STAFF ANALYSIS: Based on the impact analysis and land use analysis above, the Special Land Use Permit request is consistent with the following intent of the 2035 Comprehensive Plan: “promote the redevelopment of declining commercial corridors and improve the function and aesthetic appeal of more stable commercial corridors”. Per the impact analysis above, the Special Land Use request meets the standards and adequacies of the design and aesthetic of the surrounding community. The request presents limited negative impacts on current traffic conditions and on the natural environment. The size, scale, and massing of the proposed use corresponds with some existing buildings in the vicinity and does not create a negative impact on the built environment. Per the impact analysis, the Special Land Use request will not adversely affect the existing use or usability of adjacent or nearby properties. The Department of Planning and Sustainability recommends “Approval with Conditions”.
