendar months on each expiration date, unless written notice of termination is provided by either party to the other at least thirty (30) days before the end of Initial Term of its intention not to renew. Pricing for this renewal term shall be based on the prices listed on the Xerox Price List for Third Party Hardware Maintenance then in effect.

The foregoing payments are exclusive of applicable Taxes that are payable by you and such Taxes may be included in the invoice for one or more of the above-referenced payments or in one or more separate invoices.

Tab 2 – Products/Pricing

a) Products/Pricing

i. Offerors shall provide pricing based on a discount from a manufacturer's price list or catalog, or fixed price, or a combination of both with indefinite quantities. Prices listed will be used to establish the extent of a manufacturer's product lines, services, warranties, etc. that are available from Offeror and the pricing per item. Multiple percentage discounts are acceptable if, where different percentage discounts apply, they different percentages are specified. Additional pricing and/or discounts may be included. Products and services proposed are to be priced separately with all ineligible items identified. Offerors may elect to limit their proposals to any category or categories.

Xerox presents our Price Exhibit in **Attachment B**, which includes a complete portfolio of our offerings. Percent discount is presented as a percent off list price by market code. Additional discounts may be available based on the size and scope of the individual offerings.

ii. Include an electronic copy of the catalog from which discount, or fixed price, is calculated. Electronic price lists must contain the following: (if applicable)

- Manufacturer part #
- Offeror's Part # (if different from manufacturer part #)
- Description
- Manufacturers Suggested List Price and Net Price
- Net price to Region 4 ESC (including freight)

Media submitted for price list must include the Offerors' company name, name of the solicitation, and date on a Flash Drive (i.e. Pin or Jump Drives).

Xerox complies per the Price Exhibit in **Attachment B**.

iii. Is pricing available for all products and services?

The Xerox offer consists of highly discounted percent discounts from list pricing, as stated in the equipment Price Exhibit in **Attachment B**. Bulk-buy and promotional discounted pricing for all products and related services may be available at the transaction level, based on individual Customer requirements, the size/scope of the opportunity, competitive demands, etc. Xerox price offerings will include a range of monthly cost options including but not limited to 36- through 60-month services offerings including the ability to offer fixed commitment pricing as well as multi levels of flexibility options using the base equipment pricing as a platform for these offers. Xerox is offering our entire product line and is committed to refreshing technology offers at the same price or lower as new models are introduced over the course of the contract period and renewal options.

As part of our proposal, we have provided a discounted price list for the most common components of our product offerings such as equipment, software, services and solutions in a not-to-exceed model. All products and services provided by Xerox will be bundled into one monthly price for the OMNIA Partners member.

Following are the price lists for all products, services and solutions that Xerox is offering under the terms and conditions of this master agreement. We will amend this list as additional products and services become available. Please see **Attachment B – Price Exhibit**.

iv. Describe any shipping charges.

Equipment prices include standard delivery charges for all proposed equipment. Non-standard delivery or removal will be at the Customer's expense. Examples of non-standard delivery charges include use of stair creepers, up-ending, or disassembling equipment to move through tight doorways or through narrow halls.

v. Provide pricing for warranties on all products and services.

Warranty pricing is available and can be customized based on the product offered and Customer requirements. The description and terms around warranties are addressed within Xerox Full Service/Cost Per copy maintenance agreements.

vi. Describe any return and restocking fees.

Xerox does not charge restocking or return fees.

vii. Describe any additional discounts or rebates available. Additional discounts or rebates may be offered for large quantity orders, single ship to location, growth, annual spend, guaranteed quantity, etc.

Xerox may provide additional discounts on bulk buy opportunities. Therefore, the pricing provided is the minimum discount and OMNIA Partners members will benefit from the opportunity of lower prices when they procure large individual transactions.

viii. Describe how customers verify they are receiving Contract pricing.

All orders and purchase orders under the Region 4 ESC contract will be processed through the Xerox centralized contracting system irrelevant of the distribution channel placing the order. All orders placed per the terms and conditions of this contract will be placed via the underlying pricing system, ensuring consistency and compliance to the awarded pricing and terms.

ix. Describe payment methods offered.

All invoice payments under this Agreement shall be made via check, Automated Clearing House debit, Electronic Funds Transfer, or direct debit from Customer's bank account. If the Customer wishes to use a credit/payment card for payment, the credit/payment card must be enrolled in Xerox's auto-pay system, and Xerox will automatically charge the credit/payment one day after the date of each invoice. Restrictive covenants on payment instruments will not reduce Customer's obligations.

x. Propose the frequency of updates to the Offeror's pricing structure. Describe any proposed indices to guide price adjustments. If offering a catalog contract with discounts by category, while changes in individual pricing may change, the category discounts should not change over the term of the Contract.

All payments are due within 31-days of the invoice date. Xerox will bill the end users, as per the contract terms, in arrears. Xerox will not invoice the Customer until Xerox has received a signed order or purchase order from the Customer, and the equipment has been delivered, installed, and is available for the Customer's use. All invoice payments under this Agreement shall be made via check, Automated Clearing House debit, Electronic Funds Transfer, or direct debit from Customer's bank account. If Customer wishes to use a credit/payment card for payment, the credit/payment card must be enrolled in Xerox's auto-pay system, and Xerox will automatically charge the credit/payment one day after the date of each invoice.

xi. Describe how future product introductions will be priced and align with Contract pricing proposed.

Xerox will add new and/or replacement products at percent discounts consistent with current products in the pricing portfolio.

Xerox does not have any additional information to present.

A. Brief history and description of Supplier.

History

The roots of Xerox Corporation go back over 100 years to our humble beginnings as the Haloid Company, established in 1906. In that time, we pioneered and brought to market many of the technologies and solutions used by office workers every day. From the first xerographic image made in 1938 to breakthroughs in home and business computing during the 1970's and our influence and leadership in shaping the current Managed Print Services (MPS) offering; to delivering our "game changing"

ConnectKey® Technology, which enables modern workers to leverage Xerox® Multifunction Devices (MFDs) to simplify the way work gets done in the office and on the go.

We make packaging that talks to you, printers that listen and software that intuitively personalizes and humanizes. Because Made to Think means, we're not just thinking about the future, we're making it".

Accordingly, we have prioritized investments in four key areas: Digital Packaging and Print, AI Workflow Assistants for Knowledge Workers, 3D Printing / Digital Manufacturing, and Sensors and Services for the Internet of Things.

We also see opportunity in our core coming from our ability to deliver physical devices that connect with the digital world as well as purely digital offerings that improve our customers' outcomes. As a result, we direct our research and development (R&D) investments to areas such as workflow automation, color printing and customized communication, as well as to improving the quality and reducing the environmental impact of digital printing. We invest in bringing new capabilities to the market such as our ConnectKey™ software to enable our devices to integrate into digital workflows, as well as in technologies to improve the security of our devices and offerings such as our recent market leading FedRAMP authorization for MPS services. We will continue to invest in innovations to improve the reliability, IQ and cost of our printing devices, as well as in new services and software that improve our customers' ability to manage their document-oriented workflows.

Innovation for Sustainable Products and Services

From being the first to introduce power-down features to be the first OEM to introduce a global PrintReleaf program, we push the boundaries of what is possible. The industry has taken note. Xerox

recently earned spots on Forbes' JUST 100, Barron's 100 Most Sustainable Companies, and CDP's Climate Change Leaders List.

Since the 1990s, Xerox has focused on "Design for Sustainability" because we recognize that our products have environmental, social, and economic effects throughout their life cycle. Design for Sustainability consists of criteria for each phase of the corporation's product design and delivery process. Design teams are required to respond to each criterion before passing on to the next phase of the process. We developed the criteria based on global standards, market trends, and quantitative analysis.

Our requirements for minimizing toxic materials govern our product design and materials selection. We have reengineered or eliminated processes to dramatically reduce the use of toxic materials and heavy metals and have made substantial progress in eliminating the use of mercury. Mercury-containing lamps that scan images and backlight user displays are being phased-out as alternatives become available.

Design for Sustainability has become a way of business for Xerox and extends far beyond adhering to processes. Here are a few ways we are engineering solutions that are making a more sustainable world:

Driving a Paperless Environment with Intelligent Workplace Services

A Fortune 100 company tapped Xerox to manage its worldwide print infrastructure to support its "paperless" initiative. With our Intelligent Workplace Services, a new offering that transcends Managed Print Services, we are pairing digital alternatives, print authentication, and analytics along with gamification techniques to help them change their company's print behaviors to reduce their reliance on paper as well as helping them reduce their impact on the environment.

Reforesting World's Most Treasured Ecosystems

For clients leveraging Intelligent Workplace Services, we provide them with an opportunity to opt in to our PrintReleaf partnership, which is akin to a carbon-offset program. We leverage paper usage reporting that equates the number of trees needed to reforest that usage on an equivalent basis in geographic areas of need. Xerox helps customers select the managed forestry projects where their trees will be planted in addition to tracking and reporting on their direct reforestation impact.

Since launching this program in 2018, Xerox and our clients have reforested more than one hundred thousand trees across the world, from the Amazon to Madagascar, offsetting more than one billion pages. With one tree absorbing more than one ton of carbon dioxide in its lifetime, this program thus far will offset nearly two hundred million pounds of carbon dioxide.

Pioneering IoT Sensors to Advance the World's Infrastructure

Sensors designed for the Internet of Things (IoT) have potential to transform the world, enabling real-time visibility and optimization of physical systems. PARC, Xerox's research and development company, is pioneering ways IoT sensors can help us build a better working world. These sensors can allow companies to monitor assets and determine maintenance needs, reducing the need for costly physical site inspections. We are currently piloting this technology with such companies as Con Edison in Queens, New York, and with VicTrack, owner of the Victorian Government's rail transport land in Australia. With infrastructure deteriorating across significant regions of the world, PARC is looking at ways to scale this technology and use it on other critical assets.

100% of New 2018 Products Earned ENERGY STAR Status

In 2018, 100 percent of all our new eligible product introductions achieved ENERGY STAR. This continued success in cutting the power consumption of our laser-based printing products was achieved by adjustments in the fuser design, changes to the properties of the toner, and more efficient electronic controls and performance of the xerographic system.

The ENERGY STAR program introduces progressively more stringent requirements over time. Xerox and other industry members worked together in conjunction with the EPA to develop the latest set of criteria.

The most recent revision of the ENERGY STAR Imaging Equipment 3.0 criteria becomes effective October 11, 2019. While the standard is challenging to meet, our goal remains to have 100 percent of our newly eligible products achieve this label. In addition, many existing products were redesigned to be more

energy efficient, meeting 3.0 criteria. These energy requirements serve as the foundation for other eco-labels, such as EPEAT and Blue Angel, and show our ongoing commitment to reduce product energy consumption. Learn more about the ENERGY STAR program and view current Xerox eco-label registered products at www.energystar.gov.

Focused on Eliminating Waste with Packaging and Distribution

Packaging and distribution are integral parts of our product commercialization process. We strive to eliminate, reduce, reuse, and recycle packaging whenever feasible. Product teams actively seek out more environmentally responsible packaging alternatives. We also require packaging suppliers to comply with bans and restrictions for a variety of chemicals. We document our expectations in our Environment, Health and Safety Requirements for Packaging Standard—EHS-710 and our General Packaging Standard—88P311. Our commercial equipment is designed and tested extensively to be shipped with minimal required packaging. Eliminating or reducing packaging wherever feasible conserves natural resources and decreases fuel use for distribution. Doing so represents a sustainability win for business and the environment.

Managing Products through the Full Life Cycle

Xerox integrates life cycle thinking into our product and service development activities as well as our innovation activities. Lifecycle Assessments (LCAs) are a means of technically evaluating the environmental impact of a product's materials, manufacturing, distribution, use, and end-of-life. We conduct full LCAs in accordance with the appropriate ISO standards to determine where in the product life cycle the largest environmental impacts arise and to compare products with a significant difference in technology. Full peer-reviewed LCAs were performed on our AltaLink and VersaLink devices and many of our other laser technology devices (WorkCentre 5325/30/35, WorkCentre C60/C70, and Phaser 6510). These LCAs directly contribute to our achieving the Electronic Products Environmental Assessment Tool (EPEAT) Gold certification for these configurations. We encourage our clients to learn more about how their printing behavior affects the overall carbon footprint of their organization from a life cycle perspective.

EPEAT: A Fundamental Part of Our “Design for Sustainability” Approach

EPEAT is composed of criteria spanning corporate and product requirements (50+ requirements for imaging equipment). EPEAT certification is a rigorous process, entailing both a third-party desk review for initial certification and random product verification audits once certified.

EPEAT® product criteria combine comprehensive requirements for design, production, energy use, and recycling with ongoing independent verification of manufacturer claims. EPEAT criteria reflect several categories of environmental attributes that span the life cycle of electronic products: material selection, design for end-of-life, product longevity/life extension, energy conservation, end-of-life management, corporate performance, packaging, consumables, and indoor air quality. Xerox continues to support EPEAT initiatives, aids in the future success of the program, and supports the program's global expansion.

In 2018, we expanded our registration of products to Canada, the UK, France, Germany, Netherlands, Belgium, Luxembourg, Switzerland, Norway, Sweden, Finland, and Denmark, making Xerox the first imaging equipment manufacturer to register EPEAT products in Europe. Since 2014, Xerox has committed to launching all new eligible office products with EPEAT Silver or Gold certification. For example, all new VersaLink and AltaLink products are EPEAT Silver or Gold, as we continue to design our products with the environment in mind. Xerox is the only company to claim all eight EPEAT corporate optional criteria in the U.S. Learn more about the EPEAT program and view current Xerox eco-label registered products.

