PURPOSE:

This contract consists of an emergency purchase for the repair of 393 blocks and 8 shields within the EMAS damaged due to a recent crash. To bring the system back to its original design requirements, the damaged materials must be from the original manufacturer. This will ensure that the system meets the approved FAA design requirements. The inability for the Airport to use the EMAS at the main runway poses a risk to the public health, welfare, and safety. This request seeks to ratify the replacement of EMAS Blocks.

RECOMMENDATION:

Recommend ratification of Purchase Order No. 1362014 with:

Runway Safe, Inc., 2239 High Hill Road, Logan Township, New Jersey 08085
