1. Objective: Is to obtain critical information about Rocking services such as:
 - a. Pricing
 - b. Current Market Demand

Current Vendor: K&T Installers, LLC

\$11.87 per Ton

Currently, the cost to buy the crushed rock averages about \$13.00 per ton. The current bid price is \$11.87 per ton.

Due to new construction projects, rising gas prices and increase in cost of equipment, the prices to crush the rocks into stones to be used at the Landfill has increased.
