PURPOSE:

Consists of piggybacking off the competitively let City of Savannah annual contract for the provision of trenchless sewer rehabilitation services. These services will assist DWM in completing over 500,000 linear feet of sewer line rehabilitation by June 2020. The County will also utilize existing contracts, where possible, to complete the necessary linear footage but does not currently have a contract that can provide advantageous pricing, larger pipe diameter, or the quantity of services needed.
