**PURPOSE:**

The County has utilized the Innovyze water distribution and sewer system modeling software since 2006. This proprietary software uses mathematical modeling to predict water or sewer pipe failures; allows for the creation of a single model for the sanitary sewer and sewer system; and allows for the modeling of the water distribution system. Additionally, the InfoWorks ICM-Sewer Edition, InfoWorks ICM Viewer, InfoMaster Desktop Sewer Floating, InfoWater Executive Suite Floating, InfoWater Floating, and InfoWater UDF Floating software modules integrate with the County’s existing CityWorks and geographic information system. This request is for the continued utilization of this proprietary software for an additional two (2) years with the sole provider.

**RECOMMENDATION:**

Recommend approval of the sole source with:

Innovyze Inc., 6720 SW Macadam Ave., Suite 150, Portland, OR 97219

Amount Not To Exceed: \$157,224.00
