PURPOSE:

Consists of providing the design, furnish, permit, construct, startup and successfully commission the UV

disinfection process at SFAWTF. These services will provide UV disinfection for plant effluent and allow for the decommissioning of the existing chlorine disinfection and de-chlorination processes. The chemical costs of chlorine disinfection and dichlorination are usually greater than electrical power cost for UV disinfection. Retiring the hazardous gaseous chlorine will provide the County significant health and safety benefits.

RECOMMENDATION:

Recommend award to the highest scoring proposer:

Morgan Contracting, Inc., 900 Dutch Valley Drive, Knoxville, TN 37918

and authorize the Chief Executive Office to execute the contract and all associated documents.

Evaluation Committee Score:
