**NEED/IMPACT:**

The GDOT project, I-285 at SR 155/Flat Shoals Road Interchange Reconstruction began construction in 2014. The project includes the widening of Flat Shoals Road to six lanes and includes the construction of a new bridge over I-285. GDOT requires the water and sewer facilities in the public right-of-way which are in conflict

The County entered into a Contact Item Agreement with GDOT to include water and sewer installations/adjustments for the Flat Shoals Interchange Reconstruction project to prevent construction delays, minimized impact to adjacent property owners and the traveling public. In order to complete the project, additional relocation work was required. Therefore, the County must agree to pay the estimated cost of completing; the exact payment amount will be based on unit bid prices.

**FISCAL IMPACT:**

Schedule Delay - Resulting in delay claims

Change in scope (rework) - Impacts to budget due to possible design and field changes

Violation of State Law - Fines