EHS&S Policies and Standards Govern Product Design

Our product design is governed by global regulations and Xerox Corporate Environment, Health, Safety & Sustainability (EHS&S) Policy, which states that Xerox will:

Comply with applicable environment, health, and safety laws; rules; regulations; and Xerox standards;
Take appropriate measures to protect the environment and health and safety of our employees, clients, suppliers, and neighbors from unacceptable risk;
Take appropriate measures to prevent workplace injuries and illnesses and provide employees with a safe and healthy work environment;
Assess environment, health, and safety effects before starting a new activity or project;
Comprehend environment, health, and safety effects in the design and acquisition of products and services;
Eliminate unacceptable risks from facilities, products, services, and processes;
Strive for continual improvement of its environmental management system and to conserve natural resources, eliminate the use of toxic and hazardous materials, prevent pollution, recover, reuse, and recycle;
Address climate change by reducing the carbon footprint of our operations, products, and services; and
Require suppliers to adhere to applicable environment, health, and safety laws; rules; regulations; and Xerox Standards.

The Xerox EHS&S Standards provide consistency and guidance for meeting the policies. Our product standards encompass the following: energy efficiency, chemical management, packaging, parts reuse and recycling, electrical and mechanical safety, ergonomics, electromagnetic emissions, noise, fire resistance, and materials safety. Xerox business teams and our EHS&S organization review our products at each stage of the development process for conformance with environmental, health, and safety standards, which is a requirement for the introduction of any product. All Xerox standards ensure our products have the appropriate labels and information needed to meet all safety and environmental label requirements to keep our clients appropriately informed. All products meet required industry labeling standards for each market.

Xerox has long incorporated environmental and safety considerations into product design. Internal processes ensure that product design teams are aware of regulatory and market-driven changes affected by product design. Our product development and delivery processes include environmental evaluations of materials and parts selected, products in use, and end-of-life. These processes ensure that product design teams can incorporate timely environmental metrics and product safety considerations into new products in development.

We solicit feedback from clients and other stakeholders and take a forward-looking view of global trends in technology, regulations, and eco-labels.

Putting Health, Safety, and Compliance First

Client health and safety as well as compliance with global regulations are key considerations in Xerox innovation. Our Environment Health, Safety, and Sustainability team is engaged with our researchers and product development teams from the earliest product conception throughout the development process. See Putting Clients First—Safety of Products and Services for more details.

Striving for a Circular Economy

Beginning with our first commercial product, the Xerox 914, we introduced electronics remanufacturing long before the term “circular economy” became popular. Our vision was to transform Xerox manufacturing, operations, offices, and facilities into waste-free workplaces. We had this same vision for our clients’ workplaces: a world where electronics and supplies at the end of their useful life would come full circle to become the raw materials of tomorrow. In this model, quality and performance are not to be compromised, precious natural resources are conserved, and waste becomes an obsolete term. Six decades later, we continue to demonstrate that a circular economy delivers environmental, economic, and societal benefits.

Our aim is to design products, packaging, and supplies that make efficient use of resources, minimize waste, reuse material where feasible, and recycle what cannot be reused. To meet this commitment, we developed several collection and waste reduction programs, as well as design and business models in line with the key elements of a circular economy.

Waste as a Resource

The Xerox Green World Alliance (GWA) provides a collection and reuse/recycling program for spent consumables. The Xerox Product Takeback and Recycling Program efficiently manages equipment at end-of-life, thereby diverting material from landfills and reducing the demand for raw materials. Collected toner from spent cartridges is used for color additives as well as returned to Xerox for reprocessing.

Design for the Future

This approach ensures that our products and packaging placed on the market today can ultimately be reused, fit end-of-life management processes, and meet client needs in the future. Our comprehensive Design for the Sustainability approach engages design teams in all phases to innovate for the circular economy. Our packaging design goes beyond regulatory requirements by prioritizing a “reduce, reuse, recycle” strategy.

Adaptive Business Model

Xerox has an adaptive, leased product business model through which we can guarantee 100 percent of the equipment is returned for optimized end-of-life processing. This model also ensures that our design process prioritizes equipment longevity and reuse and allows for ultimate recycling.

Takeback and Recycling

Our GWA initiative, as noted, is a collection and reuse/recycling program for clients for their used imaging supplies. GWA is central to our commitment to waste-free products. More than thirty-five countries currently participate in the Xerox GWA. Worldwide, our clients returned more than 6.1 million cartridges, toner containers, and other used supply items in 2018, equating to four thousand metric tons, down roughly six hundred metric tons from 2017. The decrease is based on a decline in volume of customer returns in the U.S. market. In 2018, Xerox received the Non-Product Award from the US EPA's Sustainable Materials Management Program for its Green World Alliance program's significant positive sustainability impact.

Returned products are sorted, and items suitable for remanufacturing are cleaned, inspected, and then remanufactured. Remanufactured consumables, containing an average of 90 percent reused/recycled parts, are built and tested to the same performance specifications as new products. Items that are not suitable for remanufacturing are recycled or recovered through energy from waste. Recycled waste toner and toner reclaimed from manufacturing that qualifies for reuse may account for 25 percent of the weight of new toner without compromising toner functionality. Reusing waste/reclaimed toner saves several million dollars in raw material costs each year. Of the toner that cannot be reclaimed, 75 percent is recycled by our consumables recycling partner, while the remaining volume is utilized at energy from waste facilities to generate steam and electricity.

Equipment and Parts Takeback and Recycling

We have developed a comprehensive end-of-life product takeback system, which processes assets through remanufacture, refurbish, parts reuse, recycling, or broker sales, each of which fully supports our waste-free initiatives. Our reverse logistics center is certified to R2, demonstrating our commitment to responsible management of end-of-life equipment and consumables.

We design our machines with high durability and reuse capability to facilitate many product life cycles. During the active phase of a product, all returned equipment and spare parts are evaluated for reuse opportunities throughout the supply chain. All parts and equipment that are not destined for reuse have specific guidelines to facilitate easy and consistent recycling. Xerox enables equipment reuse according to the following principles:

Reuse of complete end item: This approach requires the least reprocessing, transportation, and energy usage.

Remanufacturing or conversion into a newer-generation product or part: Product families are designed with a high level of commonality to enable maximum reuse. This allows us to remanufacture to “as new” performance specifications while reusing 70 to 90 percent of the machine components by weight without degradation of quality or performance.

Used equipment: Equipment returns are evaluated for potential reuse. Based on the condition and market demands, equipment may be put through an extended maintenance/verification process to return it to a high standard and then be redeployed. Approximately 50 percent of machines returned in the U.S. are given new life by being sold as used or sent for remanufacturing of some sort.

Reuse of major modules, subcomponents, and parts for spares or manufacturing: Many of our machines that have outlived their useful life are stripped of usable parts and components before the scrap/reclaim process. Used spare parts returned from the field are also included in this reuse stream. Xerox has continually been increasing the number of components that are reused in upstream and downstream processes after the original machine has been designated for recycling.

Material recycling: After the processes noted above have been followed, any remaining portion of a machine is stripped of any recyclable material (e.g., plastics, copper wire) and material requiring special disposal services, such as printed wire boards, batteries, and lamps. The remainder of the machine is then sent to an industrial reclaim facility.

Post-consumer recycled plastic content: All Xerox products contain from 0 percent to 5 percent post-consumer recycled plastic content.

Xerox participates in several European Union member state Waste Electrical and Electronic Equipment (WEEE) programs; equipment collected and recycled through these programs is not included in our recycling data. In geographies where Xerox exercises direct control over the end-of-life management of equipment, return rates are high. In 2018, 8,600 metric tons of equipment and parts-related waste were diverted from landfills to recycling at our U.S. Reverse Logistics Center. Globally, that volume rises to 9,400 metric tons.

E-Waste: While Xerox has long been committed to responsible end-of-life management of equipment, the proliferation of e-waste regulations has created a need for many separate programs in different countries and even states. We carefully manage suppliers that provide recycling and waste disposal services to ensure that our clients’ returned equipment is protected from data breaches and improper disposal. Xerox does not allow its vendors to send electronic scrap to developing nations for processing. In addition, we strive to work only with electronic waste recyclers that have implemented voluntary programs certified by accredited organizations, including Sustainable Electronics Recycling International’s (SERI) Responsible Recycling (R2) standard or the Basal Action Network’s e-Stewards standard. This past year marks the third year in a row that Xerox has received the U.S. EPA Sustainable Materials Management GOLD Award for its responsible end-of-life processes.

Responsible Operations: Reducing our Company-wide Environmental Footprint

With goals to reduce environmental effects across our value chain, we invest in solutions that can conserve natural resources and lower the energy intensity of our operations. A few examples include:

Energy management and equipment upgrades, such as utilizing “free cooling” systems in place of mechanical cooling for chilled water systems and installing a new air compressor and compressed air system; and

Efficiency-promoting initiatives, including optimizing operation of pumping and air handler systems.

All of our major manufacturing sites, distribution operations, and some of our administrative offices employ an Environmental Management System (EMS) that conforms to ISO 14001:2015.

The system:

- Establishes a framework to ensure compliance with regulations and Xerox standards;

- Identifies environmental effects considering a life cycle perspective and sets objectives and performance targets;
- Identifies, manages, and addresses risks and opportunities related to environmental aspects, compliance obligations, other issues or other needs, and expectations of interested parties;
- Strives for continual improvement by conserving natural resources, eliminating the use of toxic and hazardous materials, preventing pollution, and recovering, reusing, and recycling materials;
- Ensures integration between day-to-day business activities and environmental planning and program management; and
- Encourages innovative engineering solutions, creative partnerships, and employee involvement.

Our major manufacturing operations have been certified to ISO 14001 since 1997. Our major worldwide technology equipment distribution centers achieved certification in 2010. Quarterly status meetings and use of an environmental performance scorecard provide visibility, best practice sharing, and innovation across our operations.

Energy Goal 2025

In 2003, we made a public commitment to reduce GHG emissions—our carbon footprint—by joining the U.S. Environmental Protection Agency (EPA) Climate Leaders program and launching our own internal Energy Challenge 2012.

This 10-year initiative set a goal to reduce GHG emissions across all company operations by 10 percent by 2012. We met this target six years ahead of schedule and set increasingly stringent targets as each previous target was met. By 2016, our cumulative GHG reduction totaled 302,000 tons of carbon dioxide equivalents (CO₂e).

In 2018, we established a new corporate-wide, science-based energy goal to reduce energy consumption and GHG emissions by 25 percent by 2025 (from a 2016 baseline).

As a U.S. Department of Energy Better Plants® Challenge partner, we pledged to improve energy performance by 25 percent over a 10-year period across all our U.S. manufacturing operations in 2018.

Energy and GHG totals are associated with fuel consumption by company-owned fleet and natural gas/electricity consumption in facilities. Vendor invoices from utility and fuel providers are the preferred source of data; when unavailable, estimates have been used.

In accordance with the Greenhouse Gas Protocol and to make annual data comparable, we adjust the energy data each year as a result of the opening and closing of facilities and use of more appropriate emission factors that are available. Revenue is from continuing operations.

Greenhouse Gas Inventory

In accordance with the international guidelines of the Greenhouse Gas Protocol developed by the World Resources Institute and the World Business Council for Sustainable Development, we track the six major GHGs: carbon dioxide (CO₂), methane (CH₄), nitrous oxide (N₂O), hydrofluorocarbons (HFCs), perfluorocarbons (PFCs), and sulfur hexafluoride (SF₆). As noted, we express our carbon footprint in terms of carbon dioxide equivalents (CO₂e).

Energy sources account for more than 99 percent of our GHG emissions. Our GHG inventory includes direct emissions from the combustion of fossil fuels, primarily natural gas (Scope 1), and indirect emissions from purchased electricity and steam at our manufacturing sites, offices, and warehouses (Scope 2). The inventory also includes the combustion of gasoline and diesel fuels in our service and sales vehicle fleet (Scope 3).

As a result of the opening and closing of facilities, changes to fleet inventory, and availability of more appropriate emission factors, baseline adjustments are made each year, which are reflected in the Energy Consumption and GHG Emission charts. We continually strive to expand our GHG tracking of indirect, or Scope 3 emissions. We currently track Scope 3 emissions from end-of-life treatment of sold

products, employee business travel, product transport, employee commute, and waste generated in operations.

In 2018, Xerox GHG emissions totaled 151,877 metric tons of CO₂e, which is a 15 percent reduction from a 2016 baseline. About 60 percent were direct emissions from the combustion of natural gas, gasoline, and diesel fuel. The remaining 40 percent of the GHG emissions total were indirect emissions from purchased electricity and steam. Xerox-owned or leased facilities, such as manufacturing sites, offices, and warehouses, are associated with 58 percent of our direct GHG emissions. The remaining 42 percent are direct emissions from our service and sales vehicle fleet and other mobile sources.

Scope 3 Emissions

Scope 3 emissions result from activities associated with Xerox activities but take place at a third party and/or arise from sources not owned or controlled by Xerox. Therefore, the collection of indirect, or Scope 3, GHG emissions is challenging. The probability of data inaccuracy with these emission estimates is higher than for Scope 1 or 2 emissions due to the limited availability of data from the supply chain and a lack of transparency in the data collection process.

To overcome some of these challenges, we calculate Scope 3 emissions according to the Greenhouse Gas Protocol Corporate Value Chain (Scope 3) Accounting and Reporting Standard. This standard provides requirements and guidance to collect, prepare, and publicly report a GHG inventory that includes indirect emissions. The Scope 3 emissions information is also used to prioritize our GHG emission reduction efforts and to integrate consideration of carbon impact into our sourcing and internal decision-making.

Third-Party GHG Verification

Our 2018 Scope 1, Scope 2, and Scope 3 GHG emissions have been verified by a third-party verification/assurance company in accordance with ISO 14064-3:2006 against internally defined methodology described in our inventory management plan, and the principles of transparency, accuracy, consistency, completeness, and relevance.

Climate Change Risks and Opportunities

Xerox has examined the regulatory, physical, and commercial risks and opportunities associated with climate change across our value chain.

We assess and manage our carbon risk by maintaining both a comprehensive GHG emissions inventory and a mature regulatory tracking function that provides the necessary information to stay abreast of developing regulations. We do not consider our company to be subject to unique risks due to changing weather patterns, rising temperatures, or sea level rise, but we recognize that our business and clients could be affected by more frequent disruptions because of severe weather in locations where we operate. We may need to invoke our business continuity and resumption plans to aid clients and employees who are affected by business disruptions because of severe weather. We have experience working to ensure continuity of critical applications by prioritizing business needs and developing client-specific preparedness plans where appropriate. These plans include communication with employees and clients, management of employee health and safety issues, business continuity and resumption processes, as well as interaction with government organizations.

We recognize that the costs of energy and concerns around energy security are issues that affect both our operations and our clients. To meet our commitment for “Reducing Energy Use and Protecting the Climate,” our long-term strategy is to continue to invest in technologies that reduce the carbon footprint of our operations and develop technology solutions that help our clients reduce the energy and environmental effects of their businesses.

Materiality

We annually assess CSR topics that are of importance to our stakeholders and those where we can have the greatest economic, social, and environmental effect at local, regional, or global levels. We follow the protocol specified in the Standards of the Global Reporting Initiative (GRI). We examine changing

external factors, including regulations and standards, social challenges people face around the world, our evolving business model, and the environmental impact of our products, services, processes, and operations. Our assessment includes interviews and workshops with internal stakeholders and Xerox leaders, discussions with external stakeholders, and feedback from our employees. Our conclusions:

Managing operations responsibly across our value chain—from decreasing environmental impact and protecting client privacy to promoting diversity and ensuring ethical behavior—remains a priority.

Product, service, and operations-related opportunities, such as improving energy efficiency and expanding access to technology, represent the leading areas where we can create value for society and for our business. Enhancing health, safety, and labor conditions in our global value chain is among the most important ways we can drive sustainable development.

Client Health and Safety

The health and safety of our employees, workplaces, and customers is of paramount importance.

Compliance is the foundation of our effort. We evaluate all potential health and safety hazards, including the ways different hazards may interact. Furthermore, we take a conservative position on the potential health risks to our employees and clients, always meeting or exceeding government safety regulations.

Compliance

We have robust processes for tracking regulatory violations and nonconformity with voluntary codes and labels. In 2018, no such instances resulted in fines or sanctions. We also have a comprehensive process in place for tracking client concerns and other field events. All client issues, such as incidents involving component failures and other potential safety concerns, are investigated carefully to determine the root cause and monitored for trends. Corrective actions are implemented as necessary.

Our safety and supplier processes enable us to meet global regulations governing chemical use. Since 2007, Xerox's newly launched products have been designed to meet the European Restriction of Hazardous Substances (RoHS) requirements in all markets. However, where regulations allow, some products may contain parts with small amounts of RoHS substances to avoid premature disposal of existing parts that have usable life. Similar types of legislation continue to be implemented in many other market regions. Through our proactive regulatory tracking process, we expect to be fully compliant with all aspects of these regulations as the provisions become effective and applicable. In 2018, we reported no issues with noncompliance to RoHS. In addition, Xerox proactively collects data from our suppliers on the presence of REACH regulated substances to provide information to downstream users. The substance review process can also result in a request to the supplier to determine if a suitable alternative is available.

Safe Products and Services

Safety has always been a cornerstone of our work in product development. Our comprehensive Product Safety Plan details our health and safety requirements, and all Xerox imaging equipment is assessed for conformance to these standards.

Clients are encouraged to review product safety information and understand the environmental profile of our devices. User guides contain information regarding safe use and any applicable hazard warnings. Our Product Safety Data Sheets (PSDS) offer environmental, health, and safety information for each Xerox device. Safety Data Sheets (SDS) identify hazards associated with specific materials and describe how they can be safely handled, used, stored, and disposed of. Both our SDS and product labeling have been updated to meet the requirements of the Globally Harmonized System of Classification and Labeling of Chemicals (GHS) as implemented through regulations in our various markets. Clients can access PSDS and SDS in different languages at www.xerox.com/environment.

Materials

Xerox was the first and remains the only company in our industry to have concluded two comprehensive investigations that lasted more than three decades on the health risks of inhaling xerographic toner.

These studies included assessments of the health of current employees and the causes of death for

people who worked for the company between 1960 and 1982. The analysis demonstrated that the health and mortality patterns of Xerox employees were consistent with a healthy working population and, in fact, our employees had a lower rate of disease (i.e., were healthier) than the general population. In October 2010, the mortality study was published in the peer-reviewed Journal of Occupational and Environmental Medicine.

We have made a long-term commitment to eliminate the use of persistent bioaccumulative and toxic materials throughout our supply chain by applying strict internal standards and tightly managing chemicals. Our supplier requirements are periodically updated as regulations change, and new information becomes available. All new product designs refer to these requirements, and suppliers are expected to verify their compliance with them. Learn more at www.xerox.com/environment.

Toxicologists conduct a comprehensive assessment of new materials in our products to ensure conformance with applicable global registration, hazard communication, and waste handling and disposal requirements. In addition, our strict internal standards set firm controls on the types of materials approved for use in our consumable products. As a result of our stringent requirements, Xerox toners and office printing products are noncarcinogenic and nonmutagenic. These products do not: cause adverse developmental or reproductive effects; pose a toxicity hazard to humans or aquatic species; cause a permanent adverse effect to the skin, eyes, or respiratory system; or have the potential to generate federally regulated hazardous waste. Xerox sells imaging supplies through its distribution network that are manufactured by other companies for use in other Original Equipment Manufacturer (OEM) printers. We review these supplies to ensure compliance with appropriate regulatory requirements and our own stringent standards.

Ergonomics

We consider the ergonomic aspects of our products from both a user and service standpoint to ensure inclusion and operability. Our design teams consider all points of human interface, including a product's height, curves, and placement of touchscreens and paper trays. We also place a high value on the end-user experience through human factors, industrial design, and user interface design to promote ease of use, ease of learning, and transfer of learning. Product design teams work directly with clients in our labs to test and continually improve the usability of new products.

Machine Emissions

Consistent with the world's most stringent ecolabels, we design products to control emissions of chemicals. As a result, current products have achieved chemical emission levels that are well below global regulatory requirements—often at or near the detection limit of our measurement equipment—and are considered to have a negligible impact on clients' work environments. We publish emissions data for our products in our PSDS.

Accessibility and Mobility

In the print industry, Xerox was the first in many ways to design products that are accessible and easy to operate by all users, including people with disabilities. Our dedicated team of design professionals upholds that commitment for the products and services we provide.

To make our systems accessible for people with disabilities, Xerox has developed several accessories, such as angled consoles, Braille console labels, magnifying lenses for visually impaired users, and "start print" foot switches. We design software for embedded web servers and print drivers to be compatible with screen readers to enable people with visual impairments to operate them. On an ongoing basis, we strive to improve our performance around accessibility and adapt products so that ease of use is not compromised.

Xerox stepped forward in 1998 when Congress amended Section 508 of the U.S. Rehabilitation Act of 1973. We developed solutions to adapt our technology for use by government workers who are disabled. We also established a rigorous process to evaluate our products' compliance to meet Section 508 accessibility requirements. In the near future, Section 508 rules will change, and new input is expected to

come from the European Union and the Far East. Learn more about our efforts pertaining to Section 508 accessibility requirements at Xerox.com.

Our focus on increased mobility has expanded with the anywhere, always-on enterprise. We're enabling enterprises to manage a complex infrastructure, as employees are bringing their own devices to work and demanding the same seamless, secure ability to find, use, and print business documents. Xerox technology, such as mobile print solutions, is enhancing easy access to information.

Xerox Replacement Cartridges (XRC) — Reducing Solid Waste

For XRC products, Xerox packaging engineers replaced hot wire expanded polystyrene end caps with inflatable air bags. Upon receipt of the package, the air bags are easily deflated, producing far less solid waste by mass and cubic volume compared to polystyrene; this change is an environmentally preferable alternative.

Shifts toward More Energy-Efficient Technologies

One example is Xerox's commitment to emulsion aggregation (EA) technology, or chemical toner, which is estimated to generate 28% fewer GHG emissions in the manufacturing process than conventional toner.

Increased Reliability of Xerox Equipment and Parts

Digital technology has improved the reliability of components inside our products. This reduces service calls, which results in fewer miles driven by Xerox technicians and less gasoline consumed.

Efficient Use of Paper

Including reliable two-sided (duplex) printing, Xerox equipment and software are also designed with features that allow customers to make efficient use of paper. Software products such as DocuShare®, SMARTsend® and FreeFlow® Digital Workflow Collection help Xerox customers reduce paper consumption by facilitating electronic data management, scan to e-mail, print-on-demand and distribute-then-print workflows.

Solid Ink

Xerox introduced print technology utilizing solid inks that contain no plastic and/or encasements what-so-ever. The ink cartridges are made out of a crayon-like substance that is inserted much like a standard cartridge and the ink is literally melted onto the paper. This innovative technology results in minimal waste and generates virtually no waste.

Toner & Parts Recycling

Returned products are sorted, and items suitable for remanufacturing are cleaned, inspected and then remanufactured. Items that are not suitable for remanufacturing are recycled or recovered through energy from waste.

Xerox follows an effective cartridge recycling process that contributes nothing to our landfills.

Managing Supplies Responsibly

Xerox has partnered with Close the Loop, Inc. to ensure the raw materials in the toner cartridges you return are recovered and reused. The closed-loop process ensures no waste ever reaches the landfill and reduces the demand for raw materials by reusing toner cartridge byproducts.

Close the Loop® (CtL) is a world leading recycler of toner cartridges and imaging supplies. Xerox has partnered with CtL to collect and manage toner recycling using a patented materials separation process that recovers used materials for reuse in new products.

Remanufacture

On average, approximately 60% by volume of the used cartridges returned to Xerox are remanufactured. Remanufactured cartridges, containing an average of 90% reused/recycled parts, are built and tested to the same performance specifications as new products. Remanufacturing a cartridge saves up to 80% of the energy that would be required to produce a new cartridge and keeps on average 2 lbs. of used

materials from winding up in landfills. Since millions of pounds of cartridge waste are disposed of each year, remanufacturing is an important environmental solution.

Recycle

The other 40% of supplies returned to Xerox are recycled to recover all the component materials. The average returned used cartridge is composed of 40% plastic, 40% metal and smaller amounts of rubber, paper, foam, and toner. Xerox has partnered with Close the Loop to recycle all returned cartridges that do not meet our stringent standards for remanufacture. CtL uses a patented process to break down a cartridge into its component parts. After separation and cleaning, the components are returned to the market as usable raw materials, with zero waste to landfill.

Rehabilitate

CtL also reuses plastic in the manufacture of a durable construction product called eLumber®. eLumber is a timber replacement product that is particularly useful in outdoor applications such as raised flower beds, planter boxes and fencing. Each year thousands of dollars' worth of eLumber are donated to Habitat for Humanity for use in housing for low-income families and their disaster response program.

Product Take-Back and Recycling

Begun in the early 1990s, Xerox has pioneered the practice of converting end-of-life electronic equipment into products and parts that contain reused parts while meeting new product specifications for quality and performance. We have developed a comprehensive process for taking back end-of-life products, and have established a remanufacture, parts reuse and recycling program that fully supports our waste-free initiatives.

G. Describe any diversity programs or partners supplier does business with and how Participating Agencies may use diverse partners through the Master Agreement. Indicate how, if at all, pricing changes when using the diversity program

As a global leader in business process and document management, Xerox recognizes that having a diverse supplier pool is a major competitive advantage and a powerful business tool. Xerox's Supplier Diversity Program's mission is to proactively identify, build relationships with, and purchase goods and services from certified small businesses as well as enterprises owned by minorities, women, veterans, gays and lesbians, and disabled persons that can help Xerox achieve its corporate objectives as suppliers to Xerox. Also, though Xerox's dedicated Divers Alliance Program, we are committed to understanding and supporting our customer's supplier diversity goals and objectives. Specifically, Xerox in connection with the Master Agreement will support Region 4 ESC by offering solutions which include certified HUBs or other certified diverse subcontractors as part of our offer where applicable and practical. While Xerox is not a certified diverse company, we believe selecting Xerox would give Region 4 ESC the best of both worlds by working with the leading global document management company which is committed to having practical and useful diverse certified subcontractors directly supporting our contract with you.

H. Describe any historically underutilized business certifications supplier holds and the certifying agency. This may include business enterprise such as minority and women owned, small or disadvantaged, disable veterans, etc.

Xerox is not a certified diverse company; however, we do work with certified diverse companies to provide direct and indirect spend as part of our offer to our customers.

