RECOMMENDATION:

COMMUNITY COUNCIL: DENIAL

PLANNING COMMISSION: NO RECOMMENDATION

PLANNING STAFF: DENIAL

STAFF ANALYSIS: The intent of the Light Industrial Character Area is to identify areas appropriate for industrial type uses. The location of these areas shall preserve the appeal and appearance of residential and commercial areas from the prospective intrusion of light industrial land uses. Light Industrial Character Area Policy number three (3) states that the Light Industrial Character Area exists to ‘Protect the encroachment of industrial uses into established residential areas.’ The subject parcels are adjacent on all sides to parcels that have a Suburban Character Area designation. The Suburban Character Area designation’s intent is to preserve established residential areas. This application to amend the subject parcels’ Future Land Use is inconsistent with the surrounding properties’ Future Land Use designations and the policies of the Comprehensive Plan. Because of these policies staff’s recommendation is “Denial”.

PLANNING COMMISSION VOTE: NO RECOMMENDATION

Two motions were made; one to approve and one to deny. Both motions failed for lack of a majority vote. This application moves forward, with no recommendation from the Planning Commission.
