The recommendations in the Draft Airport Master Plan Update support the mission and vision of PDK to become the southeast's finest general aviation airport by providing operation of a fiscally responsible, business-oriented airport while preserving the quality of life in the community.

The Draft Master Plan has gone through a 24-month process which included five committee meetings with three different committees and three open house events that were available for all Citizens.

The Draft Master Plan was briefed to the Airport Advisory Board (AAB) on February 14, 2022, and a unanimous motion (6-0) to recommend approval passed.