- Multifunction devices are sophisticated, multiple sub-system network platforms, and Xerox offers the broadest range of security functionality on the market, including encryption, authentication, authorization per user and auditing.
- ISO 15408 Common Criteria for Information Technology Security Evaluation is the only internationally recognized standard for security certification. Xerox was the first manufacturer to seek and obtain certifications for "complete" MFP devices. Because each element of the multifunction platform is a potential point of entry, meaningful security certification must

comprehend all elements, including the operating systems, network interface, disk drive(s), Web server, PDL interpreter(s), MFP user interface, local hardware ports and fax system.

- Users of Xerox® ConnectKey® Technology-enabled 'i-Series' Smart MFPs also now have the option to encrypt PDF files with a password when using the Scan to Email service allowing only authorized users to see documents.
- From the introduction of the first digital products, Xerox has recognized the risk of retained data being inappropriately recovered from non-volatile storage and built features and countermeasures into our devices to help customers safeguard their data.
- Many Xerox® devices include features to protect the printer or MFP from unauthorized remote access, protect the confidentiality of data transmitted to the device via the network, control which devices can access the MFPs and control the ports, protocols and services that can be accessed on the device.

H. Describe in detail how Supplier's national sales force is structured, including contact information for the highest-level executive in charge of the sales team.

Xerox is organized from a sales perspective on the basis of “go-to-market” sales channels. These sales channels are structured to serve a range of customers for our products and services.

Mike Feldman, President of the Americas Operations for Xerox Corporation, leads the company's go-to-market teams in the U.S., Canada, Mexico, Central and South America. Our sales go-to-market teams are focused on bringing our full portfolio of product offerings to current and new customers and partners, while maximizing and expanding coverage through direct and indirect channels.

Jim Wallace leads both the U.S. Commercial Named Accounts and the Government, Healthcare & Education (GHE) sales teams.

Jim Manning leads the U.S. Agents, Xerox authorized independent agents.

Ed Bass leads our wholly owned subsidiary, Xerox Business Services (XBS) - formerly known as Global Imaging Systems), an office technology dealer comprised of regional companies in the U.S.

Xerox's Americas Operations Organization chart is presented below.

Americas Operations Organization

I. Explain in detail how the sales teams will work with the OMNIA Partners, Public Sector team to implement, grow and service the national program.

We have found positive results in taking a collaborative approach with OMNIA Partners to market our contract to public agencies to drive both awareness and adoption. We depend on our partner's willingness and support to help carry our message and promote our technology and we have learned that taking a joint approach for these initiatives often yields higher rates of success in the long-term. We encourage sales integration to strategize on account specific opportunities, bridge relationships between the member and Xerox and support customer eligibility questions. During the training and launch of the contract, Xerox will reinforce the role of the OMNIA Partner's Region Managers and will encourage integration during Xerox sales team meetings and one-on-one interaction for account specific opportunities.

I. Explain in detail how Supplier will manage the overall national program throughout the term of the Master Agreement, including ongoing coordination of marketing and sales efforts, timely new Participating Public Agency account set-up, timely contract administration, etc.

Xerox will continue managing the national program throughout the term of the contract by leveraging our superior national infrastructure solely responsible for all aspects of government contracting. The Xerox Public Sector Center of Excellence (COE) ensures contract education nationally, consistency of pricing and controls, compliance to the terms and conditions of the contract, sales reporting and marketing and sales efforts. Within the COE, we have dedicated resources who are responsible for managing each core competency. Throughout the term of the master agreement, this team will lead the efforts to coordinate all aspects of the management of the contract.

J. State the amount of Supplier's Public Agency sales for the previous fiscal year. Provide a list of Supplier's top 10 Public Agency customers, the total purchases for each for the previous fiscal year along with a key contact for each.

Xerox does not make this information publicly available. A significant portion of our revenues is derived from contracts with U.S. state and local governments and their agencies.

K. Describe Supplier's information systems capabilities and limitations regarding order management through receipt of payment, including description of multiple platforms that may be used for any of these functions.

Orders are entered into a centralized ordering system which is accessible to only authorized Sales Representatives and the Order Processing Representatives. Editing of the order is completed and the request for equipment or service is passed to distribution in the equipment procurement system to establish a delivery date and time. Additionally, any special requirements are noted, and the appropriate departments are automatically notified if their involvement is necessary at the time of installation. Once successfully installed and accepted a notification is sent to the billing system to start the invoicing of the equipment or service. Invoices are generated and delivered to the customer and are due upon receipt. Generally, any equipment ordered or invoiced can be tracked and any needed reporting can be pulled from a centralized database.

Intentionally Redacted

M. Even though it is anticipated many Public Agencies will be able to utilize the Master Agreement without further formal solicitation, there may be circumstances where Public Agencies will issue their own solicitations. The following options are available when responding to a solicitation for Products covered under the Master Agreement.

- i. Respond with Master Agreement pricing (Contract Sales reported to OMNIA Partners, Public Sector).
- ii. If competitive conditions require pricing lower than the standard Master Agreement not-to-exceed pricing, Supplier may respond with lower pricing through the Master Agreement. If Supplier is awarded the contract, the sales are reported as Contract Sales to OMNIA Partners, Public Sector under the Master Agreement.
- iii. Respond with pricing higher than Master Agreement only in the unlikely event that the Public Agency refuses to utilize Master Agreement (Contract Sales are not reported to OMNIA Partners, Public Sector).
- iv. If alternative or multiple proposals are permitted, respond with pricing higher than Master Agreement, and include Master Agreement as the alternate or additional proposal.

Detail Supplier's strategies under these options when responding to a solicitation.

Applicable to all four of these situations, whether a formal solicitation or not, as Xerox is requested to participate in a procurement cycle with an OMNIA Partner member, we will provide unique pricing equal to or below the not to exceed pricing based on bulk buy provisions per the terms and conditions of the Region 4 ESC master agreement. If the individual procuring agency requires us to amend those terms and conditions to meet their specific state laws or requirements, we will provide an addendum in conjunction with the master terms and all revenue will be reported under OMNIA Partners.

This concludes Xerox's response to Appendix D, 3.0 Supplier Response.

iv. Describe how Offeror responds to emergency orders.

The Xerox Sales Representative is responsible for contacting a Customer and obtaining an order. After the Xerox agreement is finalized and signed, the Xerox Sales Representative submits the order electronically to the Xerox Order Entry team. The Xerox Order Entry team reviews and edits the order for validation of pricing (including contract term), invoice addresses, delivery addresses, and overall configuration of a device prior to releasing the order. The order is then routed electronically to the Xerox Warehouse and Logistics. Warehouse will fulfill the order by ensuring that the equipment ordered is shipped to Logistics. Logistics will contact the Customer to schedule the equipment delivery.

In the event a product is required sooner than the Xerox Warehouse can ship to Logistics, there are several options to expedite the order:

1. If expedited delivery of product is known in advance of order signature the product can be shipped to Logistics in what is known as Pre-staging and be available for delivery promptly after signature.
2. Product can be sourced locally from existing non-expedited orders and assigned to the order requiring expedited delivery.
3. Demonstration units from local showrooms or sales offices can be provided as an interim solution for expedited product requests.
4. Short-term rental of similar or substitute product can be arranged if the required product cannot be expedited through pre-staging, local sourcing, or if demonstration units are not available.

v. What is Offeror's average Fill Rate?

Xerox's fill rate is 95%.

vi. What is Offeror's average on time delivery rate? Describe Offeror's history of meeting the shipping and delivery timelines.

Xerox equipment deliveries can normally be expected within two to three weeks following the receipt of an OMNIA Partner Member's equipment order. In the rare occurrence of a product constraint, Xerox will inform the member that a constraint condition exists and will provide a revised delivery date. If the revised target delivery date is unacceptable, the OMNIA Partner Member can cancel the order prior to delivery without penalty to either party.

vii. Describe Offeror's return and restocking policy.

All leased equipment proposed will be covered under a Xerox Full Service Maintenance Agreement (FSMA) for the full term of the lease. FSMA offers a worry-free investment with Xerox, as any device that Xerox cannot maintain in good working order (and thus is deemed defective by Xerox) will be replaced with a like model of similar features and functionality.

This applies to all leased equipment that has been continuously maintained under a Xerox Agreement with Full Service Maintenance Agreement (FSMA). FSMA is also offered for customer-owned purchased Xerox-brand equipment guaranteeing the same like-for-like replacement during the term of the FSMA. Xerox highly recommends annual purchase of the FSMA for all Xerox brand customer-owned equipment.

Xerox customers return more than 2.5 million cartridges and toner containers annually through the Green World Alliance recycling program. Together we've kept more than 145 million pounds of waste out of landfills over the past 20 years. Customers may choose several options for recycling Genuine Xerox Branded consumables.

The primary method is using the free Xerox Eco Box or Pallet Return Process to reduce freight and processing requirements. Xerox funds all recycling / recovery costs and shipping costs on EcoBox and Pallet returns.

Customers can also download a pre-paid single item return label to return the supply items. Xerox funds all recycling / recovery costs and shipping costs for those items on our Single Item Return Take Back List. Customers can recycle locally where services are available and product recovery is not beneficial.

viii. Describe Offeror's ability to meet service and warranty needs.

All leased equipment proposed will be covered under a Xerox Full Service Maintenance Agreement (FSMA) for the full term of the lease. FSMA offers a worry-free investment with Xerox, as any device that Xerox cannot maintain in good working order (and thus is deemed defective by Xerox) will be replaced with a like model of similar features and functionality.

This applies to all leased equipment that has been continuously maintained under a Xerox Agreement with FSMA. FSMA is also offered for customer-owned purchased Xerox-brand equipment guaranteeing the same like-for-like replacement during the term of the FSMA. Xerox highly recommends annual purchase of the FSMA for all Xerox brand customer-owned equipment.

ix. Describe Offeror's customer service/problem resolution process. Include hours of operation, number of services, etc.

The Customer Support Centers (CSCs) are the single focal point of contact for customers to call for all Xerox products and services, regardless of the nature of the problem. The CSCs provide responsive and effective phone support, technical problem management, and problem resolution to customers with contractual support agreements. By providing these services, Xerox improves your self-sufficiency and system utilization, thereby delivering improved productivity.

You can place a service call 24 hours a day, seven days a week, 365 days per year. Our team of professionals and friendly Customer Support Representatives provides one-to-one expert advice over the phone.

The CSCs handle more than 45,000 customer calls per day, averaging two to three minutes per call. They are staffed with highly trained and dedicated Customer Support Representatives (CSRs) using new technology, such as Remote Customer Assistance (RCA). Using CasePoint software, the CSRs can ask product-specific questions based on what the customer is telling them. Once the customer has told the CSR the type of equipment and problem, the CSR can go into CasePoint and ask a series of questions that will either result in a solution or an instruction to initiate a service call. This knowledge-based system is very effective in improving customer up time and reducing overall solution time.

Any customer who calls a center is guaranteed problem resolution or genuine assistance in helping to solve a problem. This is called "The Call Quality Guarantee." All the CSRs have been trained in this process to ensure the highest levels of customer satisfaction.

Another process used by the CSCs is the Customer Complaint Process (CPP). If the customer has talked to the CSR and he or she has done everything that can be done for them and the customer is still

- Service Call Activity Management
- Asset Database Maintenance, Meter Reads and Move / Add / Change
- Supplies Ordering and Tracking
- Problem Resolution and Issue Escalation
- Activity Reporting

unhappy or dissatisfied, then the CCP process allows the CSR to escalate the call to the appropriate Region Manager of Region to make sure that a higher level of management is aware of the customer's needs.

Xerox has developed a national service coverage planning model to optimize the size, location and skills of our workforce with the level and quality of service we promise to OMNIA Partners Members. For on-site Customer Service Engineer (CSE) response time for urban areas, products are planned in the following general categories:

- Office and Fax: 4 – 8 hours
- Productions and Continuous Feed: 4 hours

The above specifications represent the average on-site response time for these classes of products. There may be exceptions within categories based on product maturity, geographic considerations like rural or remote customer sites, or service provided through authorized service delivery partners. Your Xerox Sales contact will provide response time delivery specifications based on the product mix of interest, your business locations, and specific service level requirements.

x. Describe Offeror's invoicing process including payment terms, acceptable methods of payments. Offerors shall describe any associated fees pertaining to credit cards/p-cards.

All payments are due within 31-days of the invoice date. Xerox will bill the end users as per the contract terms in arrears. Xerox will not invoice the Customer until Xerox has received a signed order or purchase order from the Customer, and the equipment has been delivered, installed, and is available for the Customer's use. All invoice payments under this Agreement shall be made via check, Automated Clearing House debit, Electronic Funds Transfer, or direct debit from Customer's bank account. If Customer wishes to use a credit/payment card for payment, the credit/payment card must be enrolled in Xerox's auto-pay system, and Xerox will automatically charge the credit/payment one day after the date of each invoice.

xi. Describe Offeror's contract implementation/customer transition plan.

We pride ourselves in developing a customer transition plan that has proven successful in the past 20 years since marketing the Region 4 ESC contracts. At the heart of the strategy is educating our national sales force. We believe that as our sales force understands the benefits of the contract coupled with our cost-effective document management technologies and services, contract success will follow. Our dedicated OMNIA Partners' contract administrator will educate and promote the benefits of the Region 4 ESC contract to all sales teams. Additionally, with the support of our new Marketing resource, will work in partnership with OMNIA Partners Marketing team to develop ongoing marketing and sales related activities to drive contract awareness to our current OMNIA Partner member base.

i. Provide a brief history of the Offeror, including year it was established and corporate office location.

