PETITION OF ASSESSMENT: Each year, after the construction has been completed, the finance director shall be responsible for calculating each property owner's annual pro rata share of the costs. The tax commissioner shall be responsible for collecting from the property owners payment of their pro rata share of one-third (1/3) of the costs associated with the sanitary sewer, not to exceed seven thousand five hundred dollars (\$7,500). Beginning January 1st of the year following the completion of construction and for each year thereafter, the tax statement issued to each such property owner shall include a separate line item tax showing each property owner's annual pro rata share of the costs until paid.

The annual pro rata share of the one-third (1/3) share of the costs, as limited by the seven thousand five hundred dollar (\$7,500) cap, shall become due and payable at the same time that County taxes are due and payable. Each assessment shall become a lien against the property served on January 1st of each year in the same manner that a lien attaches for County taxes, and such lien shall cover the property of the owner until such assessment is paid.
