| Results Summary | Two responses to this RFP were received by the deadline. The pool for potential Prime contractors was small. Other than the two respondents, only the vendor above attended the Mandatory Pre-Proposal Conference and Site Visit, plus at least one Mandatory DeKalb First LSBE Meeting for this specific project, and also identified itself as a potential Prime. Note that vendors were afforded an extension of the deadline for submittal of questions, drawings/plans were allowed to be taken home for review and the due date was extended. | | | |