History

The roots of Xerox Corporation go back over 100 years to our humble beginnings as the Haloid Company, established in 1906. In that time, we pioneered and brought to market many of the technologies and solutions used by office workers every day. From the first xerographic image made in 1938 to breakthroughs in home and business computing during the 1970's and our influence and leadership in shaping the current Managed Print Services (MPS) offering; to delivering our "game changing" ConnectKey® Technology, which enables modern workers to leverage Xerox® Multifunction Devices (MFDs) to simplify the way work gets done in the office and on the go.

"We are made to think. We take what is and turn it into what will be. We never stop innovating, reimagining, building and doing. And we never stop questioning. We make packaging that talks to you, printers that listen and software that intuitively personalizes and humanizes. Because Made to Think means, we're not just thinking about the future, we're making it".

Xerox Research and Innovation

We believe that a critical role of our research is to identify new competency areas with attractive addressable markets for the future. Our expertise in technology and printing also uniquely positions us to discover those areas and leverage our innovation to move into adjacencies beyond our current core technology. Accordingly, we have prioritized investments in four key areas: Digital Packaging and Print, AI Workflow Assistants for Knowledge Workers, 3D Printing / Digital Manufacturing, and Sensors and Services for the Internet of Things.

We also see opportunity in our core coming from our ability to deliver physical devices that connect with the digital world as well as purely digital offerings that improve our customers' outcomes. As a result, we direct our research and development (R&D) investments to areas such as workflow automation, color printing and customized communication, as well as to improving the quality and reducing the environmental impact of digital printing. We invest in bringing new capabilities to the market such as our ConnectKey™ software to enable our devices to integrate into digital workflows, as well as in technologies to improve the security of our devices and offerings such as our recent market leading FedRAMP authorization for MPS services. We will continue to invest in innovations to improve the reliability, IQ and cost of our printing devices, as well as in new services and software that improve our customers' ability to manage their document-oriented workflows.

As a testament to Xerox's reputation in the marketplace, we are honored to be recognized by Forbes in this year's list of World's Most Reputable Companies. As a company, we strive to align our reputation with our brand through exemplifying authenticity, ethical behavior and product value in all initiatives. Forbes and Reputation Institute, a reputation management services firm, surveyed over 230,000 individuals in 15 different countries from January to February 2019 to arrive at a list of most reputable companies, taking revenue, brand familiarity and brand perceptions into consideration. As today's technologies and capabilities have found organizations under a constant microscope, Xerox continues to make a concerted effort towards exemplifying and maintaining our legacy and values both internally and externally.

Industry Strength

We are a leader in our industry and have a strong and valuable global brand. We systematically evaluate our competition and the needs of our customers and partners to maintain our leadership position and make the portfolio and distribution investments to further penetrate growth areas of the market.

We expect to focus on the following:

- Expand leadership in Managed Document Services by leveraging our strength in large enterprises and broadening our SMB (small to mid-sized business) offerings.
- Increase SMB coverage through resellers and partners (including multi-brand dealers) and continued distribution acquisitions.
- Gain share in the A4 product segment of the market, where historically we have been underrepresented, by strengthening our product portfolio and increasing our distribution capacity.
- Extend leadership in digital color production through continued innovation and growth in new markets.

iii. Describe Offeror's reputation of products and services in the marketplace.

Superior Print Performance with Xerox

Comparative tests conducted by independent research laboratories have shown that Xerox devices offer substantial advantages through:

- Faster speeds.
- Enhanced security and workflow capabilities.
- Impeccable green credentials.
- Tightened cost control features.

Xerox devices consistently outperform other MFD technology, as tested by **Buyer's Lab Inc. (BLI)**, one of the leading independent authorities in the office equipment industry.

For example, BLI concluded that Xerox devices perform more efficiently than those of our competitors—operating at 70 to 80% of their rated speed whereas non-Xerox devices performed at 15 to 30% of their rated speed.

"Equipment manufacturers need a complete and compelling solutions portfolio to augment their hardware offerings. After careful evaluation of the company's in-house developed and third-party partner offerings, including lab-based testing of its latest products, BLI analysts feel that Xerox's solutions line-up is the most comprehensive based on our judging criteria."

Environmental Sustainability

Many of our products meet or exceed the minimum registration requirements for product environmental performance. Along with EPEAT, Xerox offers ENERGY STAR®, ECOLOGO® and Blue Angel certified office products and with its partnership with PrintReleaf, enables managed print services customers to offset their printing by planting trees in endangered geographies.

"With Xerox technology, IT decision makers don't have to sacrifice sustainability for productivity," said Tracey Koziol, senior vice president, Global Offerings, Xerox.

"We have a history of developing technology with sustainability in mind."

Sustainability Goals

Xerox has published its 2019 Global Corporate Social Responsibility Report detailing the impact of the company's sustainability efforts across its operations.

Highlights from this year's report include:

- Named as one of Forbes' JUST 100, Barron's 100 Most Sustainable Companies, and Mediacorp Canada's Greenest Employers lists.
- Committed to a 25 percent reduction in global energy consumption and greenhouse gas emissions by 2025.
- Achieved 100 percent ENERGY STAR eco-labels for all Xerox's new eligible product introductions.

- Diverted nearly 100 percent of leased Xerox equipment from landfills and optimized end-of-life processing.
- Planted more than 100,000 trees

“For the past 113 years, Xerox has been committed to creating value for business and society and has played an important role in progressing our society globally. We are 100 percent committed to raising the bar on our ourselves in the important quest of building and maintaining a healthy and balanced world that meets society’s evolving needs,” said John Visentin, vice chairman and CEO, Xerox.

The Global CSR report focuses on how Xerox is engineering solutions that are making a more sustainable world in unexpected ways. A recent example is the work Xerox did with the Bangladeshi government to digitize and process their National Household Census results from January 2017 to February 2019, so they can better deliver resources to populations in need.

Xerox’s Intelligent Workplace Services, a new offering that transcends Managed Print Services, also helps companies reduce their reliance on paper by providing digital alternatives, print authentication, and analytics along with gamification techniques. Intelligent Workplace Services clients can opt in to Xerox’s PrintReleaf offering, which is akin to a carbon offset program.

Annually Xerox looks at its approach and performance in corporate social responsibility (CSR) activities supporting social, economic and environmental dimensions. This report was prepared in accordance with the Global Reporting Initiative (GRI) standards and aligns in part with the United Nations Sustainable Development Goals (SDGs) established in 2015.

Appendix C: DOC #5 Special Conditions

SPECIAL CONDITIONS

Awarded Offerors may need to respond to events and losses where products and services are needed for the immediate and initial response to emergency situations such as, but not limited to, water damage, fire damage, vandalism cleanup, biohazard cleanup, sewage decontamination, deodorization, and/or wind damage during a disaster or emergency situation. By submitting a proposal, the Offeror is accepted these Special Conditions required by the Federal Emergency Management Agency (FEMA).

Conflicts of Interest

No employee, officer, or agent may participate in the selection, award, or administration of a contract supported by a FEMA award if he or she has a real or apparent conflict of interest. Such a conflict would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties, has a financial or other interest in or a tangible personal benefit from a firm considered for award. 2 C.F.R. § 200.318(c)(1); See also Standard Form 424D, ¶ 7; Standard Form 424B, ¶ 3.

i. FEMA considers a “financial interest” to be the potential for gain or loss to the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of these parties as a result of the particular procurement. The prohibited financial interest may arise from ownership of certain financial instruments or investments such as stock, bonds, or real estate, or from a salary, indebtedness, job offer, or similar interest that might be affected by the particular procurement. ii. FEMA considers an “apparent” conflict of interest to exist where an actual conflict does not exist, but where a reasonable person with knowledge of the relevant facts would question the impartiality of the employee, officer, or agent participating in the procurement. c. Gifts. The officers, employees, and agents of Region 4 ESC nor the Participating Public Agency (“NFE”) must neither solicit nor accept gratuities, favors, or anything of monetary value from contractors or parties to subcontracts. However, NFE’s may set standards for situations in which the financial interest is de minimus, not substantial, or the gift is an unsolicited item of nominal value. 2 C.F.R. § 200.318(c)(1). d. Violations. The NFE’s written standards of conduct must provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents of the NFE. 2 C.F.R. § 200.318(c)(1). For example, the penalty for a NFE’s employee may be dismissal, and the penalty for a contractor might be the termination of the contract.

Contractor Integrity

A contractor must have a satisfactory record of integrity and business ethics. Contractors that are debarred or suspended as described in Chapter III, ¶ 6.d must be rejected and cannot receive contract awards at any level.

Public Policy

A contractor must comply with the public policies of the Federal Government and state, local government, or tribal government. This includes, among other things, past and current compliance with the:

- a. Equal opportunity and nondiscrimination laws
- b. Five affirmative steps described at 2 C.F.R. § 200.321(b) for all subcontracting under contracts supported by FEMA financial assistance; and FEMA Procurement Guidance June 21, 2016 Page IV- 7
- c. Applicable prevailing wage laws, regulations, and executive orders

Affirmative Steps

For any subcontracting opportunities, Contractor must take the following Affirmative steps:

1. Placing qualified small and minority businesses and women's business enterprises on solicitation lists;

3. Dividing total requirements, when economically feasible, into smaller tasks or quantities to permit maximum participation by small and minority businesses, and women's business enterprises;
4. Establishing delivery schedules, where the requirement permits, which encourage participation by small and minority businesses, and women's business enterprises; and
5. Using the services and assistance, as appropriate, of such organizations as the Small Business Administration and the Minority Business Development Agency of the Department of Commerce;

Bid Guarantee

For proposals that are to include construction/reconstruction/renovation and related services, bids must be accompanied by Certified or Cashier's Check or an approved Bid Bond in the amount of not less than five percent (5%) of the total bid. Surety shall provide a copy of the Power of Attorney authorizing the Executing Agent the authority to execute the bid bond documents and bind the Surety to the bid bond conditions. The bid bond shall have a corporate Surety that is licensed to conduct business in the state of the lead agency and authorized to underwrite bonds in the amount of the bid bond.

Prevailing Wage Requirements

When applicable, the awarded Contractor(s) and any and all subcontractor(s) agree to comply with all laws regarding prevailing wage rates including the Davis-Bacon Act, applicable to this solicitation and/or Participating Public Agencies. The Participating Public Agency shall notify the Contractor of the applicable pricing/prevailing wage rates and must apply any local wage rates requested. The Contractor and any subcontractor(s) shall comply with the prevailing wage rates set by the Participating Public Agency.

Alternative Pricing for Federal Funding

When applicable, such as when products and services are used in response to an emergency or disaster recovery situation in which federal funding may be used, pricing may not include cost plus a percentage of cost or pricing based on time and materials. If time and materials is necessary in an applicable federal funding situation, a ceiling price that the contract exceeds at its own risk will be needed. In addition, Offeror is subject to and must comply with all federal requirements applicable to the funding including, but not limited, the to the 2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses.

Federal Requirements

2 C.F.R. § 200.326 and 2 C.F.R. Part 200, Appendix II, Required Contract Clauses

1. Termination for Convenience:

The right to terminate this Contract for the convenience of Region 4 ESC is retained by Region 4 ESC. In the event of a termination for convenience by Region 4 ESC, Region 4 ESC shall, at least ten (10) calendar days in advance, deliver written notice of the termination for convenience to Contractor. Upon Contractor's receipt of such written notice, Contractor immediately shall cease the performance of the Work and shall take reasonable and appropriate action to secure and protect the Work then in place. Contractor shall then be paid by Region 4 ESC, in accordance with the terms and provisions of the Contract Documents, an amount not to exceed the actual labor costs incurred, the actual cost of all materials installed and the actual cost of all materials stored at the project site or away from the project site, as approved in writing by Region 4 ESC but not yet paid for and which cannot be returned, and actual, reasonable and documented demobilization costs, if any, paid by Contractor and approved by Region 4 ESC in connection with the Scope of Work in place which is completed as of the date of termination by Region 4 ESC and that is in conformance with the Contract Documents, less all amounts previously paid for the Work. No amount ever shall be owed or paid to Contractor for lost or anticipated profits on any part of the Scope of Work not performed or for consequential damages of any kind.

2. Equal Employment Opportunity:

Region 4 ESC highly encourages Contractors to implement Affirmative Action practices in their employment programs. This means Contractor should not discriminate against any employee or applicant for employment because of race, color, religion, sex, pregnancy, sexual orientation, political belief or affiliation, age, disability or genetic information.

During the performance of this contract, the contractor agrees as follows:

(1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, sexual orientation, gender identity, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment, without regard to their race, color, religion, sex, sexual orientation, gender identity, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer, recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided by the contracting officer setting forth the provisions of this nondiscrimination clause.

(2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, or national origin.

(3) The contractor will not discharge or in any other manner discriminate against any employee or applicant for employment because such employee or applicant has inquired about, discussed, or disclosed the compensation of the employee or applicant or another employee or applicant. This provision shall not apply to instances in which an employee who has access to the compensation information of other employees or applicants as a part of such employee's essential job functions discloses the compensation of such other employees or applicants to individuals who do not otherwise have access to such information, unless such disclosure is in response to a formal complaint or charge, in furtherance of an investigation, proceeding, hearing, or action, including an investigation conducted by the employer, or is consistent with the contractor's legal duty to furnish information.

