Supplement No. C00H62811

Lessor and DEKALB COUNTY (Lessee) agree that for the purposes of the referenced Supplement only, the Term Lease Master Agreement between the parties, as may be amended by the parties from time to time, is hereby modified as follows:

For the Modification listed on the Supplement the Term Lease Master Agreement is hereby modified.

Paragraph entitled - Modification to a Machine Not Owned by Lessor - is a new paragraph which reads as follows:

"The Equipment which is the subject of this Lease is an IBM supplied Modification to a machine or machines which are owned by Lessee (Base Machine). Lessee agrees that the Base Machine will be altered by the installation of the Modification. The Base Machine and the Modification taken together shall be referred to as the 'New Machine'. Lessee represents and warrants that there are and will be no liens or other security or ownership interest in the Base Machine and that entering into and performing under this Agreement does not constitute a breach of, or is inconsistent with the terms of, any other agreement concerning the Base Machine to which Lessee is a party or by which the Lessee is bound."

Paragraph 24 - Leases for Modifications and Additions - after the first sentence add the following:

"However, the fact that the Base Machine is not owned by Lessor may be deemed by Lessor, in Lessor's sole discretion, to limit or preclude Lessor from arranging for leasing of subsequent Modifications to the New Machine."

Paragraph 25 - Return of Equipment - replace the first sentence with the following: "Lessee acknowledges that inasmuch as the Modification modifies a Base Machine and the Modification cannot be separated from the Base Machine, accordingly, the Modification cannot be returned to the Lessor; provided, however, upon demand by Lessor pursuant to Paragraph 38, Lessee shall promptly return the Equipment, including the Base Machine, freight prepaid, to a location in the contiguous United States specified by Lessor."

Paragraph 37 - Default, No Waiver - after the first paragraph add the following:

"Lessee shall be in default if there is any interference with or disturbance to Lessor's rights to, interests in, or benefits from the Modification to the Base Machine(Loss). Such Losses shall include, without limitation, conversion of the Modification, ownership disputes with respect to the New Machine or Modification, removal or seizure of the Modification or New Machine, breach of any representation or covenant by Lessee as to the absence of liens or any other interest of third parties with respect to the Modification, bankruptcy or insolvency of any third party lessor who has upgraded machines subject to this Lease or of any owner of the Base Machine or any upgrade or other modification thereof, or other judicial process or any other interference or disturbance of Lessor's right, title or interest in the Modification."

Paragraph 38- Remedies - after the second sentence add the following:

"Inasmuch as the Modification modifies the Base Machine and cannot be removed, it is agreed by Lessee that any repossession occurring under (d) above will include the Base Machine and Lessee shall indemnify Lessor and hold Lessor harmless for its actions pursuant to Paragraph 38."

All capitalized terms not defined in this Supplement have the meanings ascribed to them in the IBM Customer Agreement (or equivalent master agreement) in effect between Customer and IBM and referenced above (the "Agreement") or in the IBM License Agreement for Machine Code. To the extent of any conflict between the definitions of the Agreement and the IBM License Agreement for Machine Code, the definitions in the IBM License Agreement for Machine Code prevail.

2. Additional Terms and Conditions

2.1 Purchases

This Supplement is a Transaction Document under the terms of the Agreement and confirms Customer's order to acquire the Machine(s) and Upgrade(s) specified above. This Supplement confirms Customer's order to acquire the specified Machine(s).

2.2 Code

Certain Machines may contain Machine Code (which term is interchangeable with Licensed Internal Code) and may also contain OILC. The following IBM link identifies whether a Machine acquired pursuant to this Supplement contains Machine Code and/or OILC:
http://www.ibm.com/servers/support/machine_warranties/support_by_product.html

2.3 Authorization for Machine Code

Machine Code is licensed under, and Customer's use is governed by, the terms of the applicable IBM License Agreement for Machine Code provided at http://www.ibm.com/servers/support/machine_warranties/support_by_product.html, and which is here by incorporated by reference into this Supplement. Customer acknowledges that if the Authorized Built-in Capacity is less than the Built-in Capacity of the Covered Machine, Customer is paying a lower purchase price for the Covered Machine and may pay lower charges for other IBM Products, including without limitation, Programs, and Services because its right to use the Machine Code is limited as provided in the IBM License Agreement for Machine Code.

2.4 Authorization for Other Internal Licensed Code

OILC is licensed under, and Customer's use is governed by, the terms of the applicable license agreement(s) for such OILC provided at http://www.ibm.com/servers/support/machine_warranties/support_by_product.html, which are hereby incorporated by reference into this Supplement.

2.5 Incorporated Information

All terms and conditions incorporated by reference into this Supplement have been reviewed by each party, agreed to, and are enforceable between the parties. As a convenience to Customer, IBM will, at Customer's request, provide a reference copy of all terms incorporated into this Supplement at the time of signing this Supplement. To the extent of any conflict between the terms of this Supplement and such incorporated terms, the following order of precedence applies with respect to such conflict: (i) terms of the applicable license for Machine Code or OILC, (ii) the terms of the AUT, and (iii) the terms of this Supplement.

2.6 Risk of Loss

For each Machine (and Upgrade, as applicable) IBM bears the risk of loss or damage up to the time it is delivered to the IBM-designated carrier for shipment to Customer or Customer's designated location. Thereafter, Customer assumes the risk. Each Machine (and Upgrade, as applicable) will be covered by insurance, arranged and paid for by IBM for Customer, covering the period until it is delivered to Customer or Customer's designated location. For any loss or damage, Customer must i) report the loss or damage in writing to IBM within 10 business days of delivery and ii) follow the applicable claim procedure.

2.8 Additional Charges

Additional charges, such as transportation or special handling, apply if specified herein.

For a Machine that IBM is responsible to install, if the Machine is not made available for IBM to install within six months from shipment, installation will be subject to an installation charge.

2.10 No Homologation Certification

Unless IBM has specified otherwise in a Machine's published IBM announcement letter, the Machine is not certified for connection by any means to interfaces of public telecommunications networks. Certification may be required by law prior to making any such connection.

2.11 Environmental Notices

The IBM document repository accessible at http://www.ibm.com/servers/support/machine_warranties/support_by_product.html identifies and applicable Product-specific environmental notices.

2.12 Document Retention

Customer agrees to maintain a copy of this signed Supplement and provide a copy to IBM upon request.

2.13 Security

IBM may file a copy of this Supplement or other documents to perfect its purchase money security interest.

This Supplement, including terms incorporated by reference, and the Agreement are the complete agreement regarding this transaction for purchase of Machines and Upgrades, and replace all prior oral or written communications, representations, undertakings, warranties, promises, covenants, and commitments between Customer and IBM regarding this transaction. In entering into this Supplement, neither party is relying on any representation that is not specified in this Supplement, including terms incorporated by reference, or the Agreement.
