TO: Phyllis Head, Procurement Manager – Purchasing & Contracting  
FROM: Angela Green, IT Business Officer – Innovation & Technology  
THROUGH: John Matelski, CIO/Director – Innovation & Technology  
SUBJECT: Cisco CommVault System Backup and Recovery Software  
DATE: July 20, 2020

The DeKalb County Department of Innovation and Technology is requesting that Purchasing and Contracting provide assistance in preparing an agenda item to purchase Cisco CommVault System Backup and System Recovery software. We need to expand and then integrate with our existing CommVault software – to ensure continuity of operations and disaster recovery capabilities.

DoIT solicited quotes from CDWG, SHI, and ProSys using the competitively bid State of Georgia software and services contract #99999-SPD-T20120501-0006 for the purchase. The quote includes software, hardware, and professional implementation services required to fully install, configure, and manage the system as necessary for our environment. DoIT recommends utilizing an all-inclusive lease of the system for a period of 5-years. The lease includes full license, support, maintenance, and services required to fully support the environment. The sole responsive responding provider is ProSys. The total annual lease amount is \$242,464.00 and the total lease amount is \$1,212,320.00.

The Information Technology Department requests that P&C submit an agenda item to the BOC at the earliest date possible to ensure BOC approval.

This request is funded through the DOIT operating, and optional years funding will be budgeted accordingly.

If additional information is required, please contact Angela Green (404-371-2374).
