| Results Summary | Total of two (2) bids were received. Structural steel and other manufactured commodities are experiencing price fluctuations due to the economy. Due to the uncertainty of materials costs, this has caused some avoidance by known vendors. Bid opening date was extended (Addendum 1) in an attempt to identify more competitive bidding after Pre-Bid meeting and site visit was performed. Was determined that extending the bid due date another week would yield no additional participation. Project is of a special industry and is limited on available and qualified vendors to perform this project. | | | | |