(4) The contractor will send to each labor union or representative of workers with which it has a collective bargaining agreement or other contract or understanding, a notice to be provided by the agency contracting officer, advising the labor union or workers' representative of the contractor's commitments under section 202 of Executive Order 11246 of September 24, 1965, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.

(5) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.

(6) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by the rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the contracting agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

(7) In the event of the contractor's non-compliance with the nondiscrimination clauses of this contract or with any of such rules, regulations, or orders, this contract may be canceled, terminated or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.

(8) The contractor will include the provisions of paragraphs (1) through (8) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as may be directed by the Secretary of Labor as a means of enforcing such provisions including sanctions for noncompliance: *Provided*, however, that in the event the contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

3. "During the performance of this contract, the contractor agrees as follows:

- (1) The contractor will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin. The contractor will take affirmative action to ensure that applicants are employed, and that employees are treated during employment without regard to their race, color, religion, sex, or national origin. Such action shall include, but not be limited to the following: Employment, upgrading, demotion, or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The contractor agrees to post in conspicuous places, available to employees and applicants for employment, notices to be provided setting forth the provisions of this nondiscrimination clause.
- (2) The contractor will, in all solicitations or advertisements for employees placed by or on behalf of the contractor, state that all qualified applicants will receive considerations for employment without regard to race, color, religion, sex, or national origin.
- (3) The contractor will send to each labor union or representative of workers with which he has a collective bargaining agreement or other contract or understanding, a notice to be provided advising the said labor union or workers' representatives of the contractor's commitments under this section, and shall post copies of the notice in conspicuous places available to employees and applicants for employment.
- (4) The contractor will comply with all provisions of Executive Order 11246 of September 24, 1965, and of the rules, regulations, and relevant orders of the Secretary of Labor.
- (5) The contractor will furnish all information and reports required by Executive Order 11246 of September 24, 1965, and by rules, regulations, and orders of the Secretary of Labor, or pursuant thereto, and will permit access to his books, records, and accounts by the administering agency and the Secretary of Labor for purposes of investigation to ascertain compliance with such rules, regulations, and orders.

- (6) In the event of the contractor's noncompliance with the nondiscrimination clauses of this contract or with any of the said rules, regulations, or orders, this contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts or federally assisted construction contracts in accordance with procedures authorized in Executive Order 11246 of September 24, 1965, and such other sanctions as may be imposed and remedies invoked as provided in Executive Order 11246 of September 24, 1965, or by rule, regulation, or order of the Secretary of Labor, or as otherwise provided by law.
- (7) The contractor will include the portion of the sentence immediately preceding paragraph (1) and the provisions of paragraphs (1) through (7) in every subcontract or purchase order unless exempted by rules, regulations, or orders of the Secretary of Labor issued pursuant to section 204 of Executive Order 11246 of September 24, 1965, so that such provisions will be binding upon each subcontractor or vendor. The contractor will take such action with respect to any subcontract or purchase order as the administering agency may direct as a means of enforcing such provisions, including sanctions for noncompliance: Provided, however, That in the event a contractor becomes involved in, or is threatened with, litigation with a subcontractor or vendor as a result of such direction by the administering agency the contractor may request the United States to enter into such litigation to protect the interests of the United States."

4. Davis Bacon Act and Copeland Anti-Kickback Act.

- (1) Applicability of Davis-Bacon Act. The Davis-Bacon Act only applies to the emergency Management Preparedness Grant Program, Homeland Security Grant Program, Nonprofit Security Grant Program, Tribal Homeland Security Grant Program, Port Security Grant Program, and Transit Security Grant Program. **It does not apply to other FEMA grant and cooperative agreement programs, including the Public Assistance Program.**
- (2) All prime construction contracts in excess of \$2,000 awarded by non-Federal entities must include a provision for compliance with the Davis-Bacon Act (40 U.S.C. §§ 3141-3144 and 3146-3148) as supplemented by Department of Labor regulations at 29 C.F.R. Part 5 (Labor Standards Provisions Applicable to Contracts Covering Federally Financed and Assisted Construction)). See 2 C.F.R. Part 200, Appendix II, ¶ D.
- (3) In accordance with the statute, contractors must be required to pay wages to laborers and mechanics at a rate not less than the prevailing wages specified in a wage determination made by the Secretary of Labor. In addition, contractors must be required to pay wages not less than once a week.
- (4) The non-Federal entity must place a copy of the current prevailing wage determination issued by the Department of Labor in each solicitation. The decision to award a contract or subcontract must be conditioned upon the acceptance of the wage determination. The non-Federal entity must report all suspected or reported violations to the Federal awarding agency.
- (5) In contracts subject to the Davis-Bacon Act, the contracts must also include a

provision for compliance with the Copeland “Anti-Kickback” Act (40 U.S.C. § 3145), as supplemented by Department of Labor regulations at 29 C.F.R. Part 3 (Contractors and Subcontractors on Public Building or Public Work Financed in Whole or in Part by Loans or Grants from the United States). The Copeland Anti-Kickback Act provides that each contractor or subrecipient must be prohibited from inducing, by any means, any person employed in the construction, completion, or repair of public work, to give up any part of the compensation to which he or she is otherwise entitled. The non-Federal entity must report all suspected or reported violations to FEMA.

- (6) The regulation at 29 C.F.R. § 5.5(a) does provide the required contract clause that applies to compliance with both the Davis-Bacon and Copeland Acts. However, as discussed in the previous subsection, the Davis-Bacon Act does not apply to Public Assistance recipients and subrecipients. **In situations where the Davis-Bacon Act does not apply, neither does the Copeland “Anti-Kickback Act.”** However, for purposes of grant programs where both clauses do apply, FEMA requires the following contract clause:

“Compliance with the Copeland “Anti-Kickback” Act.

- (1) Contractor. The contractor shall comply with 18 U.S.C. § 874, 40U.S.C. § 3145, and the requirements of 29 C.F.R. pt. 3 as may be applicable, which are incorporated by reference into this contract.
- (2) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clause above and such other clauses as the FEMA may by appropriate instructions require, and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for the compliance by any subcontractor or lower tier subcontractor with all of these contract clauses
- (3) Breach. A breach of the contract clauses above may be grounds for termination of the contract, and for debarment as a contractor and subcontractor as provided in 29 C.F.R. § 5.12.”

5. Contract Work Hours and Safety Standards Act.

- (1) Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- (2) Where applicable (see 40 U.S.C. § 3701), all contracts awarded by the non-Federal entity in excess of \$100,000 that involve the employment of mechanics or laborers must include a provision for compliance with 40 U.S.C. §§ 3702 and 3704, as supplemented by Department of Labor regulations at 29 C.F.R. Part 5. See 2 C.F.R. Part 200, Appendix II, ¶ E.
- (3) Under 40 U.S.C. § 3702, each contractor must be required to compute the wages of every mechanic and laborer on the basis of a standard work week of 40 hours. Work in excess of the standard work week is permissible provided that the worker is compensated at a rate of not less than one and a half times the basic rate of pay for all hours worked in excess of 40 hours in the workweek.
- (4) The requirements of 40 U.S.C. § 3704 are applicable to construction work and provide that no laborer or mechanic must be required to work in surroundings or

under working conditions which are unsanitary, hazardous or dangerous. These requirements do not apply to the purchases of supplies or materials or articles ordinarily available on the open market, or contracts for transportation or transmission of intelligence.

- (5) The regulation at 29 C.F.R. § 5.5(b) provides the required contract clause concerning compliance with the Contract Work Hours and Safety Standards Act:

“Compliance with the Contract Work Hours and Safety Standards Act.

- (1) Overtime requirements. No contractor or subcontractor contracting for any part of the contract work which may require or involve the employment of laborers or mechanics shall require or permit any such laborer or mechanic in any workweek in which he or she is employed on such work to work in excess of forty hours in such workweek unless such laborer or mechanic receives compensation at a rate not less than one and one-half times the basic rate of pay for all hours worked in excess of forty hours in such workweek.
- (2) Violation; liability for unpaid wages; liquidated damages. In the event of any violation of the clause set forth in paragraph (1) of this section the contractor and any subcontractor responsible therefor shall be liable for the unpaid wages. In addition, such contractor and subcontractor shall be liable to the United States (in the case of work done under contract for the District of Columbia or a territory, to such District or to such territory), for liquidated damages. Such liquidated damages shall be computed with respect to each individual laborer or mechanic, including watchmen and guards, employed in violation of the clause set forth in paragraph (1) of this section, in the sum of \$10 for each calendar day on which such individual was required or permitted to work in excess of the standard workweek of forty hours without payment of the overtime wages required by the clause set forth in paragraph (1) of this section.
- (3) Withholding for unpaid wages and liquidated damages. The (write in the name of the Federal agency or the loan or grant recipient) shall upon its own action or upon written request of an authorized representative of the Department of Labor withhold or cause to be withheld, from any moneys payable on account of work performed by the contractor or subcontractor under any such contract or any other Federal contract with the same prime contractor, or any other federally-assisted contract subject to the Contract Work Hours and Safety Standards Act, which is held by the same prime contractor, such sums as may be determined to be necessary to satisfy any liabilities of such contractor or subcontractor for unpaid wages and liquidated damages as provided in the clause set forth in paragraph (2) of this section.
- (4) Subcontracts. The contractor or subcontractor shall insert in any subcontracts the clauses set forth in paragraph (1) through (4) of this section and also a clause requiring the subcontractors to include these clauses in any lower tier subcontracts. The prime contractor shall be responsible for compliance by any subcontractor or lower tier subcontractor with the clauses set forth in paragraphs (1) through (4) of this section.”

6. Rights to Inventions Made Under a Contract or Agreement.

- (1) Stafford Act Disaster Grants. This requirement **does not apply to the Public Assistance**, Hazard Mitigation Grant Program, Fire Management Assistance Grant Program, Crisis Counseling Assistance and Training Grant Program, Disaster Case Management Grant Program, and Federal Assistance to Individuals and Households – Other Needs Assistance Grant Program, as

FEMA awards under these programs do not meet the definition of “funding agreement.”

- (2) If the FEMA award meets the definition of “funding agreement” under 37 C.F.R. § 401.2(a) and the non-Federal entity wishes to enter into a contract with a small business firm or nonprofit organization regarding the substitution of parties, assignment or performance of experimental, developmental, or research work under that “funding agreement,” the non-Federal entity must comply with the requirements of 37 C.F.R. Part 401 (Rights to Inventions Made by Nonprofit Organizations and Small Business Firms Under Government Grants, Contracts and Cooperative Agreements), and any implementing regulations issued by FEMA. See 2 C.F.R. Part 200, Appendix II, ¶ F.
 - (3) The regulation at 37 C.F.R. § 401.2(a) currently defines “funding agreement” as any contract, grant, or cooperative agreement entered into between any Federal agency, other than the Tennessee Valley Authority, and any contractor for the performance of experimental, developmental, or research work funded in whole or in part by the Federal government. This term also includes any assignment, substitution of parties, or subcontract of any type entered into for the performance of experimental, developmental, or research work under a funding agreement as defined in the first sentence of this paragraph.
7. Clean Air Act and the Federal Water Pollution Control Act. Contracts of amounts in excess of \$150,000 must contain a provision that requires the contractor to agree to comply with all applicable standards, orders, or regulations issued pursuant to the Clean Air Act (42 U.S.C. §§ 7401-7671q) and the Federal Water Pollution Control Act as amended (33 U.S.C. §§ 1251-1387). Violations must be reported to FEMA and the Regional Office of the Environmental Protection Agency. See 2 C.F.R. Part 200, Appendix II, ¶ G.

- (1) The following provides a sample contract clause concerning compliance for contracts of amounts in excess of \$150,000:

“Clean Air Act

- (1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Clean Air Act, as amended, 42 U.S.C. § 7401 et seq.
- (2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.
- (3) The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.

Federal Water Pollution Control Act

- (1) The contractor agrees to comply with all applicable standards, orders or regulations issued pursuant to the Federal Water Pollution Control Act, as amended, 33 U.S.C. 1251 et seq.
- (2) The contractor agrees to report each violation to the (name of the state agency or local or Indian tribal government) and understands and agrees that the (name of the

state agency or local or Indian tribal government) will, in turn, report each violation as required to assure notification to the (name of recipient), Federal Emergency Management Agency, and the appropriate Environmental Protection Agency Regional Office.

- (3) The contractor agrees to include these requirements in each subcontract exceeding \$150,000 financed in whole or in part with Federal assistance provided by FEMA.”

