Results Summary	Four (4) responses were received by the deadline. Other than the four (4) respondents, only the vendors above did the following and provided a non-response justification: attended the Non-Mandatory DeKalb First LSBE Meeting and/or the Non-Mandatory Pre-Proposal Conference for RFP 18-500505 without identifying themselves as potential subcontractors at that time. Survey results indicate that sufficient time was granted, but vendors generally made business decisions not to respond as Primes.
