Additional Solution Package

Since the acquisition of ZetX, we have added additional features and functions to the TraX solution. We are now calling it **Accurint TraX**.

- Real Time Phone Search on any phone number within your CDRs to find out the "who" the device is registered to.
- Layer the link chart (relatives, associates, etc) from AVCC onto the map.
- Layer any crime type that is in the system onto the map.
- Tower dump comparison to easily identifying common numbers from multiple towers.
- Single-sign-on so only 1 ID and password for all solutions.

Optional Add-On:

- **VIPER** – real time pen register. The big difference with this solution is that it's 100% cloud based so required no hardware purchase

Jail Booking Data includes over 140M+ booking records and 38M+ offender images from 2,000+ law enforcement databases.