8. Debarment and Suspension.

- (1) Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- (2) Non-federal entities and contractors are subject to the debarment and suspension regulations implementing Executive Order 12549, *Debarment and Suspension* (1986) and Executive Order 12689, *Debarment and Suspension* (1989) at 2 C.F.R. Part 180 and the Department of Homeland Security’s regulations at 2 C.F.R. Part 3000 (Non procurement Debarment and Suspension).
- (3) These regulations restrict awards, subawards, and contracts with certain parties that are debarred, suspended, or otherwise excluded from or ineligible for participation in Federal assistance programs and activities. See 2 C.F.R. Part 200, Appendix II, ¶ H; and *Procurement Guidance for Recipients and Subrecipients Under 2 C.F.R. Part 200 (Uniform Rules): Supplement to the Public Assistance Procurement Disaster Assistance Team (PDAT) Field Manual* Chapter IV, ¶ 6.d, and Appendix C, ¶ 2 [hereinafter *PDAT Supplement*]. A contract award must not be made to parties listed in the SAM Exclusions. SAM Exclusions is the list maintained by the General Services Administration that contains the names of parties debarred, suspended, or otherwise excluded by agencies, as well as parties declared ineligible under statutory or regulatory authority other than Executive Order 12549. SAM exclusions can be accessed at www.sam.gov. See 2 C.F.R. § 180.530; *PDAT Supplement*, Chapter IV, ¶ 6.d and Appendix C, ¶ 2.
- (4) In general, an “excluded” party cannot receive a Federal grant award or a contract within the meaning of a “covered transaction,” to include subawards and subcontracts. This includes parties that receive Federal funding indirectly, such as contractors to recipients and subrecipients. The key to the exclusion is whether there is a “covered transaction,” which is any non-procurement transaction (unless excepted) at either a “primary” or “secondary” tier. Although “covered transactions” do not include contracts awarded by the Federal Government for purposes of the non-procurement common rule and DHS’s implementing regulations, it does include some contracts awarded by recipients and subrecipient.
- (5) Specifically, a covered transaction includes the following contracts for goods or services:
 - (1) The contract is awarded by a recipient or subrecipient in the amount of at least \$25,000.
 - (2) The contract requires the approval of FEMA, regardless of amount.
 - (3) The contract is for federally required audit services.
 - (4) A subcontract is also a covered transaction if it is awarded by the contractor of a recipient or subrecipient and requires either the approval of FEMA or is in excess of \$25,000.

- d. The following provides a debarment and suspension clause. It incorporates an optional method of verifying that contractors are not excluded or disqualified:

“Suspension and Debarment

- (1) This contract is a covered transaction for purposes of 2 C.F.R. pt. 180 and 2 C.F.R. pt. 3000. As such the contractor is required to verify that none of the contractor, its principals (defined at 2 C.F.R. § 180.995), or its affiliates (defined at 2 C.F.R. § 180.905) are excluded (defined at 2 C.F.R. § 180.940) or disqualified (defined at 2 C.F.R. § 180.935).
- (2) The contractor must comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C and must include a requirement to comply with these regulations in any lower tier covered transaction it enters into.
- (3) This certification is a material representation of fact relied upon by (insert name of subrecipient). If it is later determined that the contractor did not comply with 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C, in addition to remedies available to (name of state agency serving as recipient and name of subrecipient), the Federal Government may pursue available remedies, including but not limited to suspension and/or debarment.
- (4) The bidder or proposer agrees to comply with the requirements of 2 C.F.R. pt. 180, subpart C and 2 C.F.R. pt. 3000, subpart C while this offer is valid and throughout the period of any contract that may arise from this offer. The bidder or proposer further agrees to include a provision requiring such compliance in its lower tier covered transactions.”

9. Byrd Anti-Lobbying Amendment.

- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.
- b. Contractors that apply or bid for an award of \$100,000 or more must file the required certification. See 2 C.F.R. Part 200, Appendix II, ¶ I; 44 C.F.R. Part 18; *PDAT Supplement*, Chapter IV, 6.c; Appendix C, ¶ 4.
- c. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant or any other award covered by 31 U.S.C. § 1352. Each tier must also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the non-Federal award. See *PDAT Supplement*, Chapter IV, ¶ 6.c and Appendix C, ¶ 4.
- d. The following provides a Byrd Anti-Lobbying contract clause:

"Byrd Anti-Lobbying Amendment, 31 U.S.C. § 1352 (as amended)"

Contractors who apply or bid for an award of \$100,000 or more shall file the required certification. Each tier certifies to the tier above that it will not and has not used Federal appropriated funds to pay any person or organization for influencing or attempting to influence an officer or employee of any agency, a member of Congress, officer or employee of Congress, or an employee of a member of Congress in connection with obtaining any Federal contract, grant, or any other award covered by 31 U.S.C. § 1352. Each tier shall also disclose any lobbying with non-Federal funds that takes place in connection with obtaining any Federal award. Such disclosures are forwarded from tier to tier up to the recipient."

APPENDIX A, 44 C.F.R. PART 18 – CERTIFICATION REGARDING LOBBYING

Certification for Contracts, Grants, Loans, and Cooperative Agreements (To be submitted with each bid or offer exceeding \$100,000) The undersigned [Contractor] certifies, to the best of his or her knowledge, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form- LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.
3. The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by 31, U.S.C. § 1352 (as amended by the Lobbying Disclosure Act of 1995). Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

The Contractor, Xerox Corporation, certifies or affirms the truthfulness and accuracy of each statement of its certification and disclosure, if any. 10. Procurement of Recovered Materials.

- a. Applicability: This requirement applies to all FEMA grant and cooperative agreement programs.

No. 89-272 (1965) (codified as amended by the Resource Conservation and Recovery Act at 42 U.S.C. § 6962). See 2 C.F.R. Part 200, Appendix II, ¶ J; 2 C.F.R. § 200.322; PDAT Supplement, Chapter V, ¶ 7.
- c. The requirements of Section 6002 include procuring only items designated in guidelines of the EPA at 40 C.F.R. 11. Additional FEMA Requirements.

- a. The Uniform Rules authorize FEMA to require additional provisions for non-Federal entity contracts. FEMA, pursuant to this authority, requires or recommends the following:
- b. Changes.

To be eligible for FEMA assistance under the non-Federal entity's FEMA grant or cooperative agreement, the cost of the change, modification, change order, or constructive change must be allowable, allocable, within the scope of its grant or cooperative agreement, and reasonable for the completion of project scope. FEMA recommends, therefore, that a non-Federal entity include a changes clause in its contract that describes how, if at all, changes can be made by either party to alter the method, price, or schedule of the work without breaching the contract. The language of the clause may differ depending on the nature of the contract and the end-item procured.

c. Access to Records.

All non-Federal entities must place into their contracts a provision that all contractors and their successors, transferees, assignees, and subcontractors acknowledge and

d. The following provides a contract clause regarding access to records:

“Access to Records. The following access to records requirements apply to this contract:

(2) The Contractor agrees to permit any of the foregoing parties to reproduce by any means whatsoever or to copy excerpts and transcriptions as reasonably needed.

(3) The contractor agrees to provide the FEMA Administrator or his authorized representatives access to construction or other work sites pertaining to the work being completed under the contract.”

12. DHS Seal, Logo, and Flags.

a. All non-Federal entities must place in their contracts a provision that a contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre-approval. See DHS Standard Terms and Conditions, v 3.0, ¶ XXV (2013).

b. The following provides a contract clause regarding DHS Seal, Logo, and Flags: “The contractor shall not use the DHS seal(s), logos, crests, or reproductions of flags or likenesses of DHS agency officials without specific FEMA pre- approval.”

13. Compliance with Federal Law, Regulations, and Executive Orders.

a. All non-Federal entities must place into their contracts an acknowledgement that FEMA financial assistance will be used to fund the contract along with the requirement that the contractor will comply with all applicable federal law, regulations, executive orders, and FEMA policies, procedures, and directives.

b. The following provides a contract clause regarding Compliance with Federal Law, Regulations, and Executive Orders: “This is an acknowledgement that FEMA financial assistance will be used to fund the contract only. The contractor will comply with all applicable federal law, regulations, executive orders, FEMA policies, procedures, and directives.”

14. No Obligation by Federal Government.

- a. The non-Federal entity must include a provision in its contract that states that the Federal Government is not a party to the contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract.
- b. The following provides a contract clause regarding no obligation by the Federal Government: "The Federal Government is not a party to this contract and is not subject to any obligations or liabilities to the non-Federal entity, contractor, or any other party pertaining to any matter resulting from the contract."

15. Program Fraud and False or Fraudulent Statements or Related Acts.

- a. The non-Federal entity must include a provision in its contract that the contractor acknowledges that 31 U.S.C. Chap. 38 (Administrative Remedies for False Claims and Statements) applies to its actions pertaining to the contract.

Additional contract clauses per 2 C.F.R. § 200.325

For applicable construction/reconstruction/renovation and related services: A payment and performance bond are both required for 100 percent of the contract price. A "performance bond" is one executed in connection with a contract to secure fulfillment of all the contractor's obligations under such contract. DEFINITIONS

Contract means a legal instrument by which a non-Federal entity purchases property or services needed to carry out the project or program under a Federal award. The term as used in this part does not include a legal instrument, even if the non-Federal entity considers it a contract, when the substance of the transaction meets the definition of a Federal award or subaward

Contractor means an entity that receives a contract as defined in Contract.

Cooperative agreement means a legal instrument of financial assistance between a Federal awarding agency or pass-through entity and a non-Federal entity that, consistent with 31 U.S.C. 6302-6305:

- (a) Is used to enter into a relationship the principal purpose of which is to transfer anything of value from the Federal awarding agency or pass-through entity to the non-Federal entity to carry out a public purpose authorized by a law of the United States (see 31 U.S.C. 6101(3)); and not to acquire property or services for the Federal government or pass-through entity's direct benefit or use;
- (b) Is distinguished from a grant in that it provides for substantial involvement between the Federal awarding agency or pass-through entity and the non-Federal entity in carrying out the activity contemplated by the Federal award.
- (c) The term does not include:
 - (1) A cooperative research and development agreement as defined in 15 U.S.C. 3710a; or
 - (2) An agreement that provides only:
 - (i) Direct United States Government cash assistance to an individual;
 - (ii) A subsidy;
 - (iii) A loan;
 - (iv) A loan guarantee; or
 - (v) Insurance.

Federal awarding agency means the Federal agency that provides a Federal award directly to a non-Federal entity

Federal award has the meaning, depending on the context, in either paragraph (a) or (b) of this section:

- (a)(1) The Federal financial assistance that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability; or
- (2) The cost-reimbursement contract under the Federal Acquisition Regulations that a non-Federal entity receives directly from a Federal awarding agency or indirectly from a pass-through entity, as described in § 200.101 Applicability.
- (b) The instrument setting forth the terms and conditions. The instrument is the grant agreement, cooperative agreement, other agreement for assistance covered in paragraph (b) of § 200.40 Federal financial assistance, or the cost-reimbursement contract awarded under the Federal Acquisition Regulations.
- (c) Federal award does not include other contracts that a Federal agency uses to buy goods or services from a contractor or a contract to operate Federal government owned, contractor operated facilities (GOCOs).
- (d) See also definitions of Federal financial assistance, grant agreement, and cooperative agreement.

Non-Federal entity means a state, local government, Indian tribe, institution of higher education (IHE), or nonprofit organization that carries out a Federal award as a recipient or subrecipient.

Nonprofit organization means any corporation, trust, association, cooperative, or other organization, not including IHEs, that:

- (a) Is operated primarily for scientific, educational, service, charitable, or similar purposes in the public interest;

- (b) Is not organized primarily for profit; and
- (c) Uses net proceeds to maintain, improve, or expand the operations of the organization.

Obligations means, when used in connection with a non-Federal entity's utilization of funds under a Federal award, orders placed for property and services, contracts and subawards made, and similar transactions during a given period that require payment by the non-Federal entity during the same or a future period.

Pass-through entity means a non-Federal entity that provides a subaward to a subrecipient to carry out part of a Federal program.

Recipient means a non-Federal entity that receives a Federal award directly from a Federal awarding agency to carry out an activity under a Federal program. The term recipient does not include subrecipients.

Simplified acquisition threshold means the dollar amount below which a non-Federal entity may purchase property or services using small purchase methods. Non-Federal entities adopt small purchase procedures in order to expedite the purchase of items costing less than the simplified acquisition threshold. The simplified acquisition threshold is set by the Federal Acquisition Regulation at 48 CFR Subpart 2.1 (Definitions) and in accordance with 41 U.S.C. 1908. As of the publication of this part, the simplified acquisition threshold is \$150,000, but this threshold is periodically adjusted for inflation. (Also see definition of § 200.67 Micro-purchase.)

Subaward means an award provided by a pass-through entity to a subrecipient for the subrecipient to carry out part of a Federal award received by the pass-through entity. It does not include payments to a contractor or payments to an individual that is a beneficiary of a Federal program. A subaward may be provided through any form of legal agreement, including an agreement that the pass-through entity considers a contract.

Subrecipient means a non-Federal entity that receives a subaward from a pass-through entity to carry out part of a Federal program; but does not include an individual that is a beneficiary of such program. A subrecipient may also be a recipient of other Federal awards directly from a Federal awarding agency.

Termination means the ending of a Federal award, in whole or in part at any time prior to the planned end of period of performance.

Xerox Corporation
JOINT PROXY STATEMENT/PROSPECTUS
YOUR VOTE IS VERY IMPORTANT

Dear Shareholders:

You are cordially invited to attend the 2019 Annual Meeting of Shareholders of Xerox Corporation (Xerox), to be held at 9:00 a.m. on Tuesday, May 21, 2019, at 301 Merritt 7 in Norwalk, Connecticut. We look forward to meeting our shareholders who are able to attend.

At the Annual Meeting, you will be asked to consider and vote upon proposals to: (i) adopt the merger agreement pursuant to which we will implement a holding company reorganization; (ii) elect seven directors to our board of directors; (iii) ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2019; (iv) approve, on an advisory basis, the 2018 compensation of our named executive officers; (v) authorize the amendment of the Xerox restated certificate of incorporation to implement a majority voting standard for certain corporate actions; and (vi) authorize the adjournment of the Annual Meeting, if necessary, to solicit additional proxies if there are not sufficient votes to approve the foregoing proposals, in each case as described in the accompanying joint proxy statement/prospectus. There will also be one shareholder proposal submitted for shareholder vote, if properly presented.

