38	Installation of fuel tank: Can you perform this duty? <u>Yes</u>	Cost-TBD	Cost-TBD

Number of Bids Received: 1		
----------------------------	--	--

Notes: This cost analysis shows that the same vendor was both awarded and also the only bidder on the last two ITB's for this contract. The vendor has held the pricing without a price increase except for item nos.: 5,17 and 18. The vendor said this was due to an increase in disposal/material costs for these items. The market survey shows that many of the vendors that do this type of work are located out of state. Some of the local vendors felt they couldn't provide all the services asked for in the solicitation or they didn't feel they could be competitive because of the specifications and past results. One bidder said he was too involved with the Covid Pandemic to take the time to bid but would be interested in the future.
