RE: Request for DeKalb Funding Approval on Water Relocation – Mount Vernon at Tilly Mill Road

Dear Mr. Killingbeck,

DeKalb County Watershed Management has requested the inclusion of a water line improvement project as part of the City's Mount Vernon at Tilly Mill Road project. Currently, this project is in the final design phase, with construction scheduled to commence in Winter/Spring 2026.

In accordance with the Intergovernmental Agreement (IGA) dated February 27, 2017, "when the priorities of both the city and the county align for a planned road improvement alongside a Department of Watershed Management (DWM) upgrade or replacement project, the county is responsible for funding the design, construction management, and construction of the water distribution and/or wastewater collection main. The city will oversee the construction bidding process, while the county will provide the scope of work required for inclusion in the bid documents."

We kindly request a letter of funding approval regarding the aforementioned items. The city looks forward to the continued collaboration with DeKalb County to enhance the infrastructure for the citizens of the city of Dunwoody.

Sincerely,

A handwritten signature in blue ink, appearing to read "Michelle Hirose".