This year, we are asking you to approve a proposal to implement a holding company structure for Xerox. We regularly evaluate a range of possible strategic growth opportunities for our company. We believe implementation of a holding company structure will provide us with more flexibility to develop and realize these possibilities. By providing optionality for future innovation, investment and growth opportunities to exist either within or separate from current Xerox businesses, we believe that the holding company reorganization is an important step in reestablishing Xerox as a technology powerhouse with a robust portfolio of hardware, software, solutions and services, while preserving our existing customer, partner, vendor and supplier relationships. The holding company structure is intended to provide us with optionality to potentially acquire and incubate future businesses through subsidiaries that can operate on a global scale, with the flexibility to finance and structure each new opportunity in a manner that we believe will create value, while also maintaining — and continuing investment in — the existing Xerox product and technology platforms. We have carefully considered the holding company reorganization and believe it is advisable, fair to and in the best interests of our shareholders.

If the holding company reorganization is completed, your existing shares of Xerox common stock will be automatically converted, on a one-for-one basis, into shares of common stock of Xerox Holdings Corporation (Holdings), the new holding company. As a result, you will hold the same number of shares of Holdings common stock as you held of Xerox common stock immediately before the holding company reorganization. We expect the common stock of Holdings to trade on the New York Stock Exchange under Xerox's current trading symbol, "XRX."

Additionally, as a result of our shareholder engagement efforts and our commitment to corporate governance, we are asking you to approve a proposal to amend the Xerox restated certificate of incorporation to implement a majority voting standard for certain corporate actions which currently require a supermajority vote. We recognize that many shareholders believe that a majority voting requirement will provide shareholders with a greater voice in expressing their views on matters impacting Xerox.

Confident in the future direction and strategy of the Company, directors Greg Brown and Sara Martinez Tucker have decided not to stand for reelection to the Board. We thank them for their many significant contributions over the years.

Our Board unanimously recommends that you vote "FOR" the adoption of the merger agreement, "FOR" all nominees for director, "FOR" ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2019, "FOR" the non-binding executive compensation proposal, "FOR" the majority voting standard proposal, and "FOR" the adjournment proposal. Our Board makes no recommendation on the shareholder proposal regarding a simple majority vote requirement.

Your vote is important — no matter how many or how few shares you may own. Whether or not you plan to attend the Annual Meeting, please vote your shares as soon as possible. You may vote via the Internet, by telephone or by signing, dating and mailing the enclosed proxy card. Specific instructions for shareholders of record who wish to use Internet or telephone voting procedures are included in the enclosed joint proxy statement/prospectus. Any shareholder attending the Annual Meeting may vote in person even if a proxy has been returned.

The accompanying notice of meeting and this joint proxy statement/prospectus provide specific information about the Annual Meeting and explain the various proposals. Please read these materials carefully. **In particular, you should consider the discussion of risk factors beginning on page 18 before voting on the proposal to adopt the merger agreement pursuant to which we will implement the holding company reorganization.**

Thank you for your continued support of Xerox.
For the Board of Directors,

Keith Cozza
Chairman of the Board

Giovanni ("John") Visentin
Vice Chairman and Chief Executive Officer

Appendix D: Exhibit G - DOC #4 Political Contribution Disclosure Form

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Public Agency Instructions

This page provides guidance to public agencies entering into contracts with business entities that are required to file Political Contribution Disclosure forms with the agency. **It is not intended to be provided to contractors.** What follows are instructions on the use of form local units can provide to contractors that are required to disclose political contributions pursuant to N.J.S.A. 19:44A-20.26 (P.L. 2005, c. 271, s.2). Additional information on the process is available in Local Finance Notice 2006-1 (http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). Please refer back to these instructions for the appropriate links, as the Local Finance Notices include links that are no longer operational.

1. The disclosure is required for all contracts in excess of \$17,500 that are **not awarded** pursuant to a “fair and open” process (N.J.S.A. 19:44A-20.7).
2. Due to the potential length of some contractor submissions, the public agency should consider allowing data to be submitted in electronic form (i.e., spreadsheet, pdf file, etc.). Submissions must be kept with the contract documents or in an appropriate computer file and be available for public access. **The form is worded to accept this alternate submission.** The text should be amended if electronic submission will not be allowed.
3. The submission must be **received from the contractor and** on file at least 10 days prior to award of the contract. Resolutions of award should reflect that the disclosure has been received and is on file.
4. The contractor must disclose contributions made to candidate and party committees covering a wide range of public agencies, including all public agencies that have elected officials in the county of the public agency, state legislative positions, and various state entities. The Division of Local Government Services recommends that contractors be provided a list of the affected agencies. This will assist contractors in determining the campaign and political committees of the officials and candidates affected by the disclosure.
 - a. The Division has prepared model disclosure forms for each county. They can be downloaded from the “County PCD Forms” link on the Pay-to-Play web site at <http://www.nj.gov/dca/divisions/dlgs/programs/lpcl.html#12>. They will be updated from time-to-time as necessary.
 - b. A public agency using these forms **should edit them to properly reflect the correct legislative district(s)**. As the forms are county-based, **they list all legislative districts** in each county. **Districts that do not represent the public agency should be removed from the lists.**
 - c. Some contractors may find it easier to provide a single list that covers all contributions, regardless of the county. These submissions are appropriate and should be accepted.
 - d. The form may be used “as-is”, subject to edits as described herein.
 - e. The “Contractor Instructions” sheet is intended to be provided with the form. It is recommended that the Instructions and the form be printed on the same piece of paper. The form notes that the Instructions are printed on the back of the form; where that is not the case, the text should be edited accordingly.
 - f. The form is a Word document and can be edited to meet local needs, and posted for download on web sites, used as an e-mail attachment, or provided as a printed document.
5. It is recommended that the contractor also complete a “Stockholder Disclosure Certification.” This will assist the local unit in its obligation to ensure that contractor did not make any prohibited contributions to the committees listed on the Business Entity Disclosure Certification in the 12 months prior to the contract (See Local Finance Notice 2006-7 for additional information on this obligation at http://www.nj.gov/dca/divisions/dlgs/resources/lfns_2006.html). A sample Certification form is part of this package and the instruction to complete it is included in the Contractor Instructions. NOTE: This section is not applicable to Boards of Education.

C. 271 POLITICAL CONTRIBUTION DISCLOSURE FORM

Contractor Instructions

Business entities (contractors) receiving contracts from a public agency that are NOT awarded pursuant to a "fair and open" process (defined at N.J.S.A. 19:44A-20.7) are subject to the provisions of P.L. 2005, c. 271, s.2 (N.J.S.A. 19:44A-20.26). This law provides that 10 days prior to the award of such a contract, the contractor shall disclose contributions to:

- any State, county, or municipal committee of a political party
- any legislative leadership committee*
- any continuing political committee (a.k.a., political action committee)
- any candidate committee of a candidate for, or holder of, an elective office:
 - of the public entity awarding the contract
 - of that county in which that public entity is located
 - of another public entity within that county
 - or of a legislative district in which that public entity is located or, when the public entity is a county, of any legislative district which includes all or part of the county

The disclosure must list reportable contributions to any of the committees that exceed \$300 per election cycle that were made during the 12 months prior to award of the contract. See N.J.S.A. 19:44A-8 and 19:44A-16 for more details on reportable contributions.

N.J.S.A. 19:44A-20.26 itemizes the parties from whom contributions must be disclosed when a business entity is not a natural person. This includes the following:

- individuals with an "interest" ownership or control of more than 10% of the profits or assets of a business entity or 10% of the stock in the case of a business entity that is a corporation for profit
- all principals, partners, officers, or directors of the business entity or their spouses
- any subsidiaries directly or indirectly controlled by the business entity
- IRS Code Section 527 New Jersey based organizations, directly or indirectly controlled by the business entity and filing as continuing political committees, (PACs).

When the business entity is a natural person, "a contribution by that person's spouse or child, residing therewith, shall be deemed to be a contribution by the business entity." [N.J.S.A. 19:44A-20.26(b)] The contributor must be listed on the disclosure.

Any business entity that fails to comply with the disclosure provisions shall be subject to a fine imposed by ELEC in an amount to be determined by the Commission which may be based upon the amount that the business entity failed to report.

The enclosed list of agencies is provided to assist the contractor in identifying those public agencies whose elected official and/or candidate campaign committees are affected by the disclosure requirement. It is the contractor's responsibility to identify the specific committees to which contributions may have been made and need to be disclosed. The disclosed information may exceed the minimum requirement.

The enclosed form, a content-consistent facsimile, or an electronic data file containing the required details (along with a signed cover sheet) may be used as the contractor's submission and is disclosable to the public under the Open Public Records Act.

The contractor must also complete the attached Stockholder Disclosure Certification. This will assist the agency in meeting its obligations under the law. **NOTE: This section does not apply to Board of Education contracts.**

* N.J.S.A. 19:44A-3(s): "The term "legislative leadership committee" means a committee established, authorized to be established, or designated by the President of the Senate, the Minority Leader of the Senate, the Speaker of the General Assembly or the Minority Leader of the General Assembly pursuant to section 16 of P.L.1993, c.65 (C.19:44A-10.1) for the purpose of receiving contributions and making expenditures."

Xerox Corporation
JOINT PROXY STATEMENT/PROSPECTUS
YOUR VOTE IS VERY IMPORTANT

Dear Shareholders:

You are cordially invited to attend the 2019 Annual Meeting of Shareholders of Xerox Corporation (Xerox), to be held at 9:00 a.m. on Tuesday, May 21, 2019, at 301 Merritt 7 in Norwalk, Connecticut. We look forward to meeting our shareholders who are able to attend.

At the Annual Meeting, you will be asked to consider and vote upon proposals to: (i) adopt the merger agreement pursuant to which we will implement a holding company reorganization; (ii) elect seven directors to our board of directors; (iii) ratify the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2019; (iv) approve, on an advisory basis, the 2018 compensation of our named executive officers; (v) authorize the amendment of the Xerox restated certificate of incorporation to implement a majority voting standard for certain corporate actions; and (vi) authorize the adjournment of the Annual Meeting, if necessary, to solicit additional proxies if there are not sufficient votes to approve the foregoing proposals, in each case as described in the accompanying joint proxy statement/prospectus. There will also be one shareholder proposal submitted for shareholder vote, if properly presented.

This year, we are asking you to approve a proposal to implement a holding company structure for Xerox. We regularly evaluate a range of possible strategic growth opportunities for our company. We believe implementation of a holding company structure will provide us with more flexibility to develop and realize these possibilities. By providing optionality for future innovation, investment and growth opportunities to exist either within or separate from current Xerox businesses, we believe that the holding company reorganization is an important step in reestablishing Xerox as a technology powerhouse with a robust portfolio of hardware, software, solutions and services, while preserving our existing customer, partner, vendor and supplier relationships. The holding company structure is intended to provide us with optionality to potentially acquire and incubate future businesses through subsidiaries that can operate on a global scale, with the flexibility to finance and structure each new opportunity in a manner that we believe will create value, while also maintaining — and continuing investment in — the existing Xerox product and technology platforms. We have carefully considered the holding company reorganization and believe it is advisable, fair to and in the best interests of our shareholders.

If the holding company reorganization is completed, your existing shares of Xerox common stock will be automatically converted, on a one-for-one basis, into shares of common stock of Xerox Holdings Corporation (Holdings), the new holding company. As a result, you will hold the same number of shares of Holdings common stock as you held of Xerox common stock immediately before the holding company reorganization. We expect the common stock of Holdings to trade on the New York Stock Exchange under Xerox's current trading symbol, "XRX."

Additionally, as a result of our shareholder engagement efforts and our commitment to corporate governance, we are asking you to approve a proposal to amend the Xerox restated certificate of incorporation to implement a majority voting standard for certain corporate actions which currently require a supermajority vote. We recognize that many shareholders believe that a majority voting requirement will provide shareholders with a greater voice in expressing their views on matters impacting Xerox.

Confident in the future direction and strategy of the Company, directors Greg Brown and Sara Martinez Tucker have decided not to stand for reelection to the Board. We thank them for their many significant contributions over the years.

Our Board unanimously recommends that you vote "FOR" the adoption of the merger agreement, "FOR" all nominees for director, "FOR" ratification of the appointment of PricewaterhouseCoopers LLP as our independent registered public accounting firm for 2019, "FOR" the non-binding executive compensation proposal, "FOR" the majority voting standard proposal, and "FOR" the adjournment proposal. Our Board makes no recommendation on the shareholder proposal regarding a simple majority vote requirement.

Your vote is important — no matter how many or how few shares you may own. Whether or not you plan to attend the Annual Meeting, please vote your shares as soon as possible. You may vote via the Internet, by telephone or by signing, dating and mailing the enclosed proxy card. Specific instructions for shareholders of record who wish to use Internet or telephone voting procedures are included in the enclosed joint proxy statement/prospectus. Any shareholder attending the Annual Meeting may vote in person even if a proxy has been returned.

The accompanying notice of meeting and this joint proxy statement/prospectus provide specific information about the Annual Meeting and explain the various proposals. Please read these materials carefully. **In particular, you should consider the discussion of risk factors beginning on page 18 before voting on the proposal to adopt the merger agreement pursuant to which we will implement the holding company reorganization.**

Thank you for your continued support of Xerox.
For the Board of Directors,

Keith Cozza
Chairman of the Board

Giovanni ("John") Visentin
Vice Chairman and Chief Executive Officer
