**PLANNING STAFF:** Approval with Conditions

**PLANNING STAFF ANALYSIS:** The proposed rezoning request from R-100 (Medium Lot Residential) District to RSM (Small Lot Residential Mix) District is compatible with adjacent non-residential uses west and east of the subject site. The request for attached single-family townhomes provide an appropriate land use transition from institutional and recreational uses to single-family residences east of the subject site. Located in an Institutional Character area, the request for single-family attached residences is consistent with the following plan policies: Protect stable neighborhoods from incompatible development that could alter established single-family residential development patterns and density; In appropriate locations encourage residential development to conform with traditional neighborhood development principles. Therefore, it is the recommendation of the Planning and Sustainability Department that the application be **“Approved”** subject to the attached recommended conditions:

**PLANNING COMMISSION VOTE:** 7-1-0. P. West moved, J. Edmondson seconded for approval with Staff's conditions. T. Snipes opposed.

**COMMUNITY COUNCIL VOTE/RECOMMENDATION:** 4-2-0/ Approval.
