1. Martha Gross, 2855 Briarcliff Road, DeKalb County - Before the Board votes to give away hard earned tax payer monies to a high-end apartment project the Related Company is doing in Brookhaven, I want you all to question the economic development people about their motives and the alternatives. I hold a masters in Economic Development and have handled nearly \$2 Billion in commercial real estate over the years. The way economic development is traditionally used is to secure employment generators that other localities are competing to secure. Those coveted employment generators are expected to produce quality jobs that will boost the local economy with downstream spending from the employment income generated. Economic Development can also be used to stimulate development in an underserved area, with ample supply and weak demand – like parts of south and east DeKalb. Related Company tried to get the zoning they needed to develop in Unincorporated DeKalb. They felt the door was closed on them so they, along with the contiguous redevelopment parcels opted to annex into Brookhaven. There they got an unprecedented zoning density and did nothing to upgrade the roads outside of their newly annexed area, saying that is not their issue, but DeKalb County's to address. With the annexation into Brookhaven, we lost the TAD funds that should have been generated by such development and would have helped us upgrade the infrastructure.

Why on earth is DeKalb trying to give this developer our tax money AFTER they annexed into Brookhaven and got unprecedented density and other entitlements? Why reward entities who have already annex into Brookhaven, only to be rewarded with densities they could not obtain in Unincorporated DeKalb? I personally know several developers who would gladly do this project without that freebie. If not, then the market solution is a price reduction – not a bad thing, considering the seller has been a greedy slumlord whose illegal nightclubs have caused us great heartache. If the goal is to increase affordable housing, then look at one of the new projects, such as the vacant Whole Foods site, and work with the winning bidder to grant them the tax incentives and density they need to both create more affordable housing and prevent them from annexing into Brookhaven. Many of the developers looking at the site are already considering annexation, so THIS is the time to use some economic development leverage, not AFTER they annex into Brookhaven and get the densities they want.

2. Stephen Binney, (No Address) - Good Morning Commissioners, CEO Thurmond is an old style politician. During his time at the school board he isolated himself from the School Board members. Using his managers to bring his edicts to the Board for approval. Now that he is CEO of Dekalb County his management style has not changed. Mr Thurmond is even unwilling to appoint his member to the Charter Review Commission to evaluate Dekalb County's form of government. I believe his is the only appointed not yet made. With just one appointment the people of Dekalb County could have the ability to study if our current form of government has had any influence or our past and current problems. Suggesting changes that might enhance our County's ability to improve its governmental systems in the future. You and only you Mr Thurmond are standing in the way of this process. Why? Many old time politicians are too greedy or afraid to share their power once they get it. Are you scared or greedy Mr Thurmond? The most efficient type of government is one with transparency, one with open discussions, and where all opinions are desired and used to solve our current problems. I would think that CEO Thurmond would want to have meetings with the Commissioners on all critical issues, so that all parties would have a seat at the table and the responsibilities that go with the decisions made at that table. All thoughts must be fully considered even when the CEO has the final authority to make the final decision. Mr Thurmond did not even inform the commissioners that there was a problem with the TLAC system. When TLAC was started the CEO took all the credit, but when it failed, everyone had to own it. Having watched some of the committee meetings over the last couple of months, I want to thank Mr Rader, Mr Terry, and Ms

Cochran-Johnson for your efforts in trying to get more more cooperation between the CEO's office and the Commissioners and encourage the rest of the Commissions to join in your efforts. Or does \$2.5 million dollars in CARES act funds buy a Commissioner's loyalty? Zach Williams' explanation about DeKalb County's unique form of government not requiring the CEO to consult with Commissioners before sending down policy decisions or budget allocations is true but does not mean the CEO can't consult with the commissioners if he wanted to. All that is needed is a desire to want to do it. Item #2665, the 2021 Annual Action Plan from HUD, is a perfect example. In the recommended actions in spending the over \$8 million dollars you are asked to authorize the Chief Executive Officer to add any approved and cancel projects that are no longer feasible or needed; and authorize the transfer of funds from the set-aside fund on as needed basis to cover any approved listed projects. The CEO will have no responsibility to tell you if he is changing projects or moving money around. Perhaps ignorance is bliss. Thank you for your time and consideration,

3. Dr. Ed Williams, P.O. Box 361626 Decatur, Georgia 30036 - Good Morning Commissioners: My Name is Ed Williams, I have lived in unincorporated south DeKalb for over twenty years. I am the chair of the group Concerned Citizens for Effective Government. DeKalb County is the 4th largest county in Georgia, with a large majority African American population. What manner of leadership will the commission provide to move us forward? Thanks to the actions of the county and the state we survived the COVID-19 pandemic now the tax man is going to take our homes. At the end of June, many of us may be put out of our homes and apartments because the eviction and foreclosure moratorium will end that was put in place because of COVID-19. I received my tax bill for this year and it has increased by over 21 percent in one year. This cannot stand. I will certainly appeal my bill. I encourage everyone to appeal their property tax assessment. What is really going on? Has the commission lost touch with reality? How can people pay these higher taxes? Everyone did not get a sixty percent pay raise like the commission. What we need in this county are good-paying jobs, not more taxes. Instead, we are getting less and paying more. There seems to be a disconnect with reality. People are struggling to make ends meet. Is it the county policy to give out Girl Scout cookies and then increase our taxes? I support the Girl Scouts and their mission. I have purchased Girl Scout cookies in the past. How did the county without an announced competitive process to purchase the cookies make such a large purchase? What legal authority did the county use to waive the purchasing policy? Instead of the county using our tax dollars to buy forty thousand Girl Scout cookies, and to increase your salaries by 60 percent, the commission should buy tag readers and come up with a program to assist the homeowner associations and neighborhood watch programs to buy security cameras in their communities. What do citizens get in return for a 21% percent tax increase? More corruption with no-bid and rigged contracts, more dollars stores, more high-density townhomes, and inadequate water and sewer infrastructure to support the development, bloated school system with underachieving schools, fewer banks and fewer grocery stores, and more fast-food restaurants. The commission should reduce the millage rate so that our tax bill is the same as it was last year. The people cannot afford these tax increases and keep their homes. I ask the commission, what is going on? Thank you

4. Fran Mohr, 436 Greenridge Circle Stone Mountain - Commissioners: Regarding the zoning change on Northern Avenue in Clarkston, the Dial Heights subdivision and Northern Avenue neighbors have worked diligently since December 2020 to be responsible, involved, and reasonable advocates for our community and DeKalb County. In all meetings we consistently shared that we preferred the land in question to be protected and left as one of the last areas of greenspace in this community. We also asked that if the land were to be developed, it needed to be done in a responsible fashion that would lessen the impact on traffic and the

county's infrastructure and protect the environment as much as possible. After many months of meetings and collaboration on both sides, we were hoping to end this arduous process feeling we had come to a final consensus. We have received much support and time from our Commissioners and many county departments. We asked to be involved in the final discussions and crafting of the Conditions. We were not included; however, we were relieved to see many of our requests reflected in the Conditions document we received last Friday (July 9). Unfortunately, we learned yesterday afternoon (Monday, July 12) that we did not have the final version and several significant changes had been made impacting our requests. Many of the changes could have been discussed months ago instead of waiting until the last minute (less than 24 hours before your vote) when it was too late to discuss. As of the start of today's meeting, I still do not have the final version of Conditions being presented to you today. These actions do not support the trust, honesty, or transparency I expect and want from my county. Again, I had hoped to attend today's meeting feeling I had been part of a positive consensus. Instead, I am disappointed and feel more like a pawn caught in a DeKalb County checkmate. I hope this system and process will be improved for the citizens of DeKalb County.
