1. Stephen Binney, (No Address) Good Morning Commissioners, After the last public meeting we now know that the everybody gets along facade put forth by this commission is a lie. All of us know now there is a four to three divide among the commissioners. There is the Mike Thurmond side and the DeKalb County citizens side. As a result DeKalb County still has never had a Black Woman as Presiding Officer. Mr Bradshaw thanked everyone in the county for helping him during his two years as presiding officer except his deputy presiding officer, Lorraine Cochran-Johnson. If no one else will, I want to thank Ms Cochran-Johnson for her work as Deputy Presiding Officer over the last two years. Mr Bradshaw...There are some people who seem to hold the belief that the relationship between the Presiding Officer and the Board of Commissioners with the CEO should be inherently subservient, with a fantasy show playing out in a public meeting every Tuesday morning. I think that holding such a posture is short sighted, counterproductive, and frankly worthless. You are one part of the governing authority, and you should be working together for the benefit of all the DeKalb County citizens that you represent instead of working for the CEO. A new report from DeKalb County's independent internal auditor finds that the county's code enforcement office often takes over 400 hundred days to clear up citizen complaints. This new draft audit, following the last one in 2017, concludes that several operations problems discovered in 2017 haven't been corrected over the last four years, and new problems have been found. Uncorrected problems from 2017 included a promise of a 90-day plan to ensure that workers were properly documenting and investigating complaints. In the draft audit completed last month, 825 cases sampled by auditors remained open for an average of 489 days and 64% of inspections sampled were not completed within 72 hours as required. The most disturbing finding to me however is that no code enforcement employees have received performance evaluations for 10 years. Will it take 300 to 400 citizens showing up at Maloof Auditorium complaining before you fix this like it did with our water bills. Speaking of Maloof Auditorium, I see under Item#3534 you will be considering spending \$1.7 million dollars for the renovation of said auditorium. During last week's committee meeting Ms Davis-Johnson requested a private entrance be included so she would not be bothered by her constituents or others while coming and going to meetings. In the past, the commission was considering expanding the time limit on public comments. Ms Davis-Johnson said she was too busy to listen to additional public comments. Ms Davis-Johnson, I suggest that you do not really want to be in a public service position. Being a Commissioner is a responsibility not a privilege. Thank you for your time and consideration

2. Ed Williams, (No Address) Good Morning Board Members, My Name is Ed Williams, I am the chair of the group Concerned Citizens for Effective Government. I want to start out by announcing that Georgia Court of Appeals will be holding a hearing in the case of Williams v. DeKalb County on February 8, at 1:30pm regarding the unconstitutional salary increase the commission adopted in 2018. The mission of the commission is to improve the quality of life for stakeholders of DeKalb County through governance, representation, and accountability. You should ask yourself if the commission is providing • Embracing and valuing the diversity of the community. • Creating sound public policy. • Providing independent oversight. • Prioritizing and allocating resources. • Collaborative problem solving. There is a serious disconnect between governance and customer service. This model needs to change. The board has abdicated its primary responsibility to represent the interests of the residents equally throughout the county. We seem to be living in a world today where incompetence is rewarded and those who know better are silent. What is the need for the board if the CEO has can do whatever he wants to do? And where, the law department continues to provide bad legal advice and fails to serve the interests of the county residents and adhere to the rule of law. Instead, they seem to interpret the law in a manner which defies the basic principles of comprehension and logic. The

commission has a fundamental responsibility of oversight, governance, and accountability through its power to adopt resolutions and rules that apply to the employees, and the county residents. The commission should include in its decision-making, planning, discussions, and appointments a cross-section of residents from throughout the county. Whenever a decision has to be made by the commission the first question should be, is it fair, and has the stakeholders had an opportunity to be heard? Have the stakeholders and principals been included in the decision-making process, and is it in the best interest of our residents. The commission should not allow unelected bureaucrats to determine policy in which the board is empowered to make. The commission has the power to request reports from each of the departments to monitor services and outcomes and hold a hearing on specific matters that are specific to your role as an administrative board. The residents expect the CEO and commission to follow the law, to be proactive and solve problems, and to be competent and diligent in the performance of your duties. The commission should maintain its independence and it should hold all management teams responsive to the needs of the residents. The commission should ask the tough questions of the CEO and demand better alternatives from all the advisors and counsel. Don't just accept the first answer, get a second opinion. I support the commission when you follow the law and you perform your duties as authorized under the law. I will not support those things that violate the law and are not in the interest of the people. Citizens have a right to know what their government is doing at all times and to participate. The law should not be used to silence the people and the commission should seek to resolve issues without the arrogant attitude of a bully. I have made several efforts to expose the inequities using the "see something and say something" approach and warn the board. Today, I ask the commission not to remain silent. Will you be the voice who says enough, and stand up and represent all the people? Thank You
