RE: Sole Source Letter for Dekalb County Police Department

Dear Karrie Weddle,

The LexisNexis® Desk Officer Reporting System (“**DORS**”) is the wholly owned, intellectual property of LexisNexis Coplogic™ Solutions Inc. (“**LexisNexis**”). LexisNexis is the sole source for DORS licenses, ongoing support and maintenance services. DORS is able to interface with the Records Management Systems (RMS) vendors of most law enforcement agencies, including Central Square.

Designed for law enforcement, DORS automates the reporting process for incidents occurring within a law enforcement agency’s jurisdiction. DORS collects and gathers information from a wide variety of report types – such as minor vehicle accidents and other incident reports – from members of the general public (“**Users**”). All reports filed using DORS can be automatically imported into most records management systems, with accurate and appropriate UCR and NIBRS compliant coding. DORS also has the ability to provide a separate secure filing area and login to allow agency-designated personnel such as loss prevention officers, to file dynamically created agency report types (e.g., shoplifting report).

DORS was created with security in mind. All information submitted by Users is collected and transferred via a 128 bit encrypted SSL connection and uses the J2EE standard. An email is generated to the Users once the report has been submitted. The system does not rely on cookies or User permissions. DORS issues a temporary report number to the Users and places the temporary report into an administrative holding area for review and modification by the appropriate administrator within your department. The administrator logs into the system via a 128 bit encrypted SSL connection to approve, reject, edit or print reports as appropriate. Rejecting a report deletes it from the system and sends an appropriate email to the User. Approving the report issues an official case number that is pulled from an upper-block of reserved case numbers, places it in a queue to be exported to your designated records management systems, and sends an appropriate email to the user. DORS also allows agency administrators to download and print approved reports.

To the best of our knowledge, DORS is the only online reporting solution with the *Report Merge* functionality – a process that actively monitors inbound reports for possible duplicates or supplements, and enables the agency reviewer to either merge the report as a supplement, mark as a duplicate or continue as an original.

DORS is configurable and gives the agency the ability to allow citizens to choose from several languages including English, Spanish, and Simplified Chinese. DORS also has the ability to include additional languages at the agency’s discretion.

There is currently no other off the shelf solution on the market that provides the exact same

features, configurability, capabilities, and security framework as DORS. DORS and related services are not available from any other vendor.

If you have any questions or require additional information, please do not hesitate to contact Jared Tivnan or me directly. Jared Tivnan can be reached by phone at 413-887-9284 or via email at Jared.Tivnan@LexisNexisRisk.com.

Respectfully,

Jason LaRue
