**RECOMMENDATIONS:**

**COMMUNITY COUNCIL:** APPROVAL

**PLANNING COMMISSION:** APPROVAL WITH CONDITIONS.

**PLANNING STAFF: APPROVAL WITH CONDITIONS.**

**STAFF ANALYSIS:** The proposal is consistent with the policies of the 2035 Comprehensive Plan. It would allow an existing place of worship to thrive and to provide activity space for members of the Church and the surrounding community. The current use of the property for a place of worship is compatible with other properties and land uses in the surrounding area, as well as adjoining land uses, which are a school on one side, a light industrial plant on the other, and railroad tracks to the rear of the property. The proposed expansion would not change the use of the property nor make it incompatible surrounding properties and land uses. Based on comments by the County Division of Transportation and the County Division of Traffic Engineering, there is sufficient traffic carrying capacity for the proposed use, and it is not expected to create congestion on the surrounding street system. Use of the proposed gymnasium is not expected to create adverse impacts upon any adjoining land use due to its hours or manner of operation. Therefore, the Department of Planning and Sustainability recommends “Approval with the following conditions”:

**COMMISSION VOTE: Approval with Conditions, 8-0-0.** P. Womack, Jr. moved & A. Atkins seconded for approval with conditions as recommended by Staff.

**COMMUNITY COUNCIL VOTE/RECOMMENDATION: Approval, 7-0-2.** The majority of the Community Council Board members present at the meeting concluded that the expansion is suitable.
